A 20x9 grid with alternating yellow and white rows. The grid consists of 20 rows and 9 columns. The rows alternate between yellow and white, starting and ending with a yellow row. The columns are all of equal width and height.

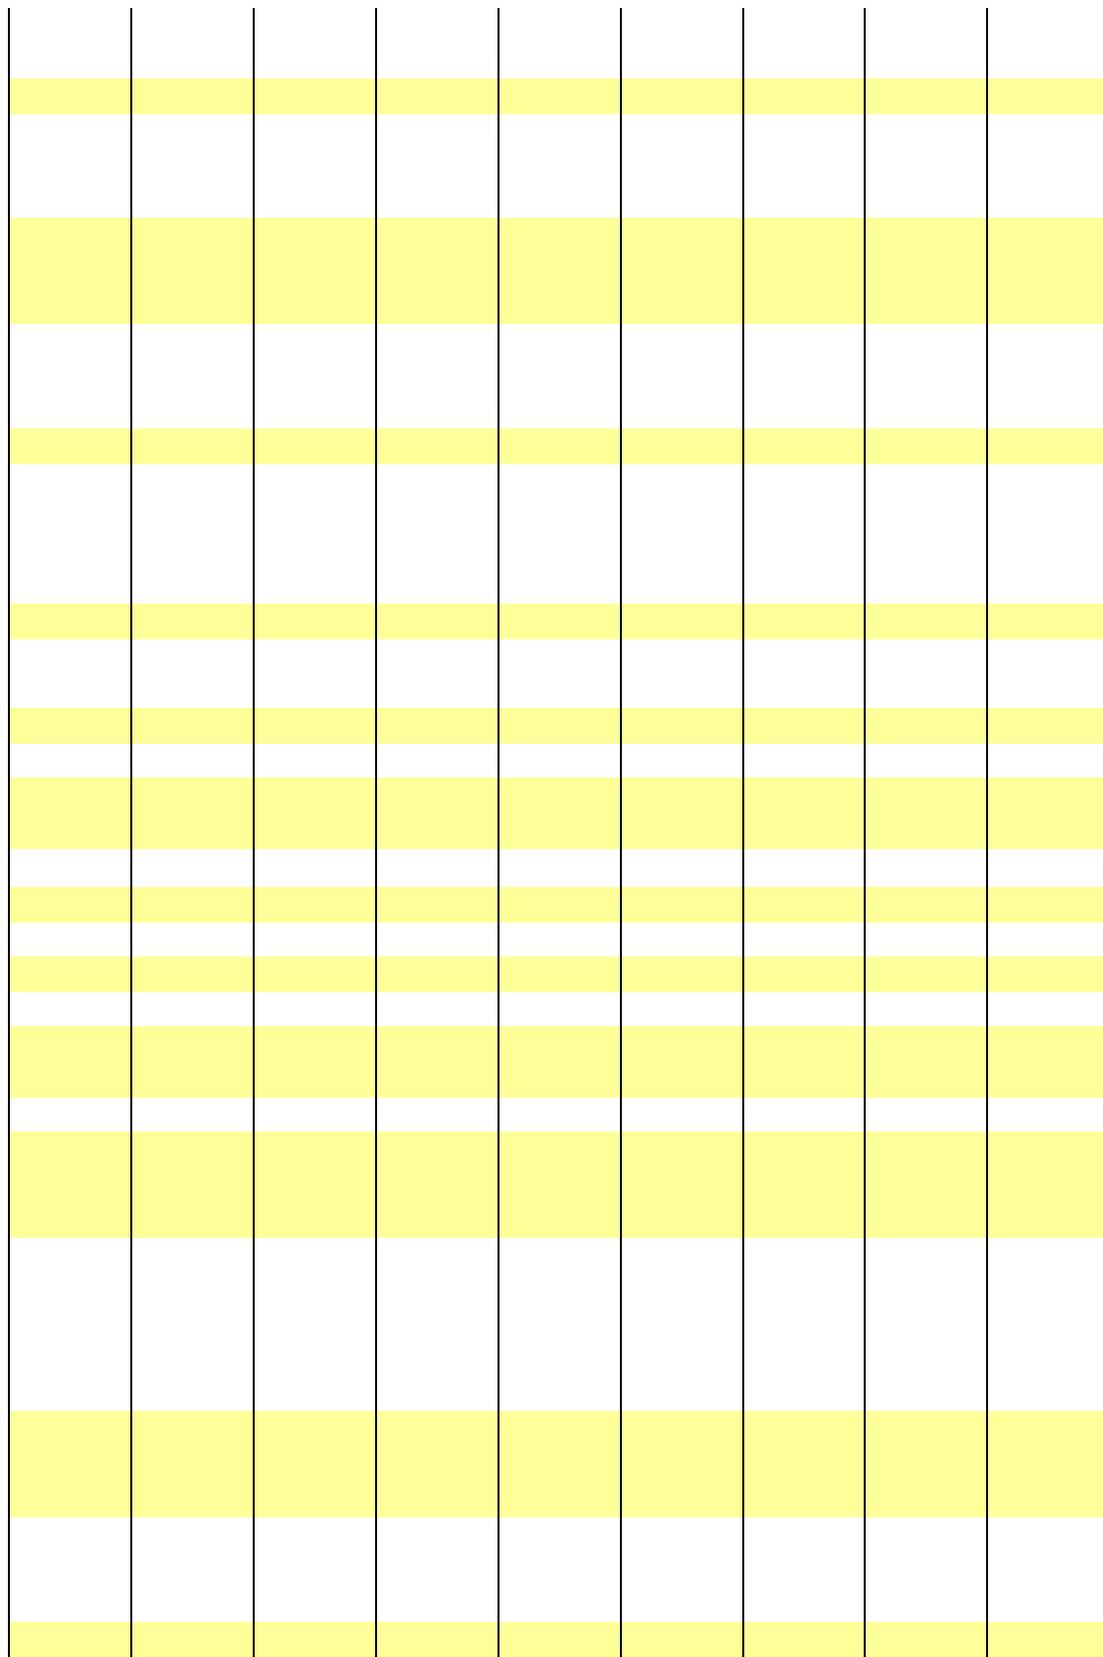

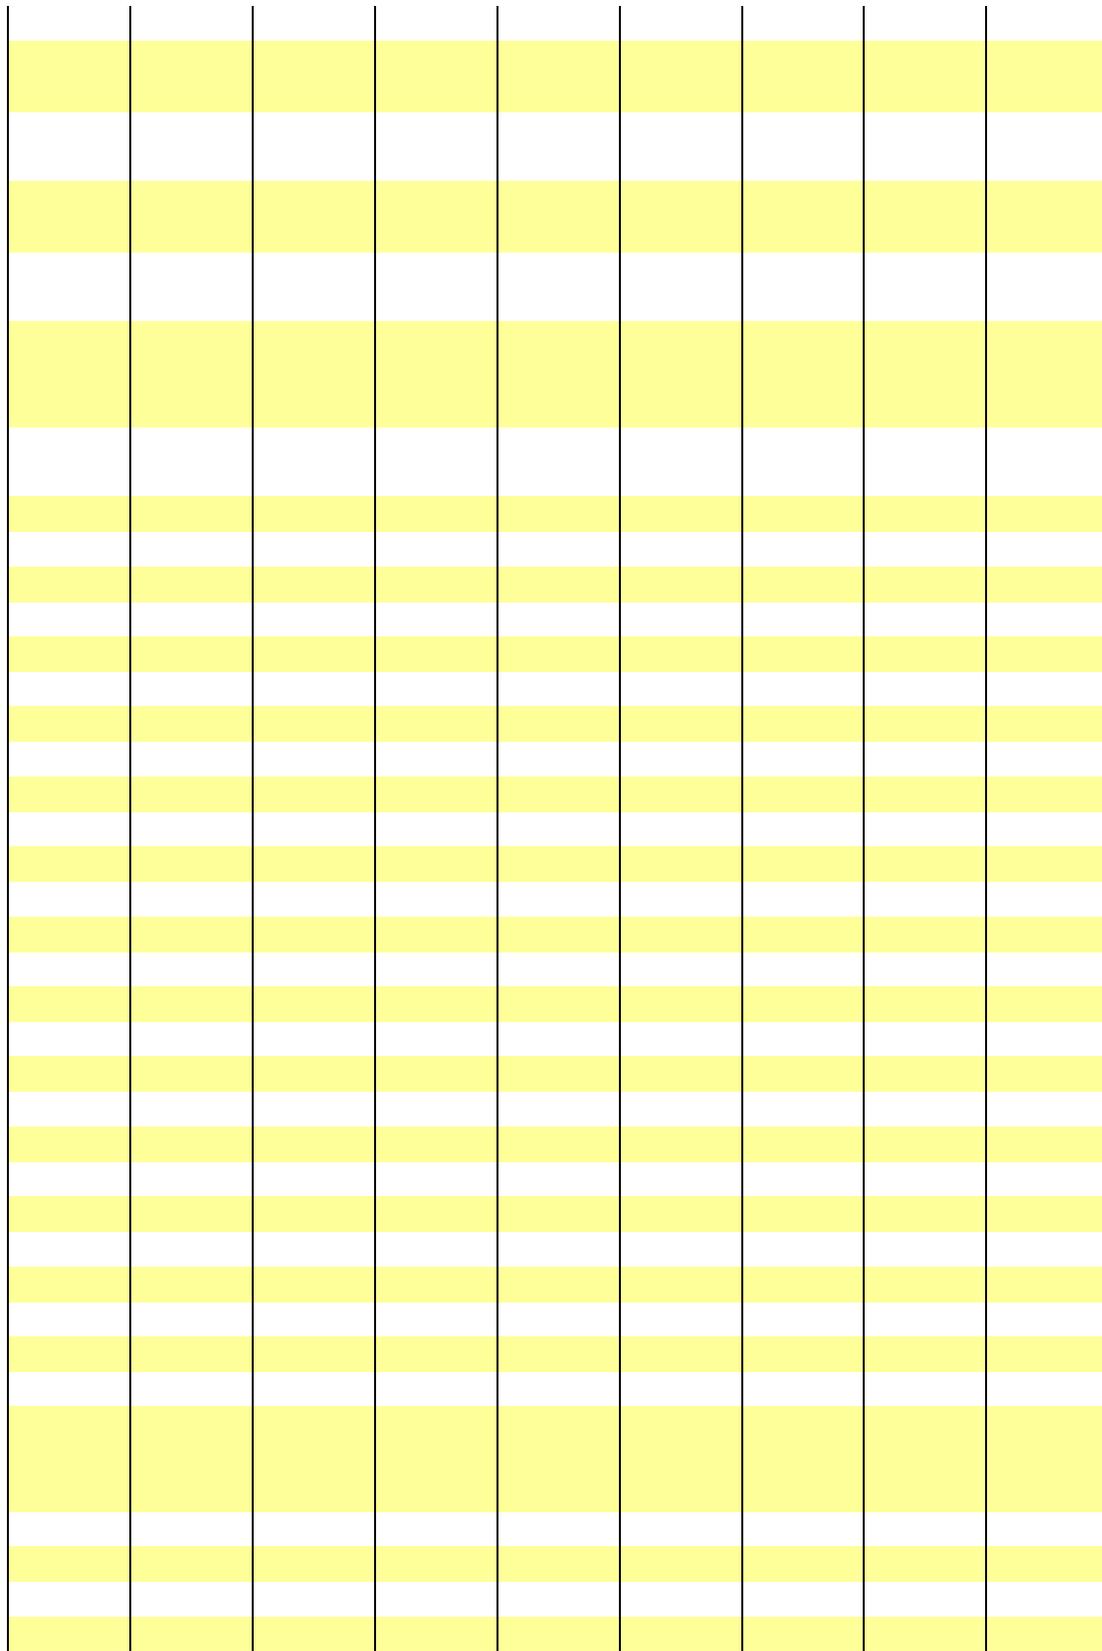

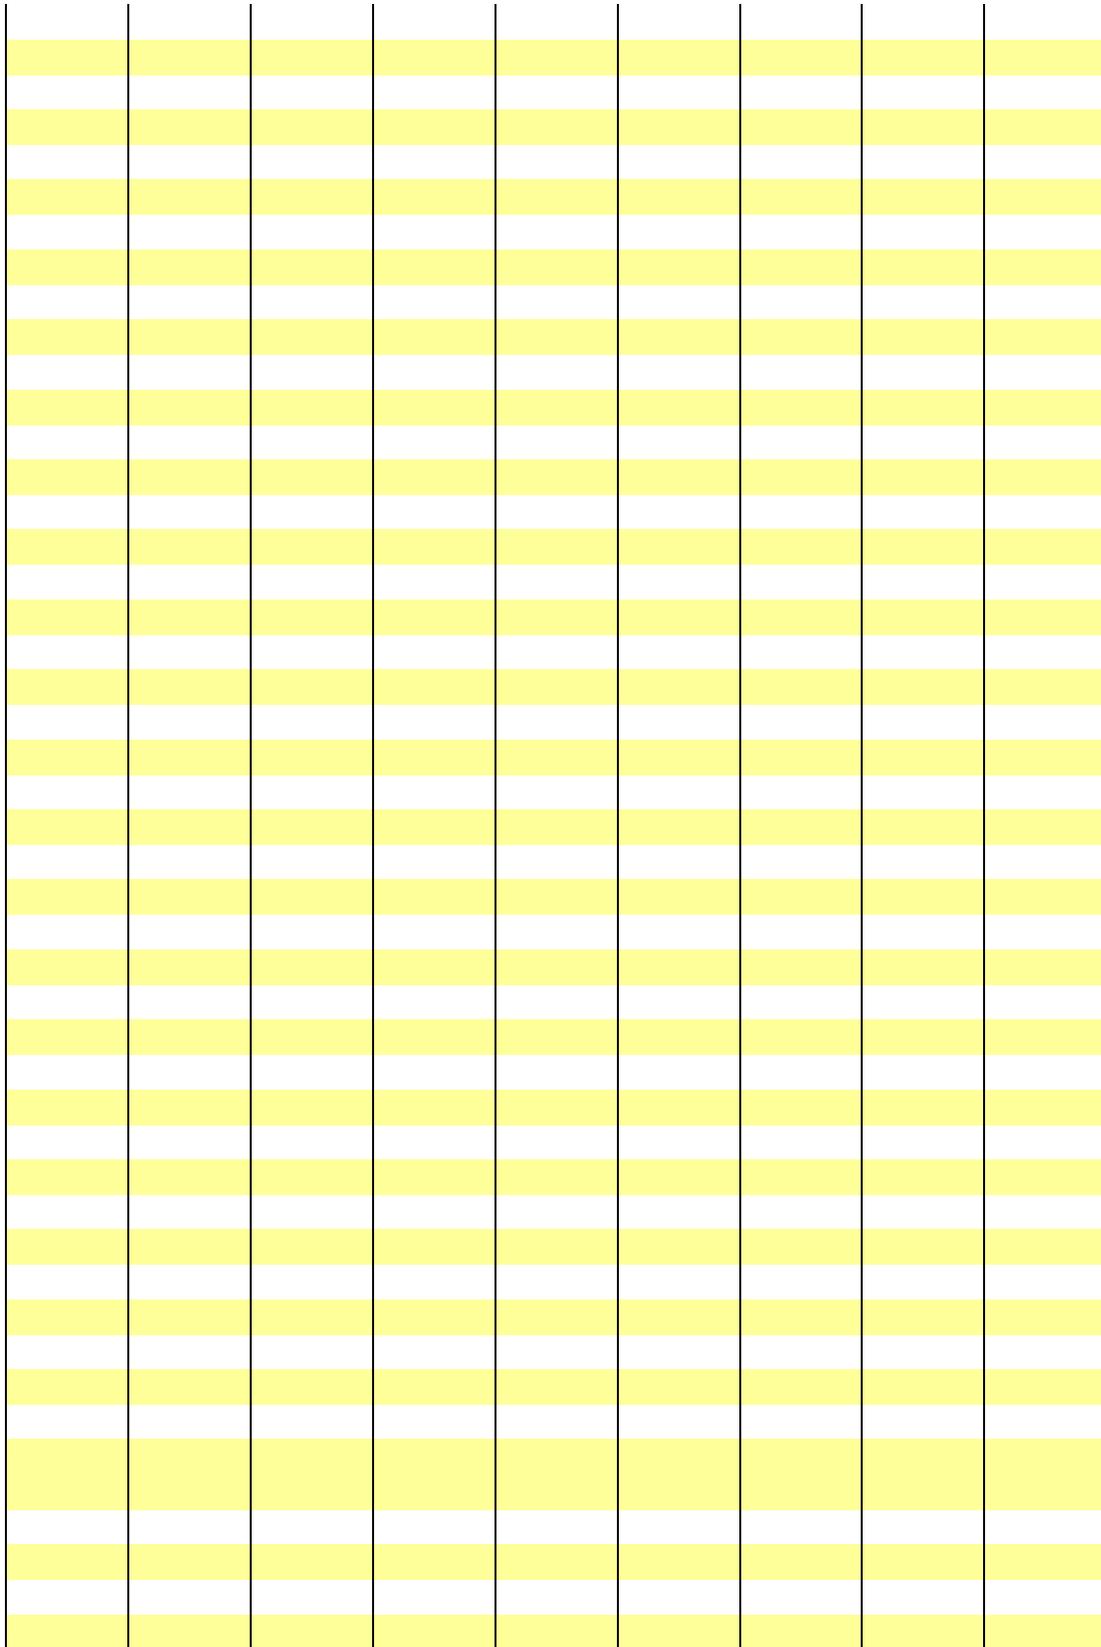

The image displays a grid of 9 columns and 25 rows. Each cell in the grid is a solid yellow rectangle. The grid is defined by thin black lines that form a border around the entire set of cells and separate each individual cell. The overall appearance is a uniform, monochromatic grid.

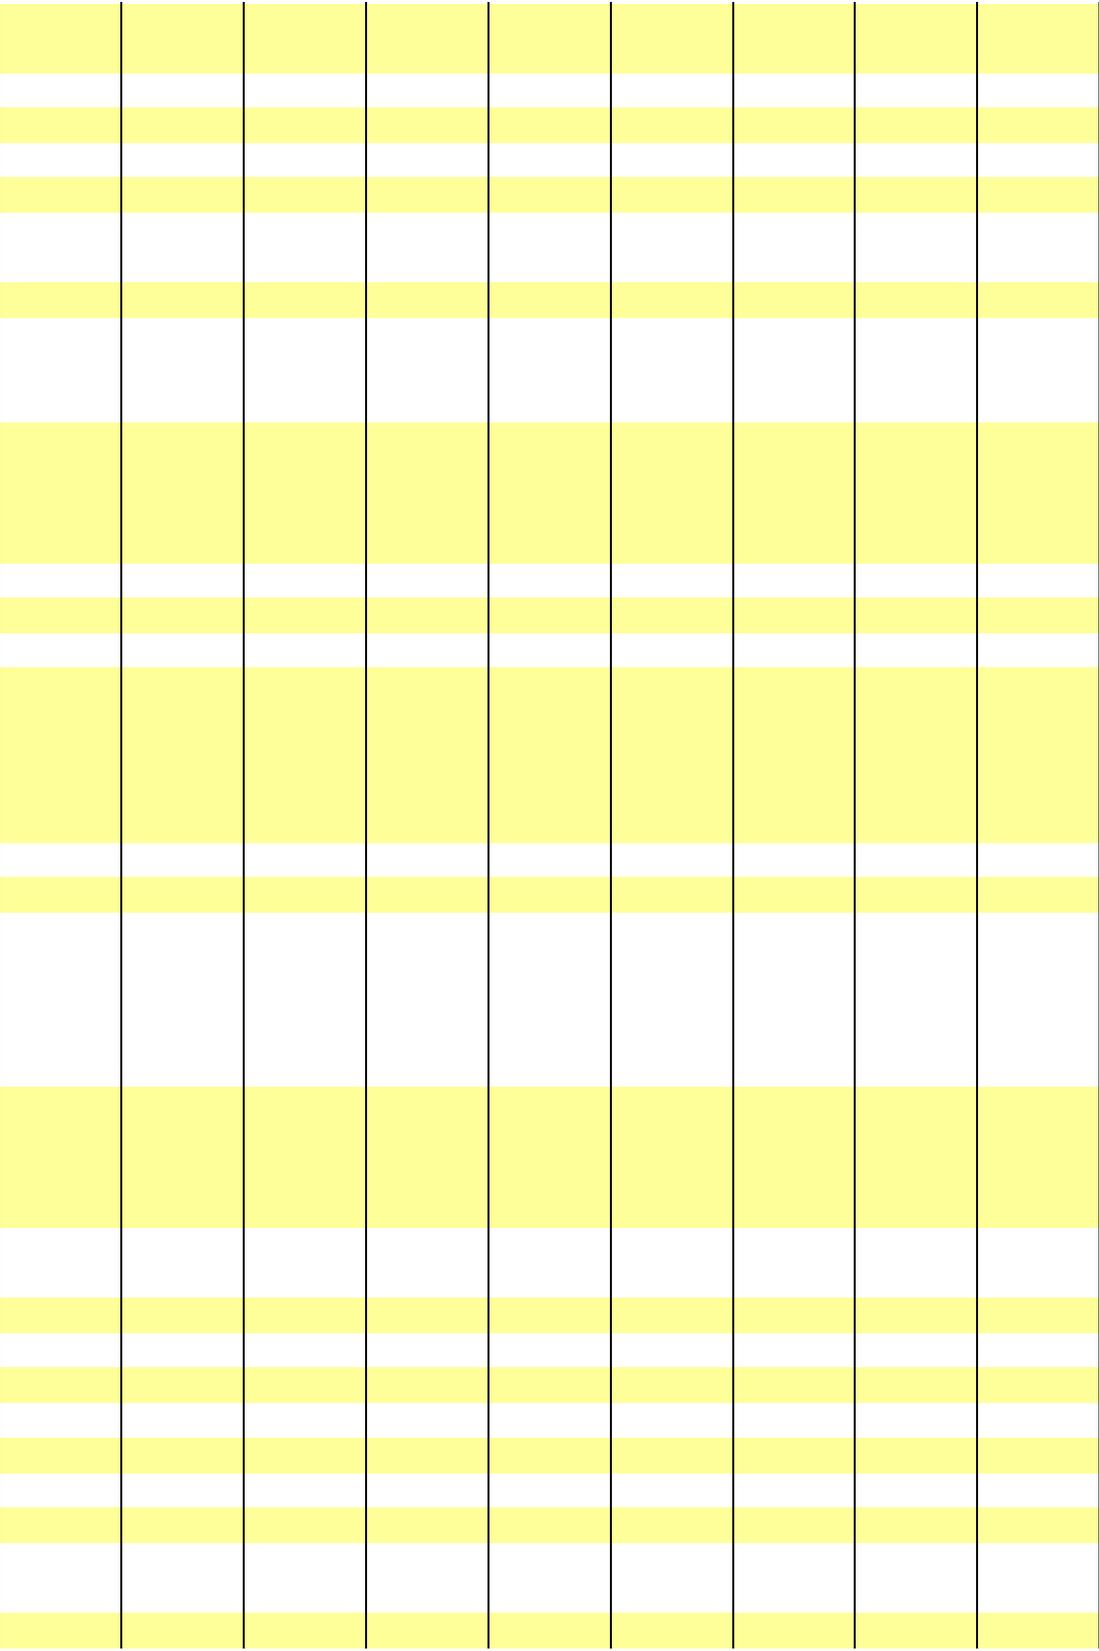

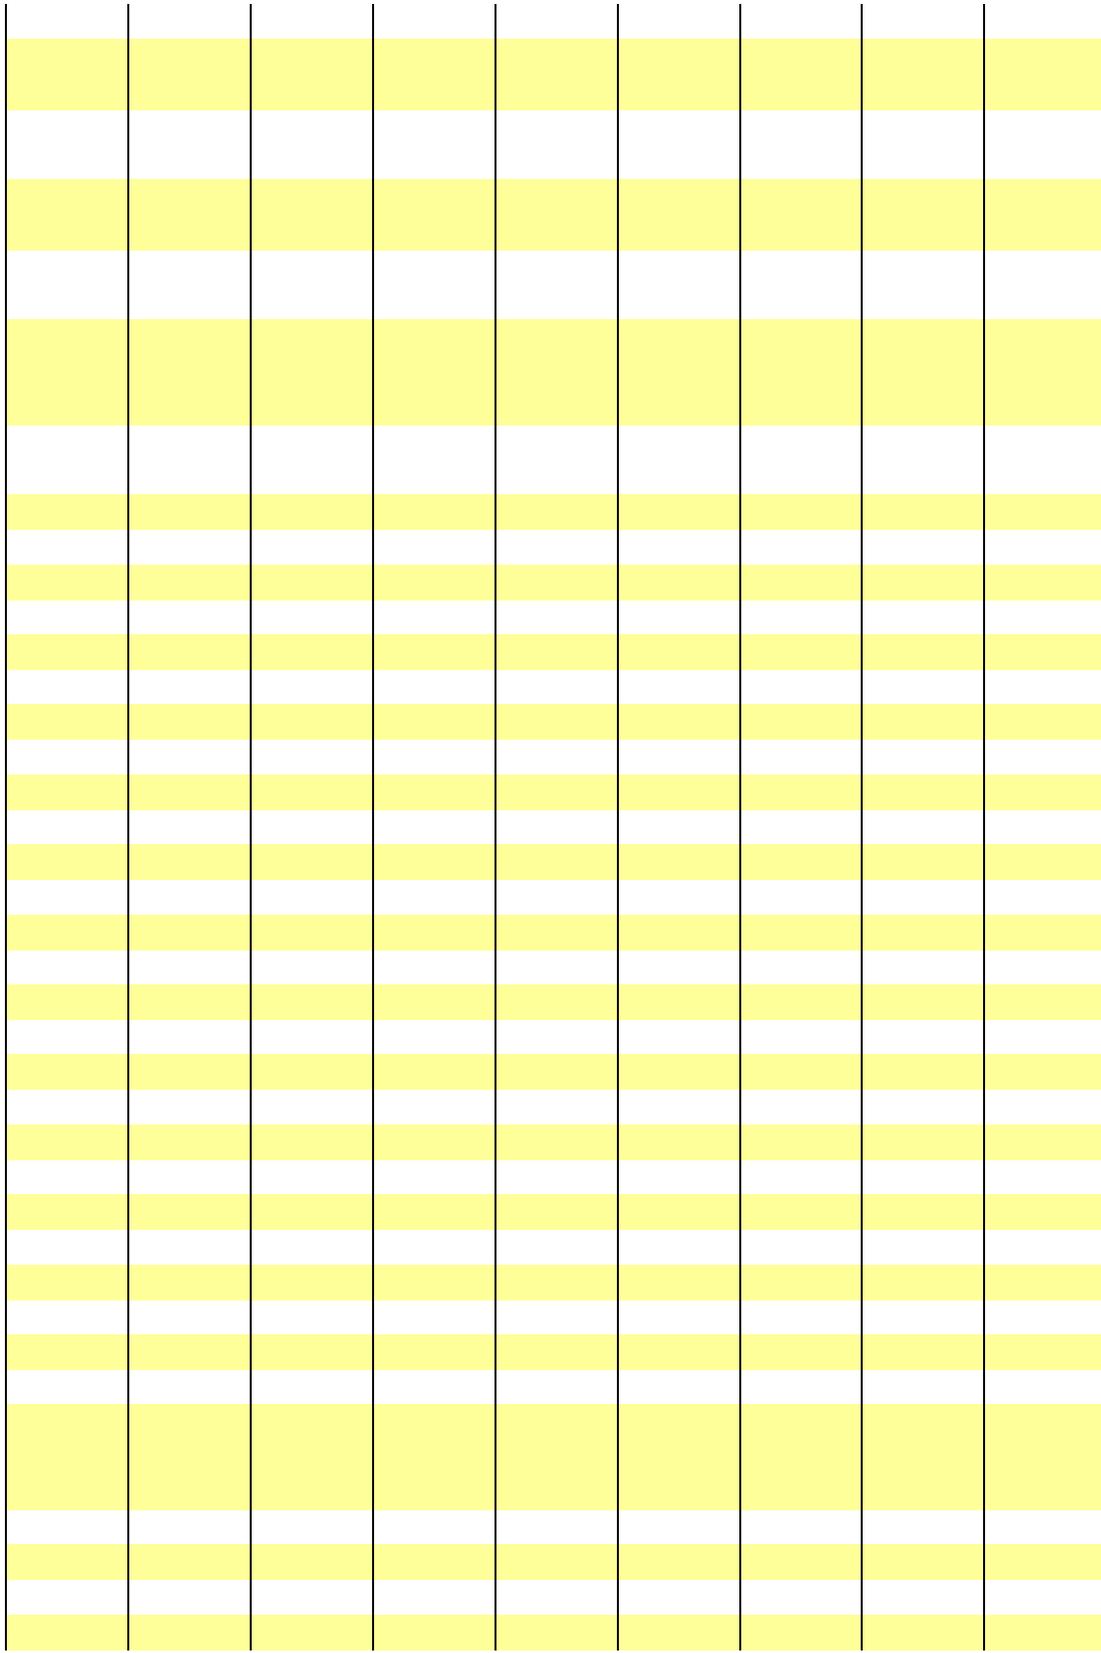

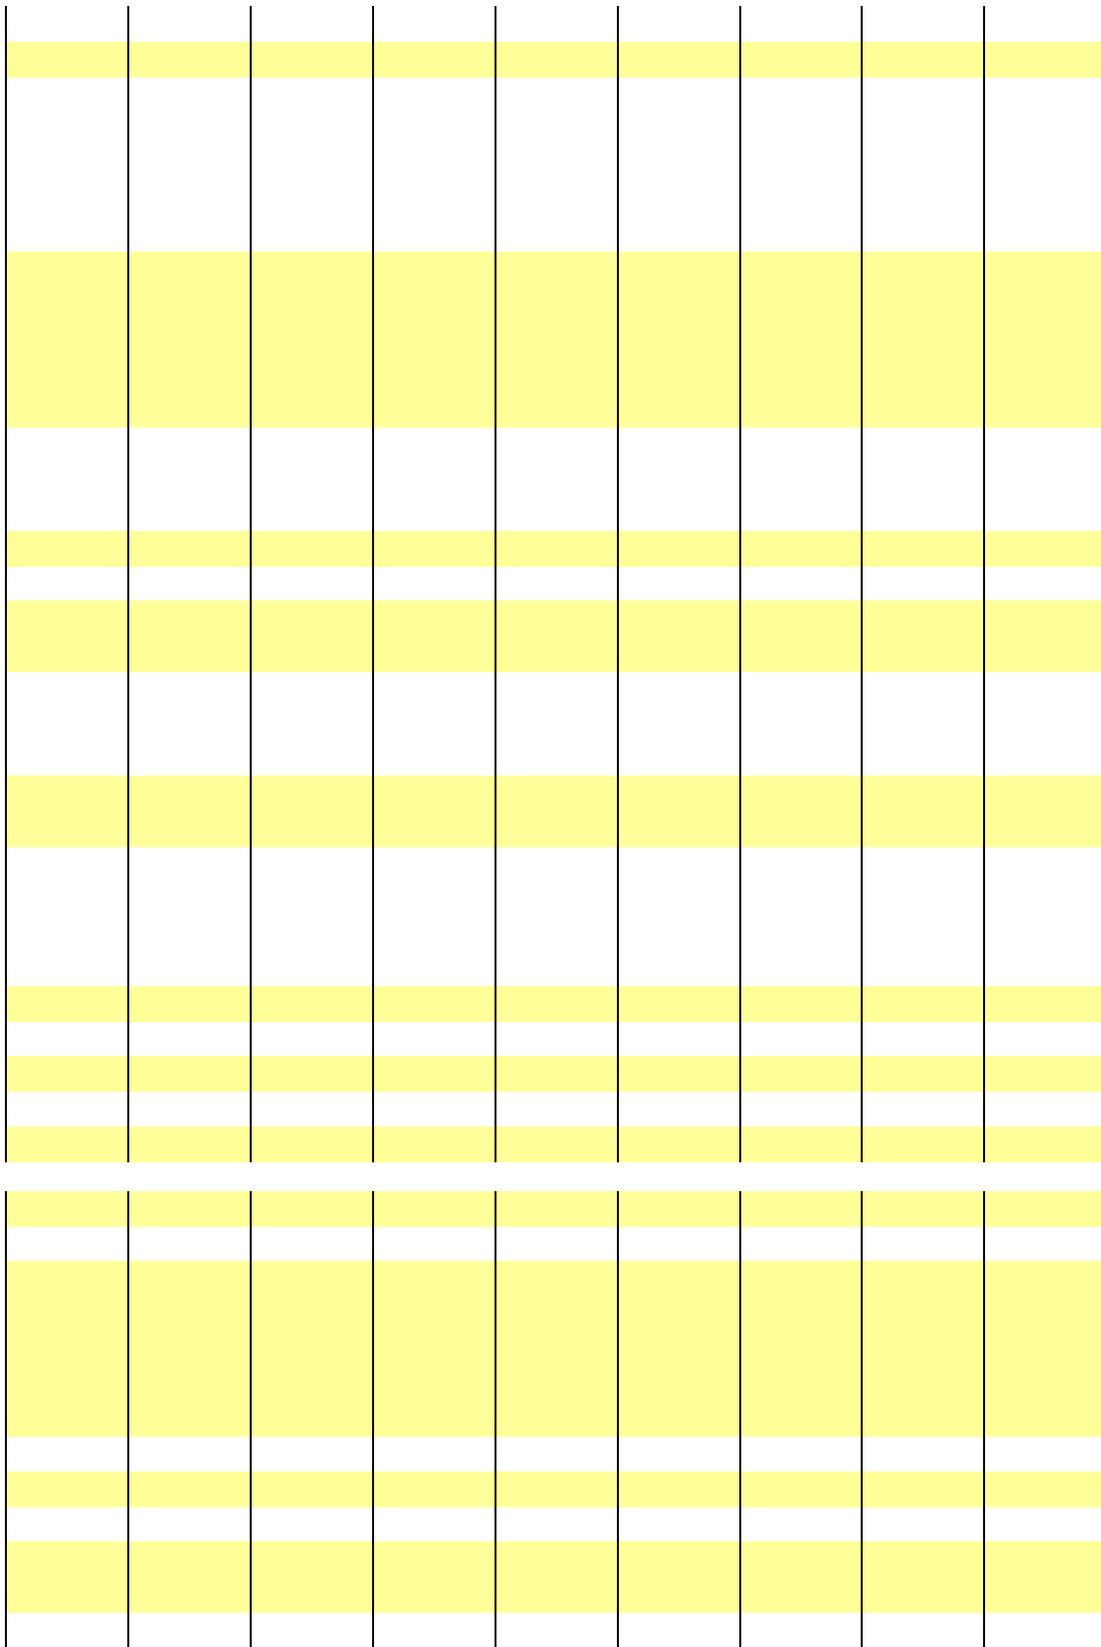

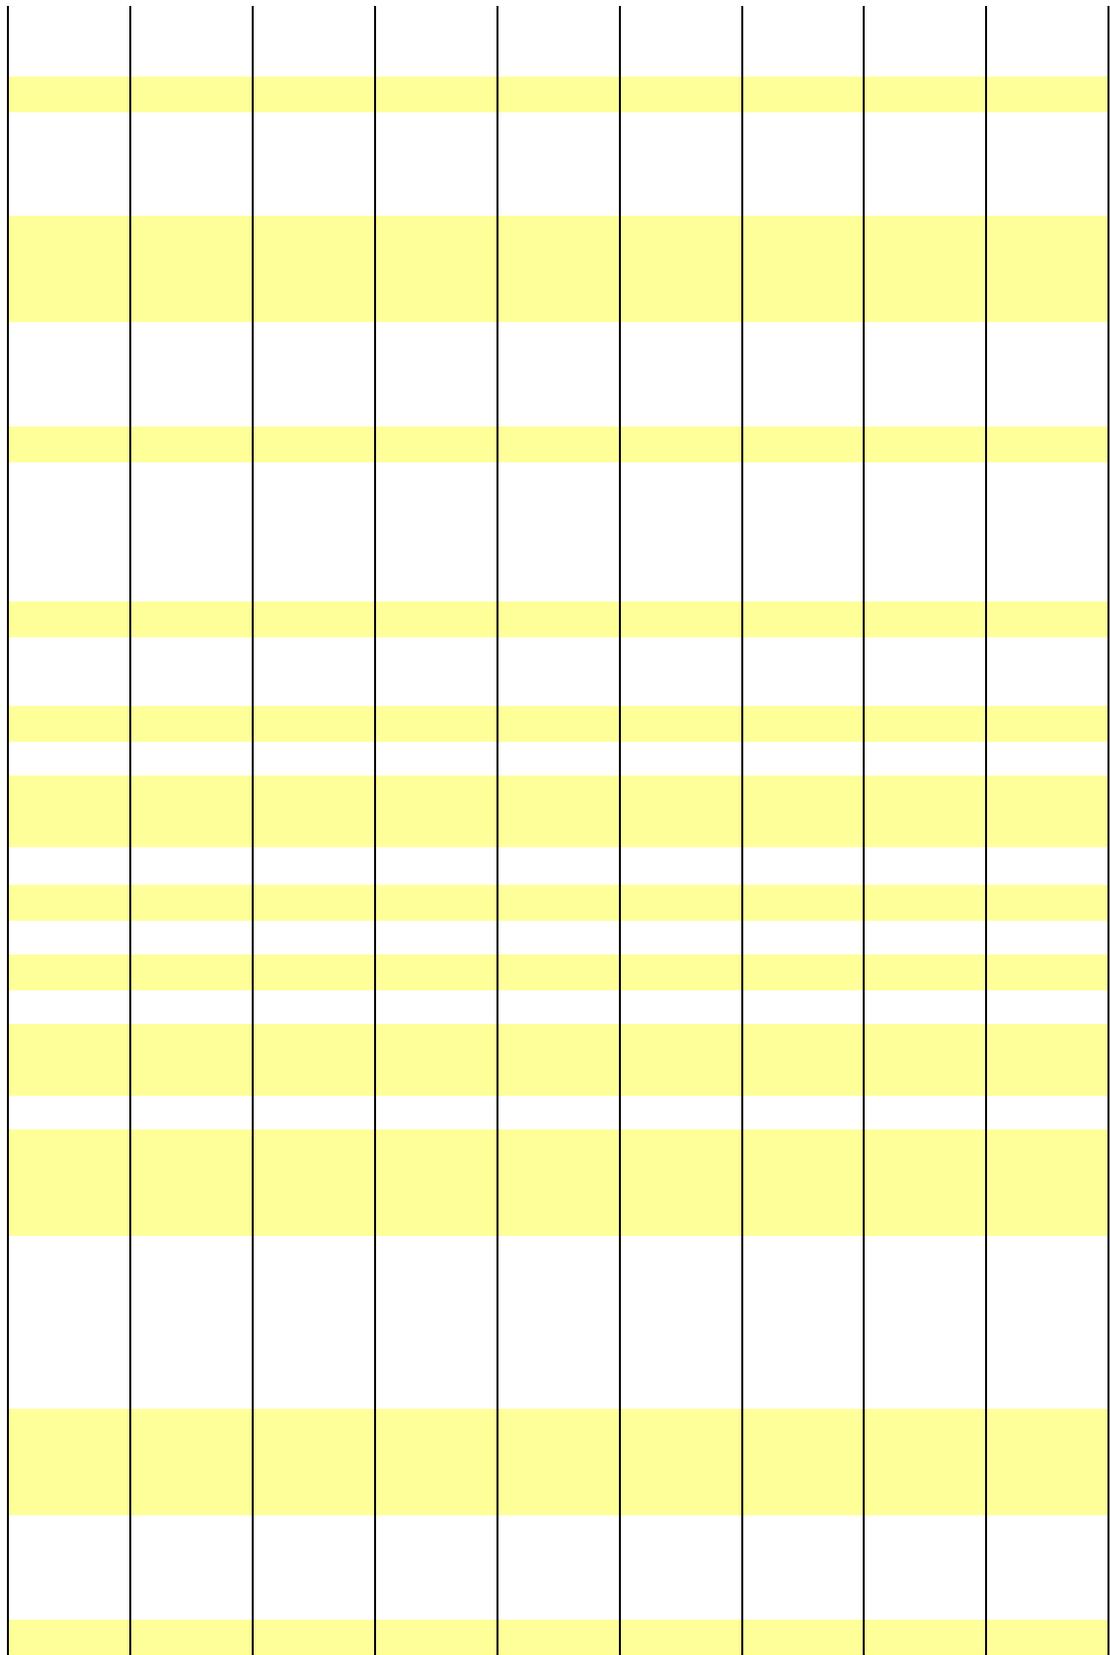

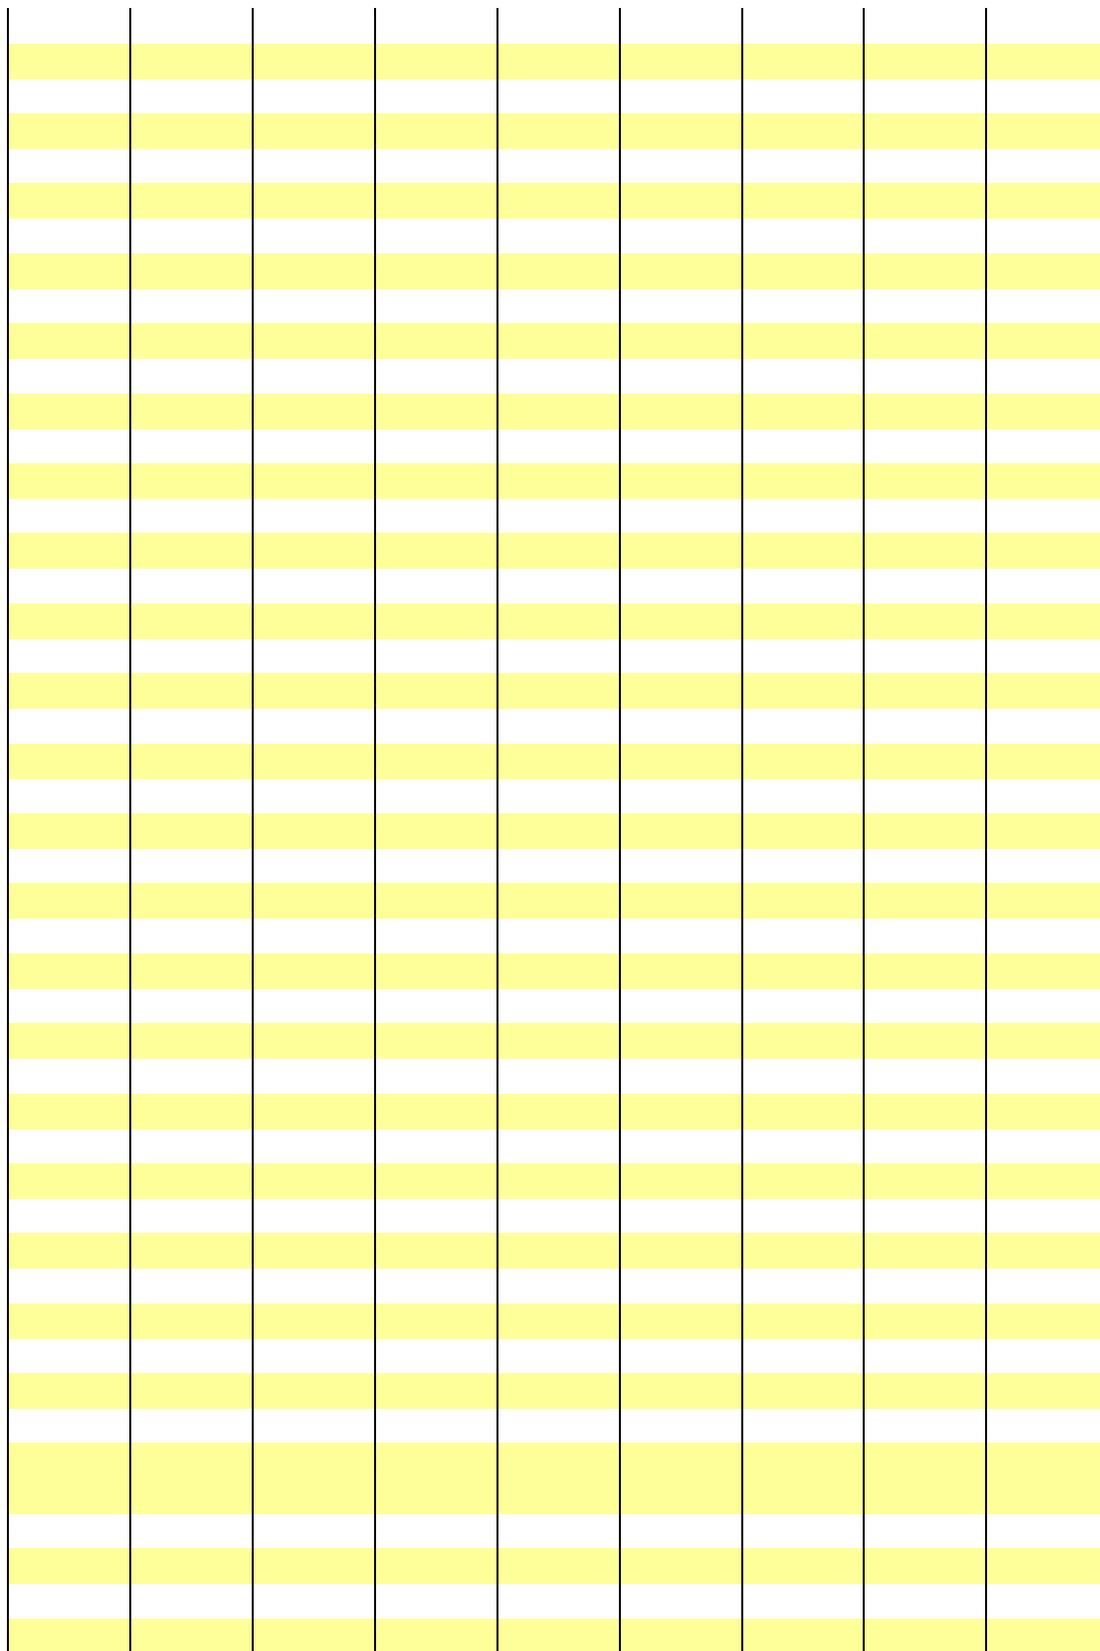

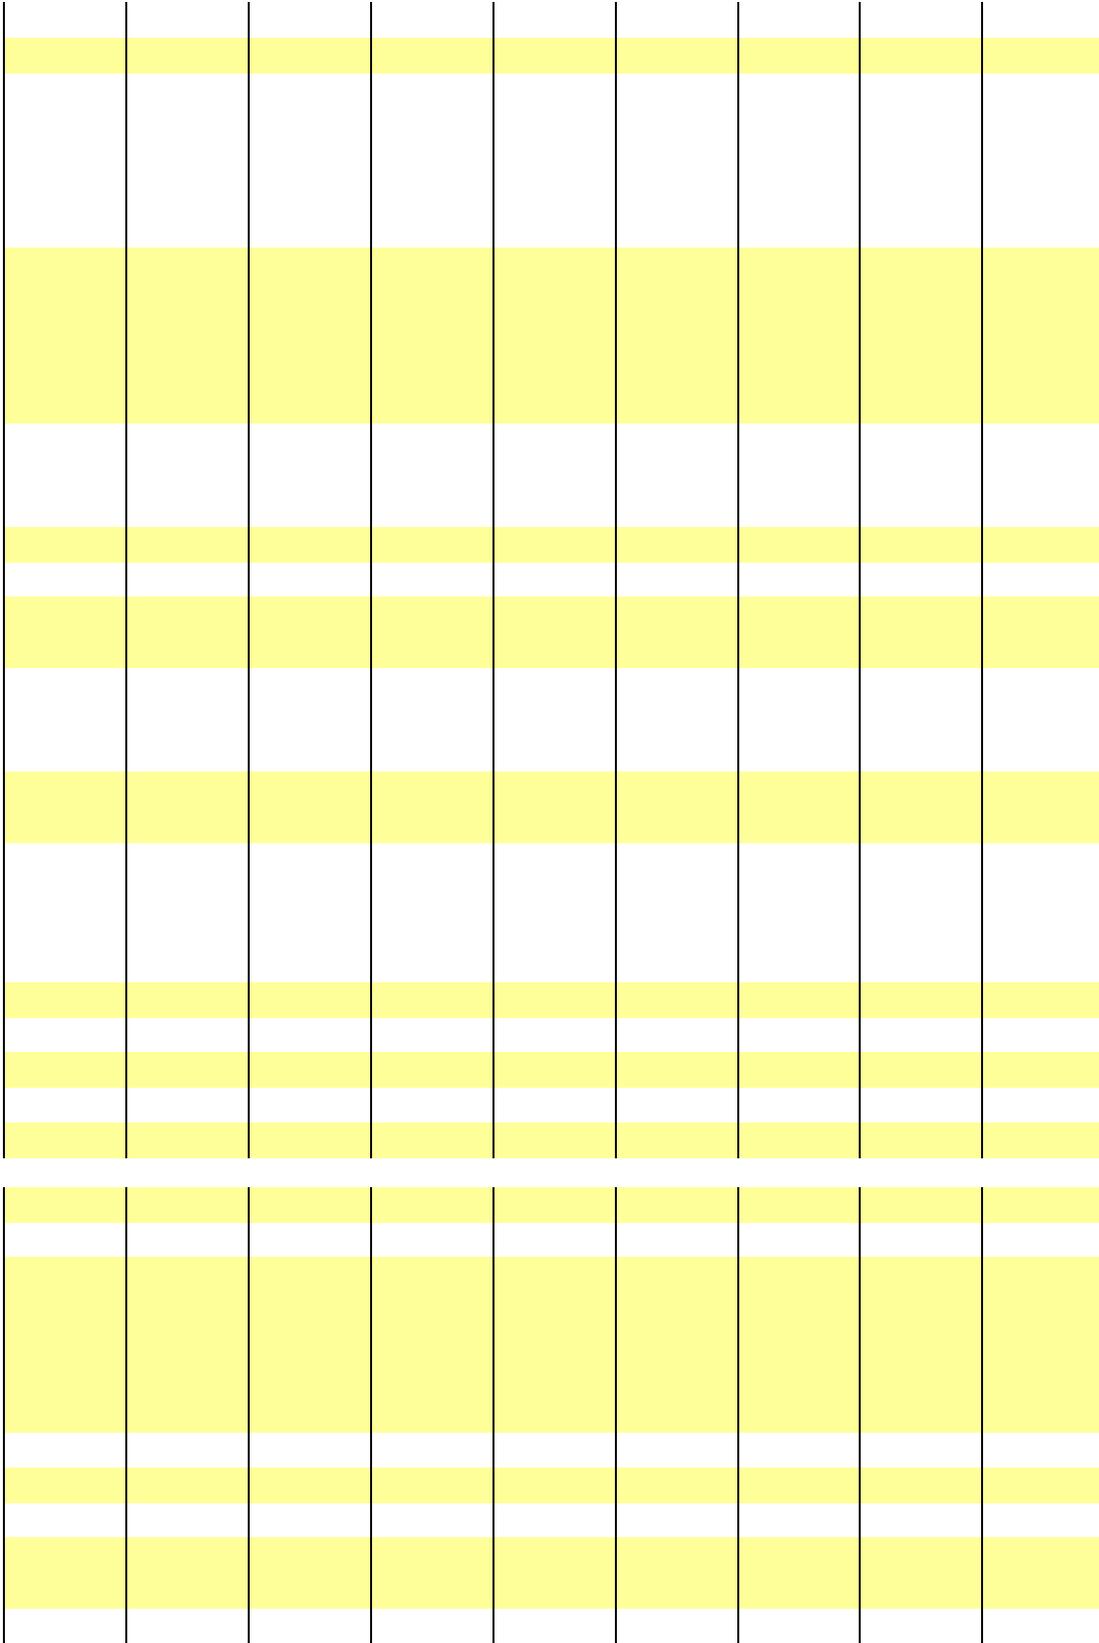

The image displays a grid consisting of 9 rows and 10 columns. The grid is defined by thin black lines. The rows are filled with a repeating pattern of horizontal stripes. The stripes alternate between a light yellow color and a white color. The sequence of stripes from top to bottom is: yellow, white, yellow, white, yellow, white, yellow, white, yellow, white, yellow, white. Each stripe is uniform in height and spans the entire width of the grid.

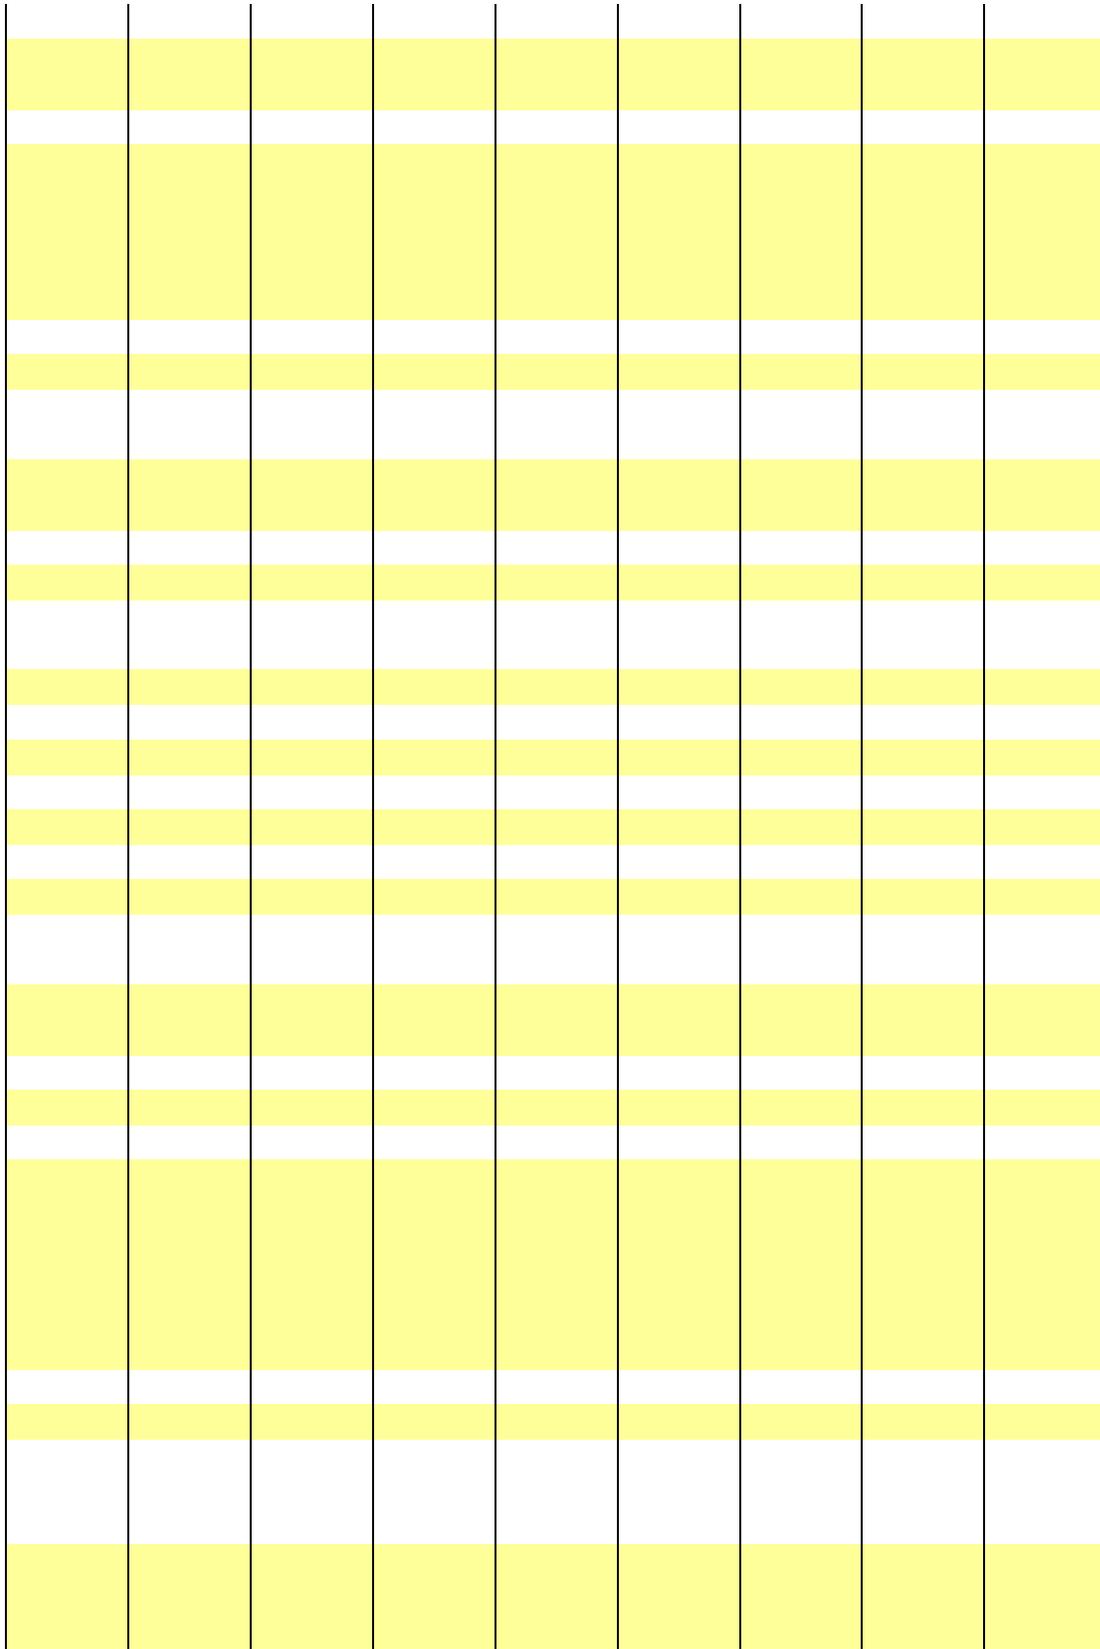

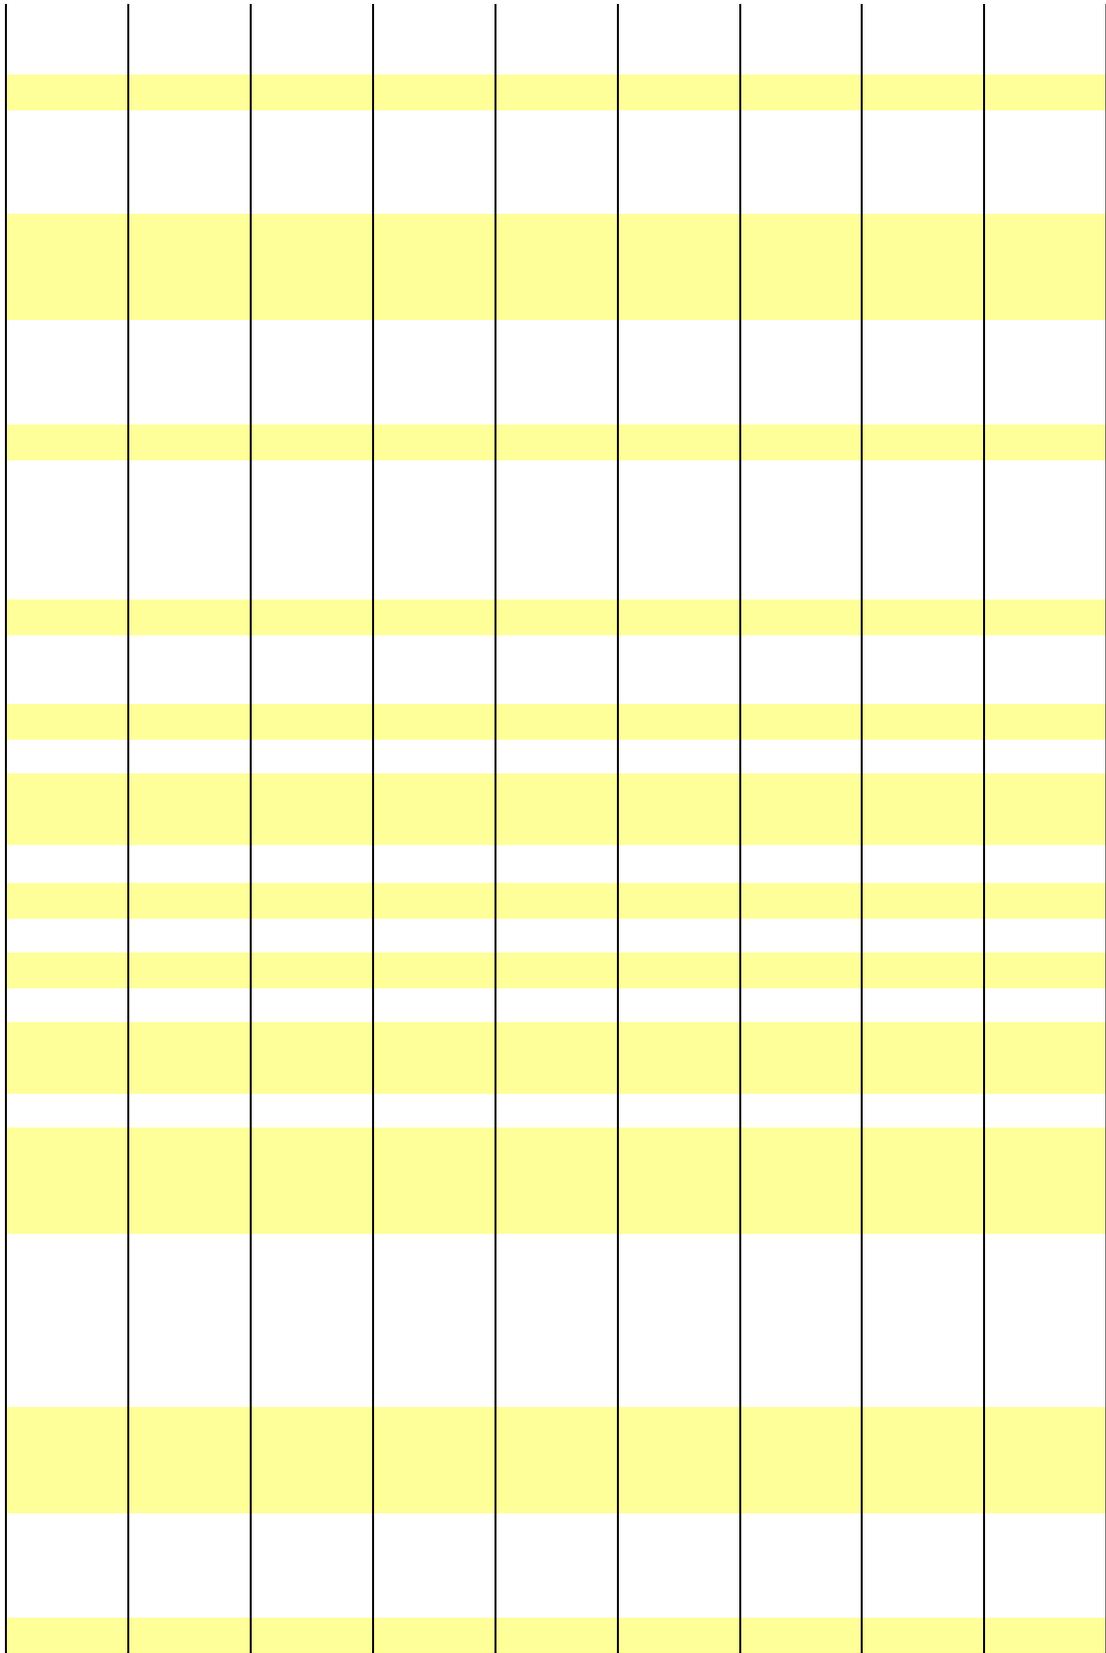

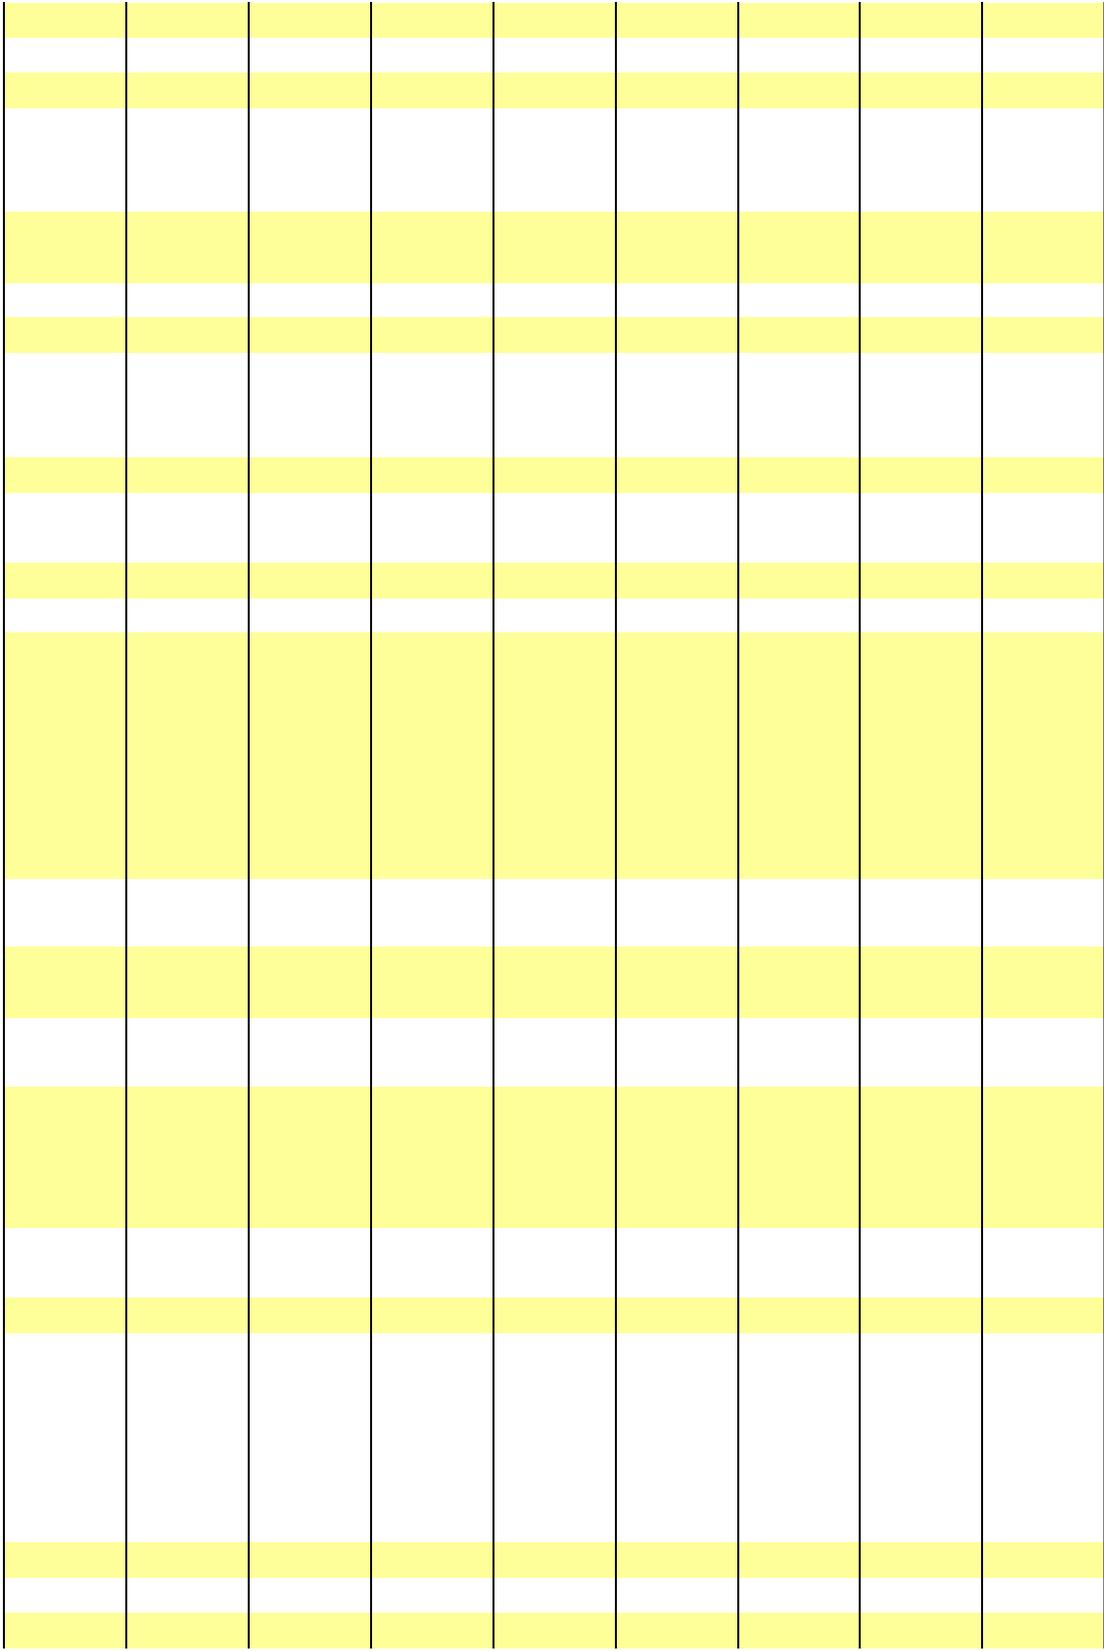

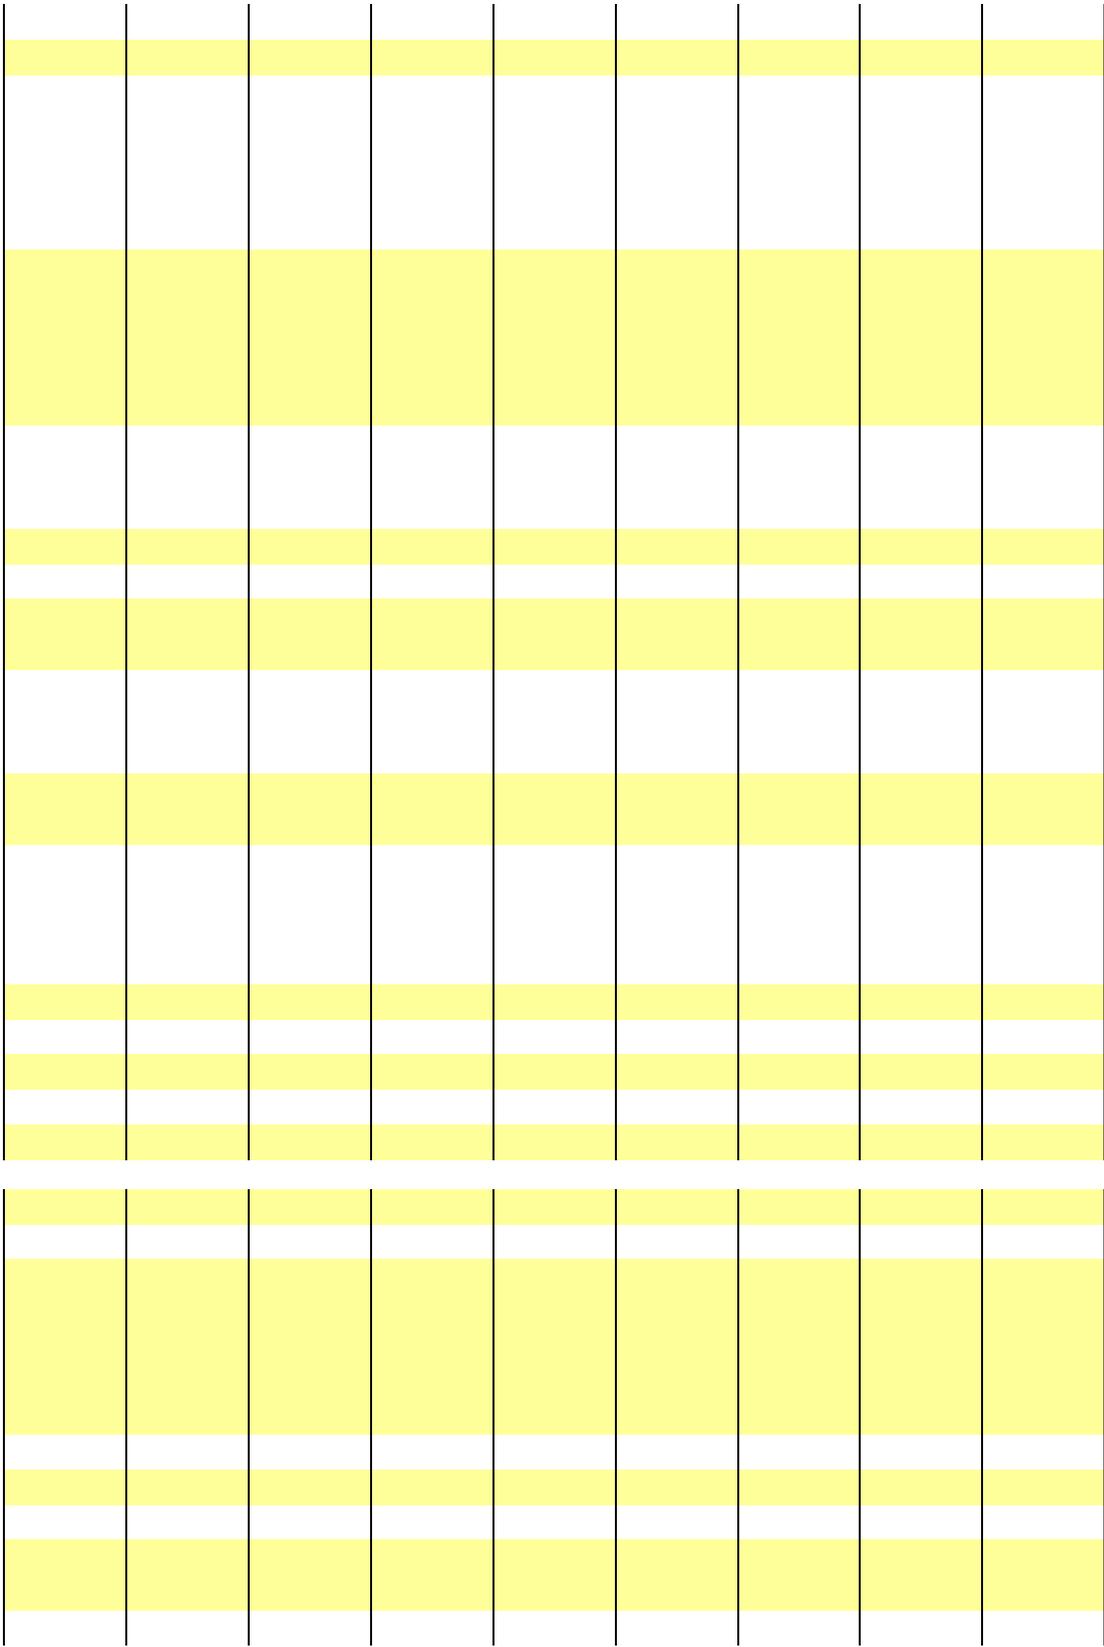

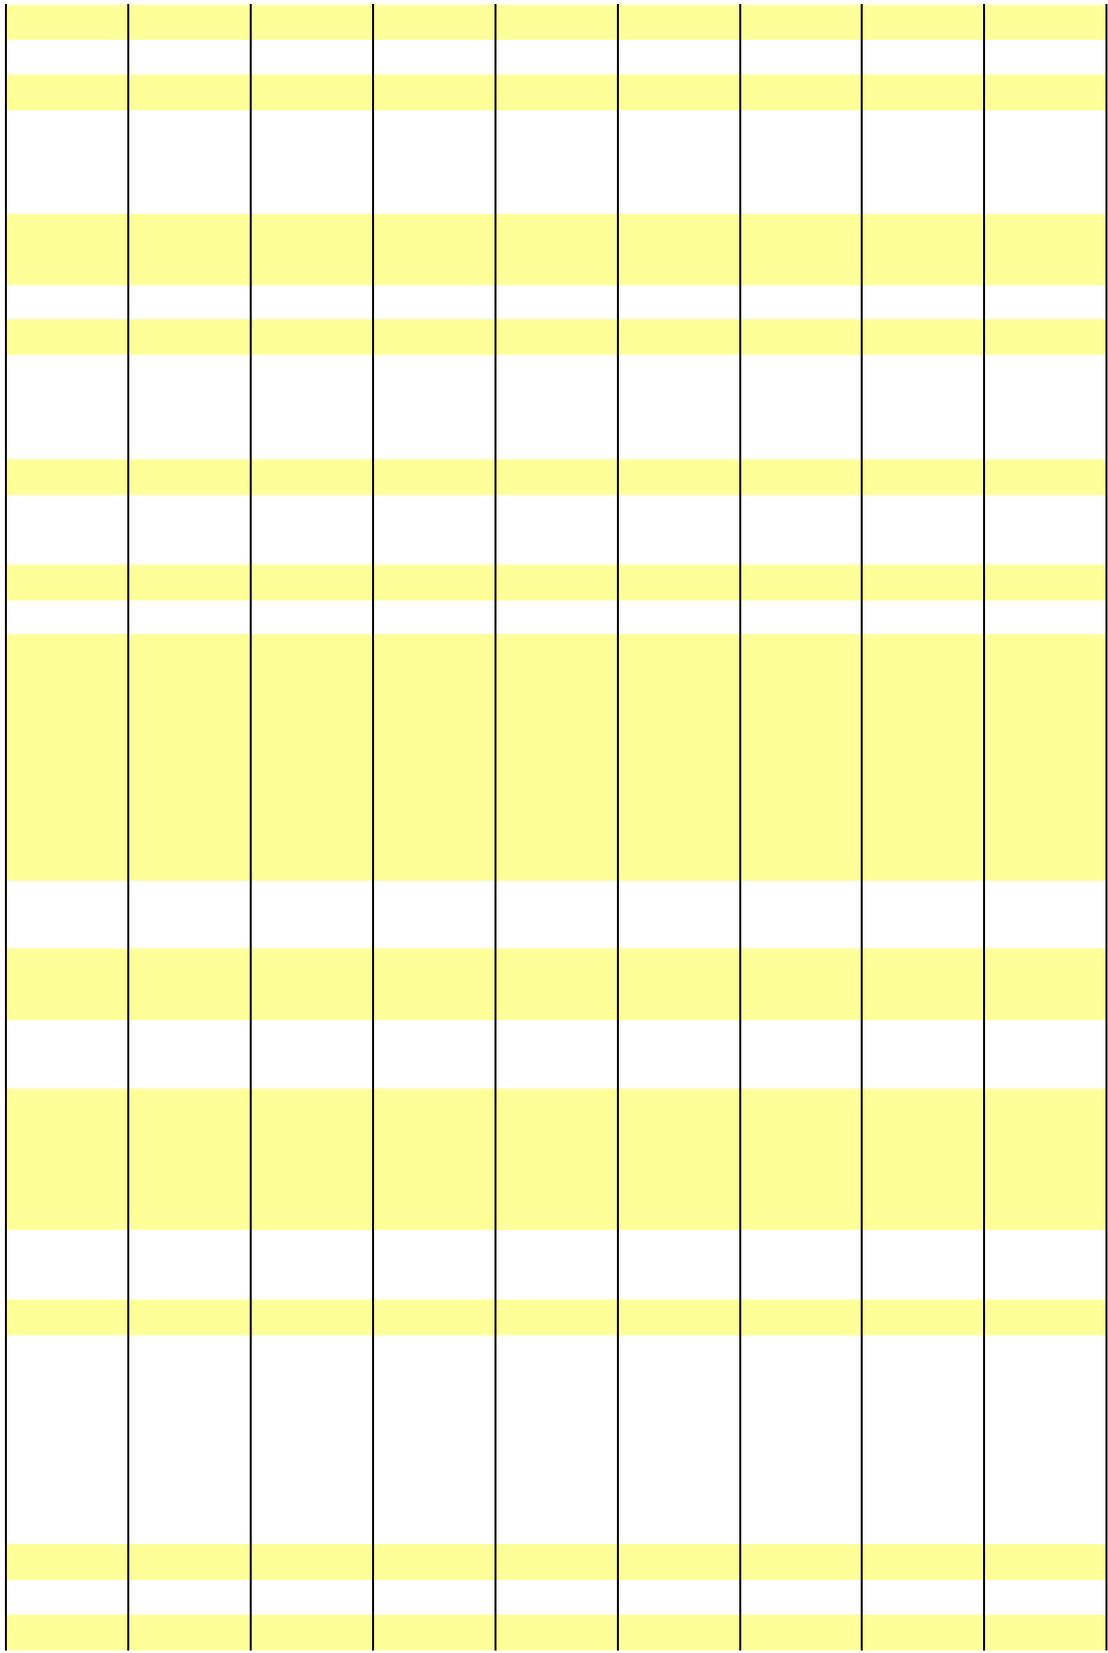

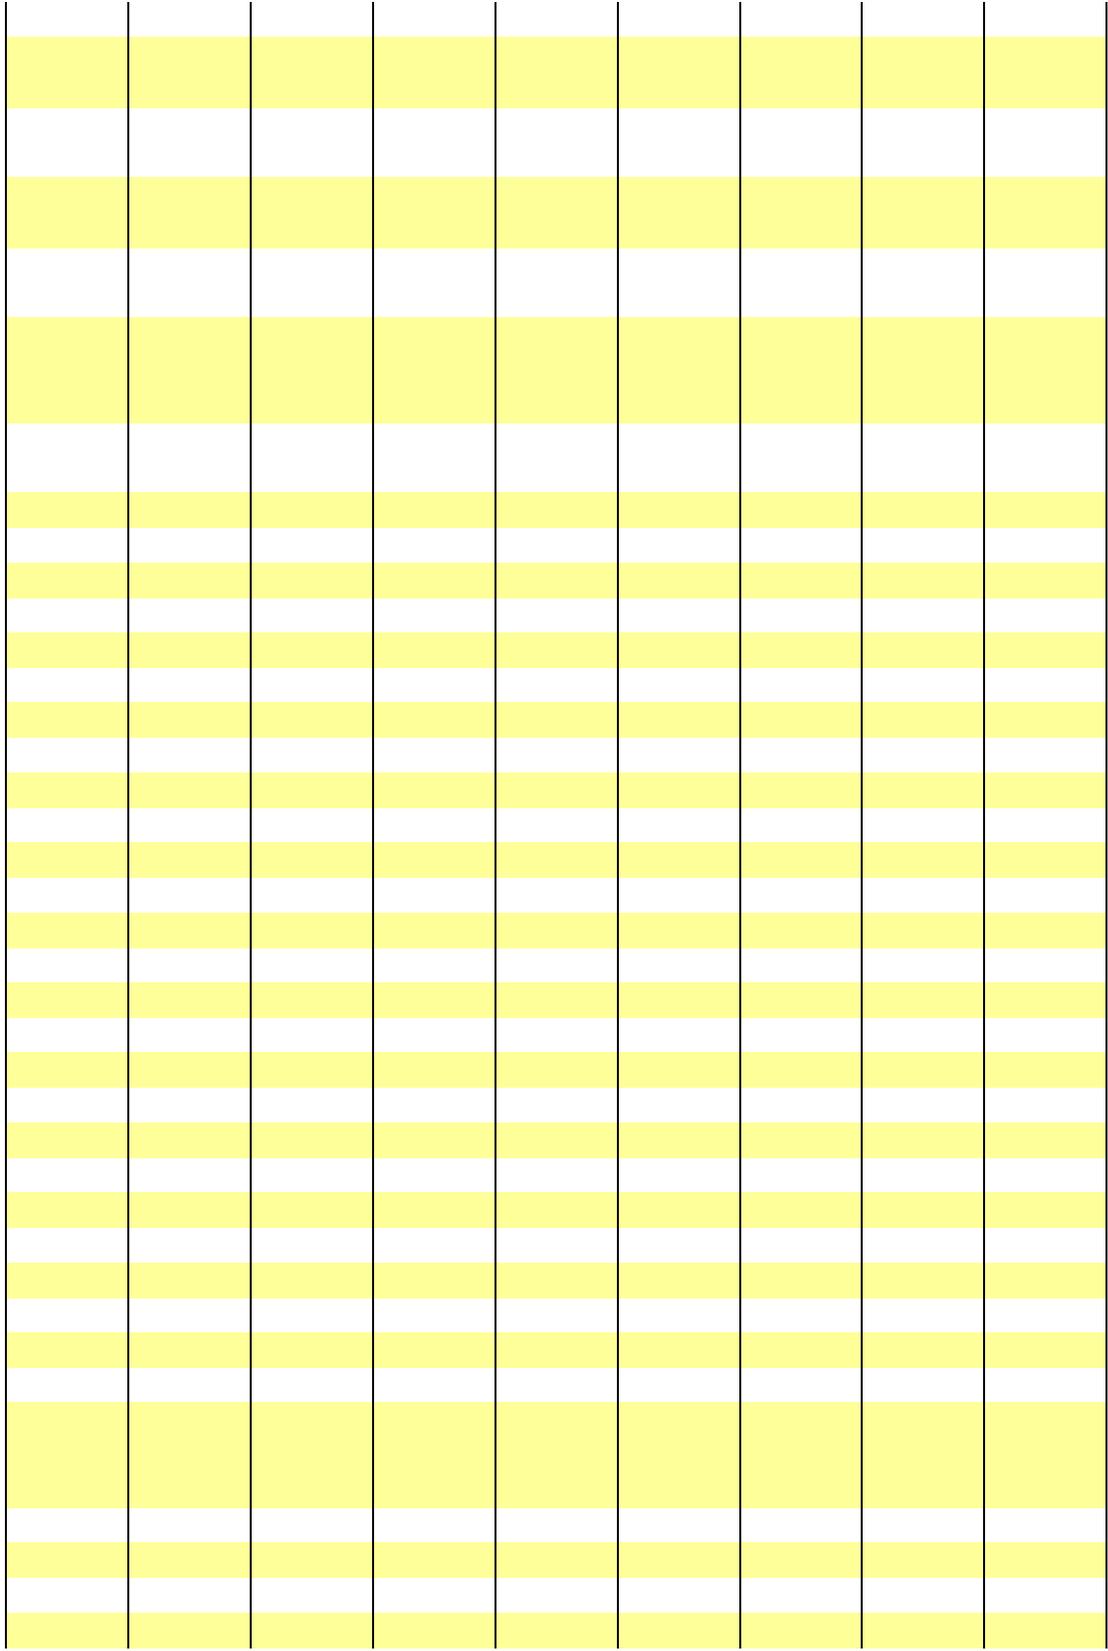

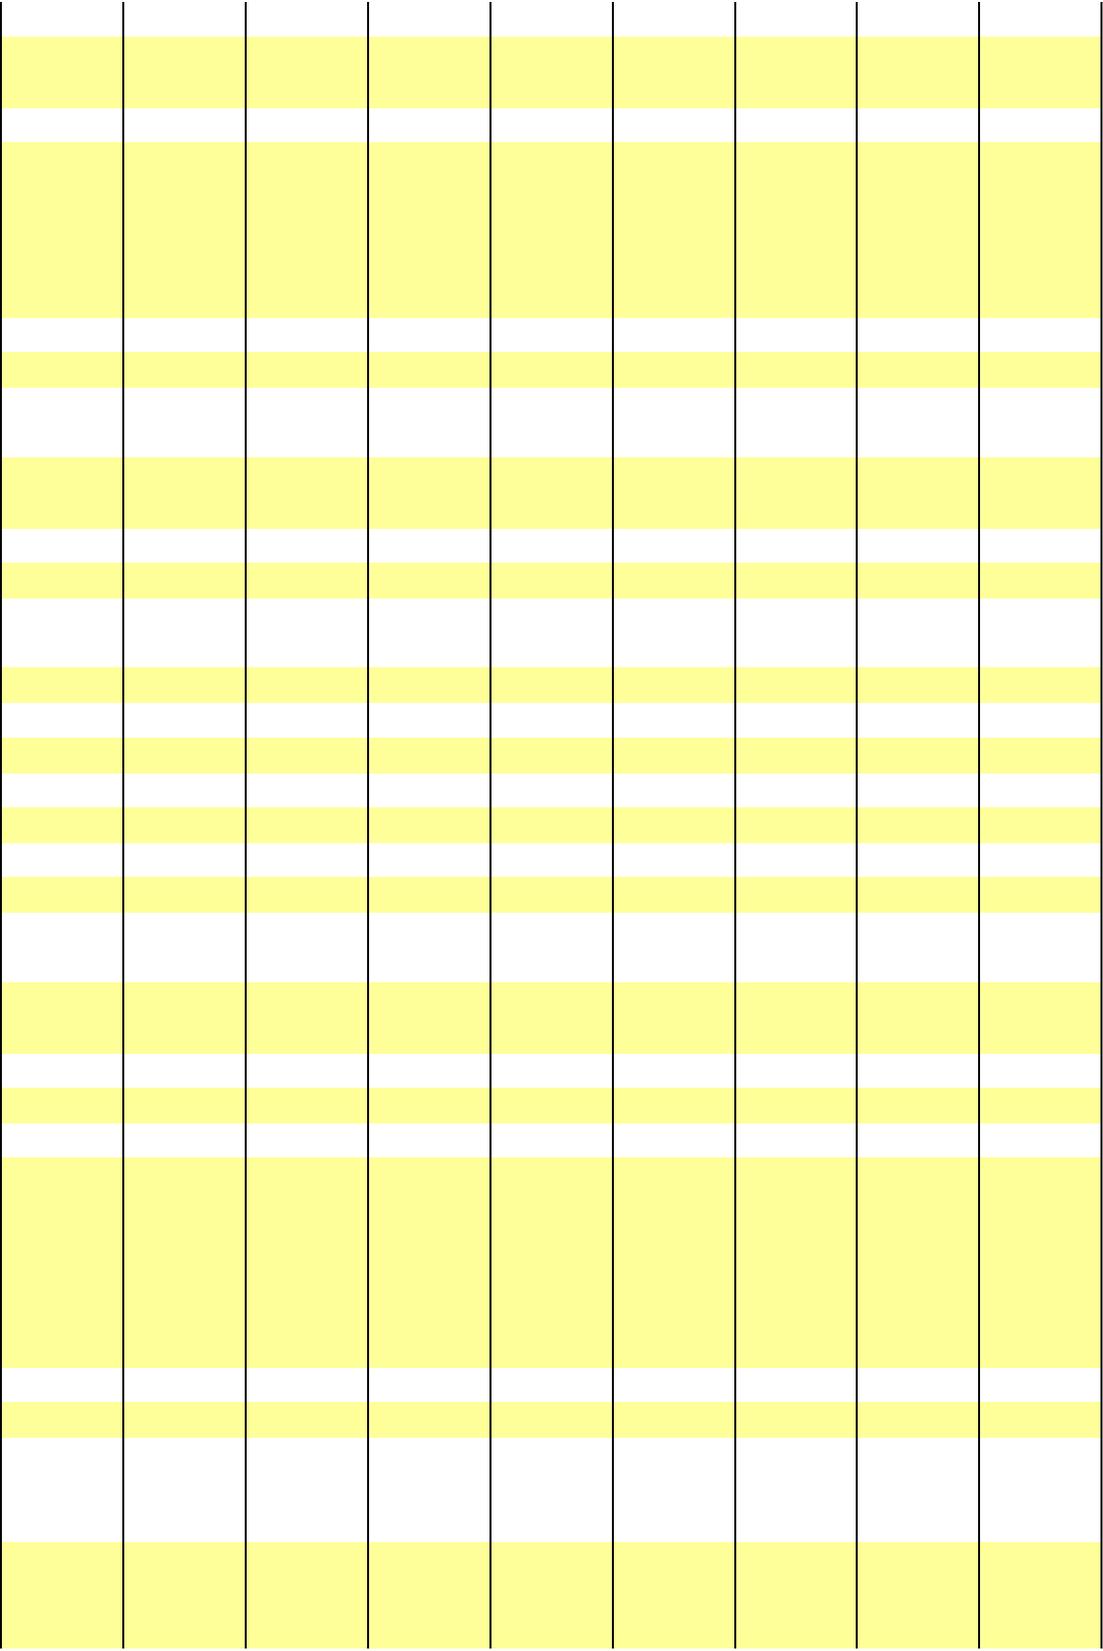

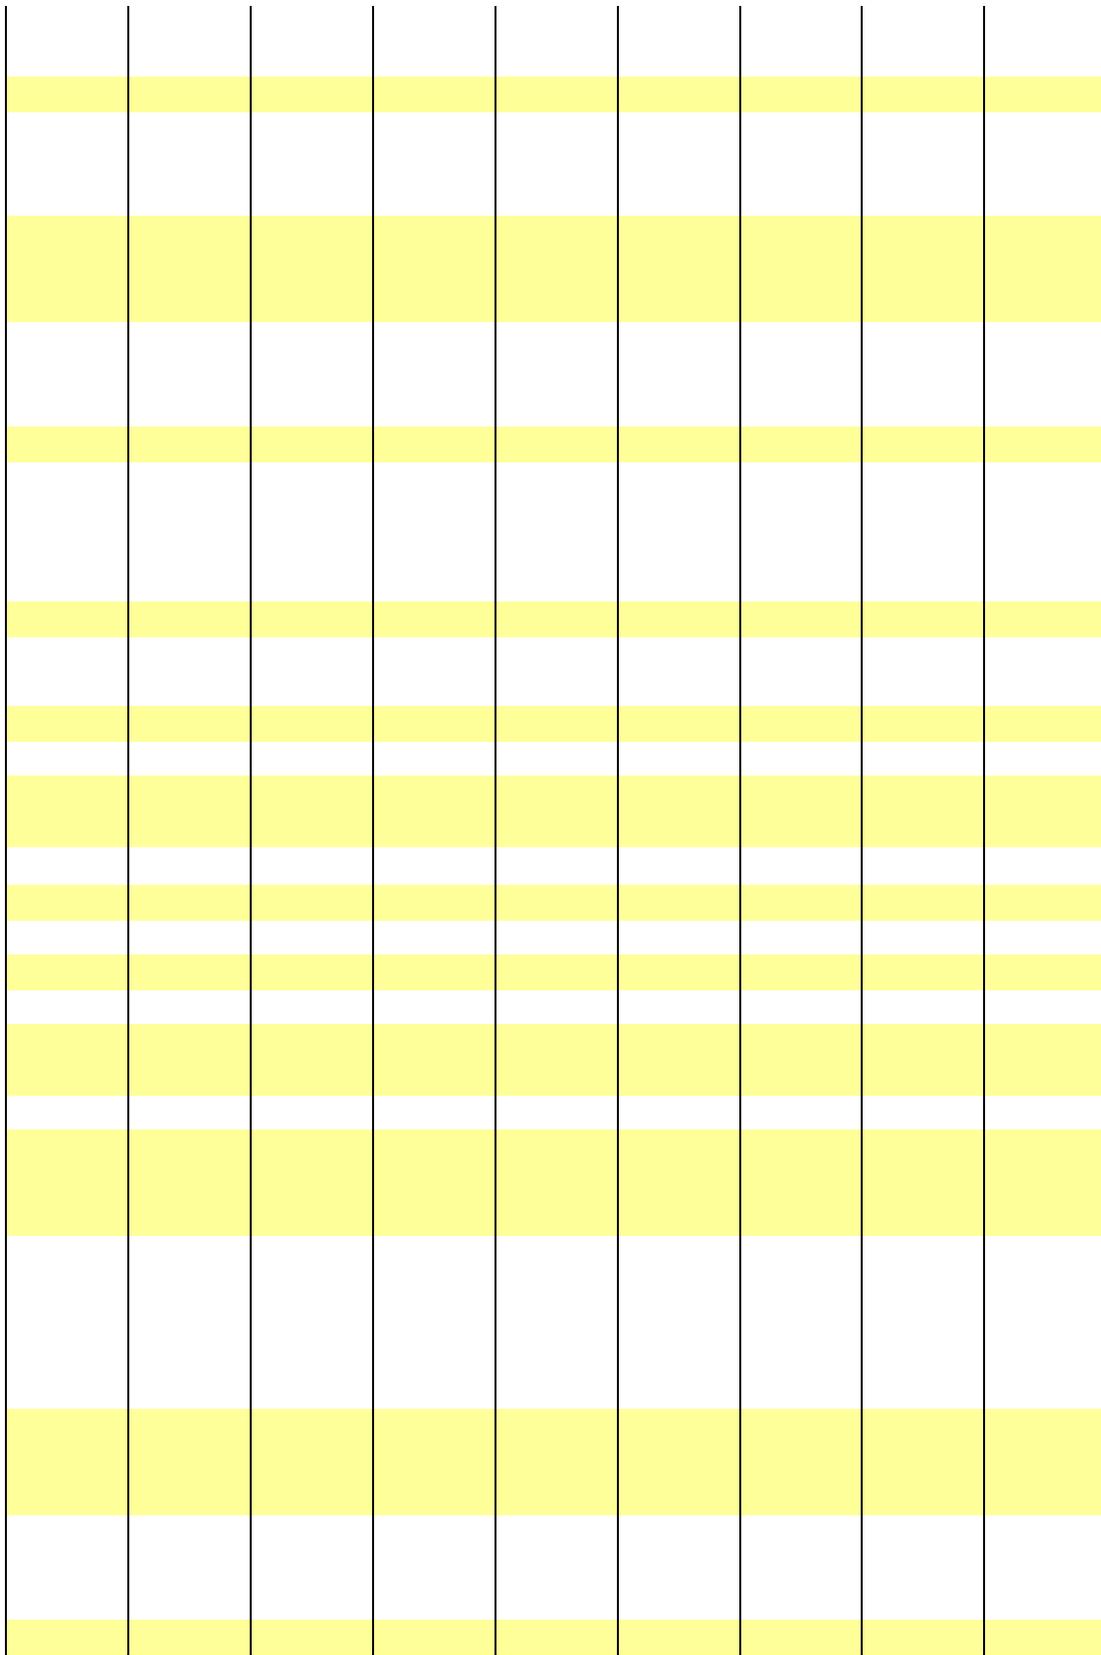

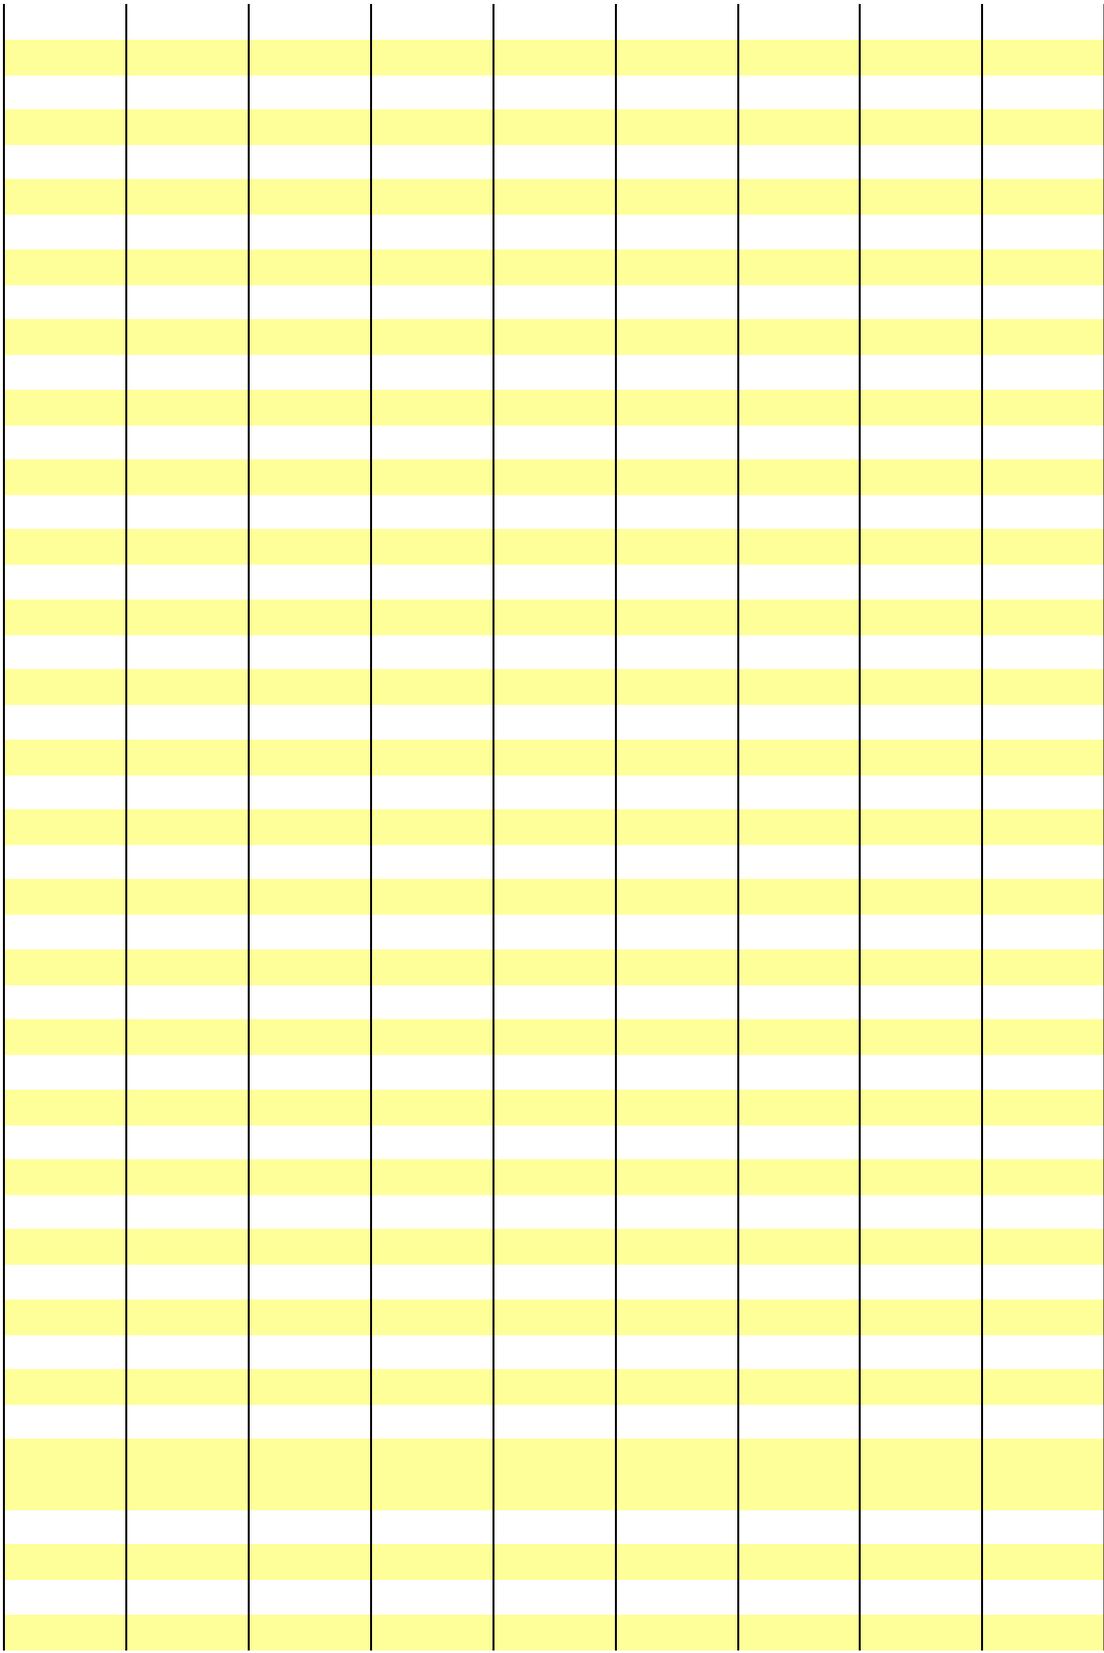

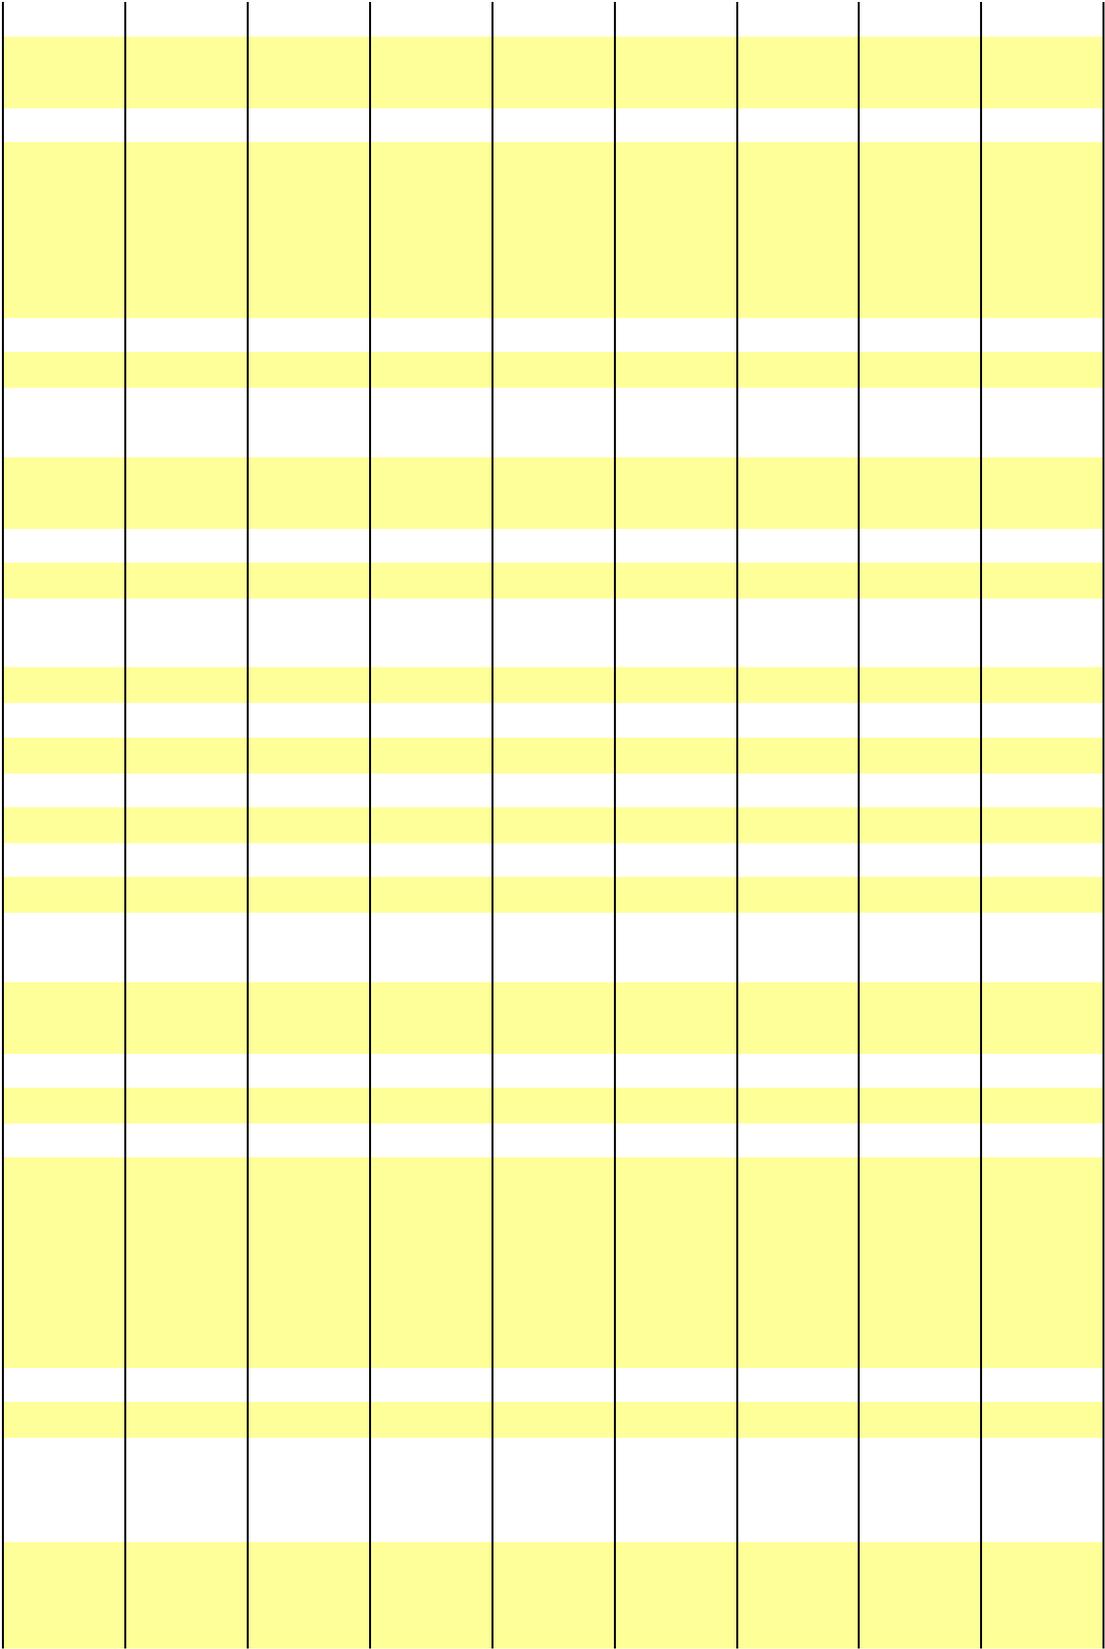

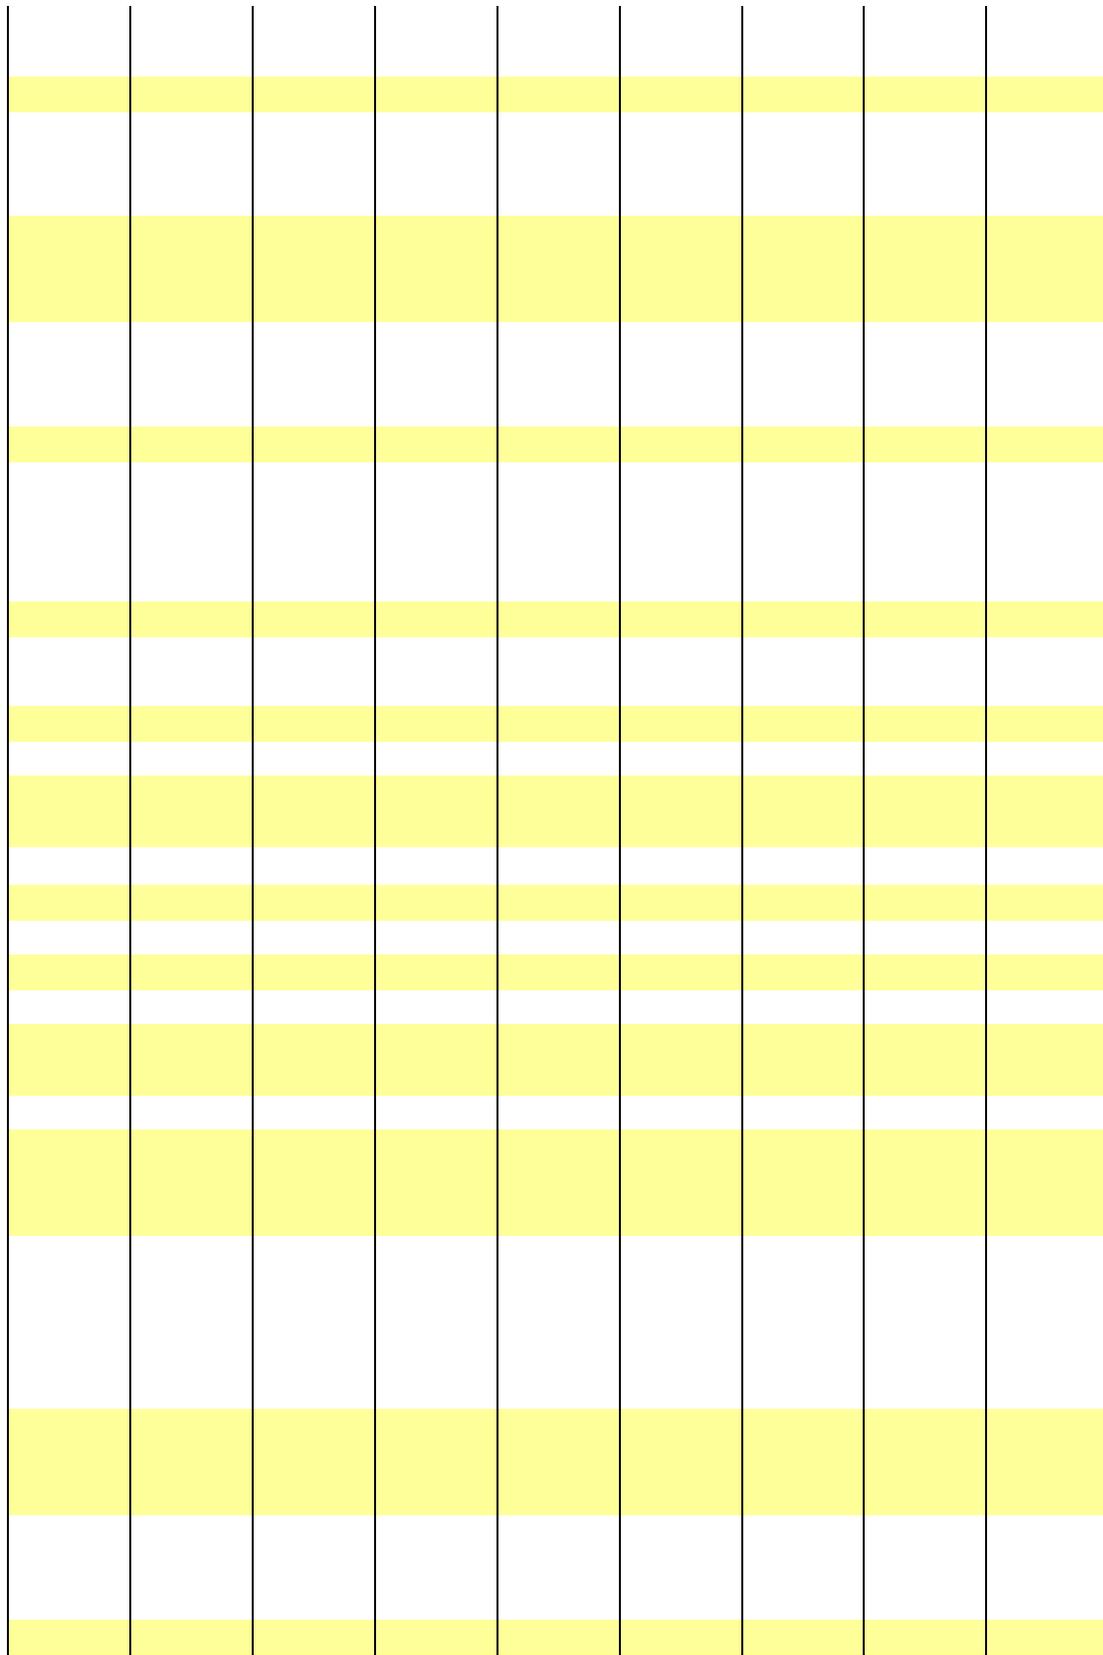

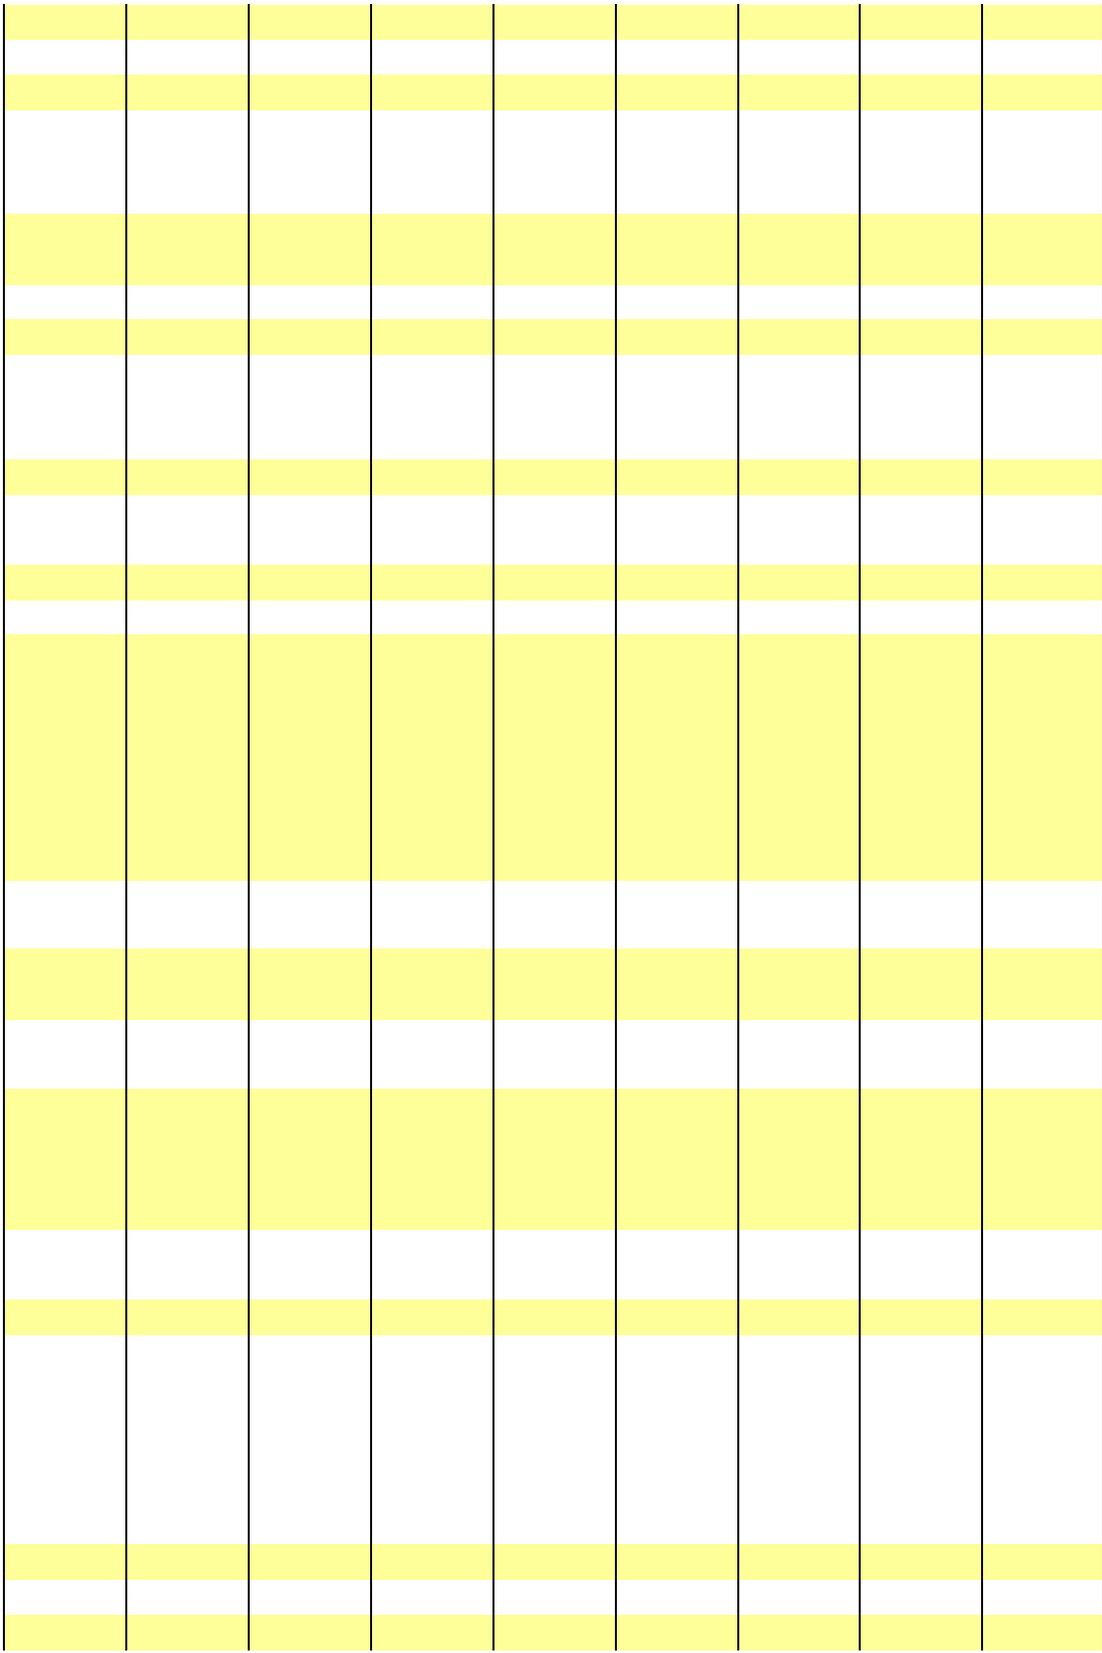

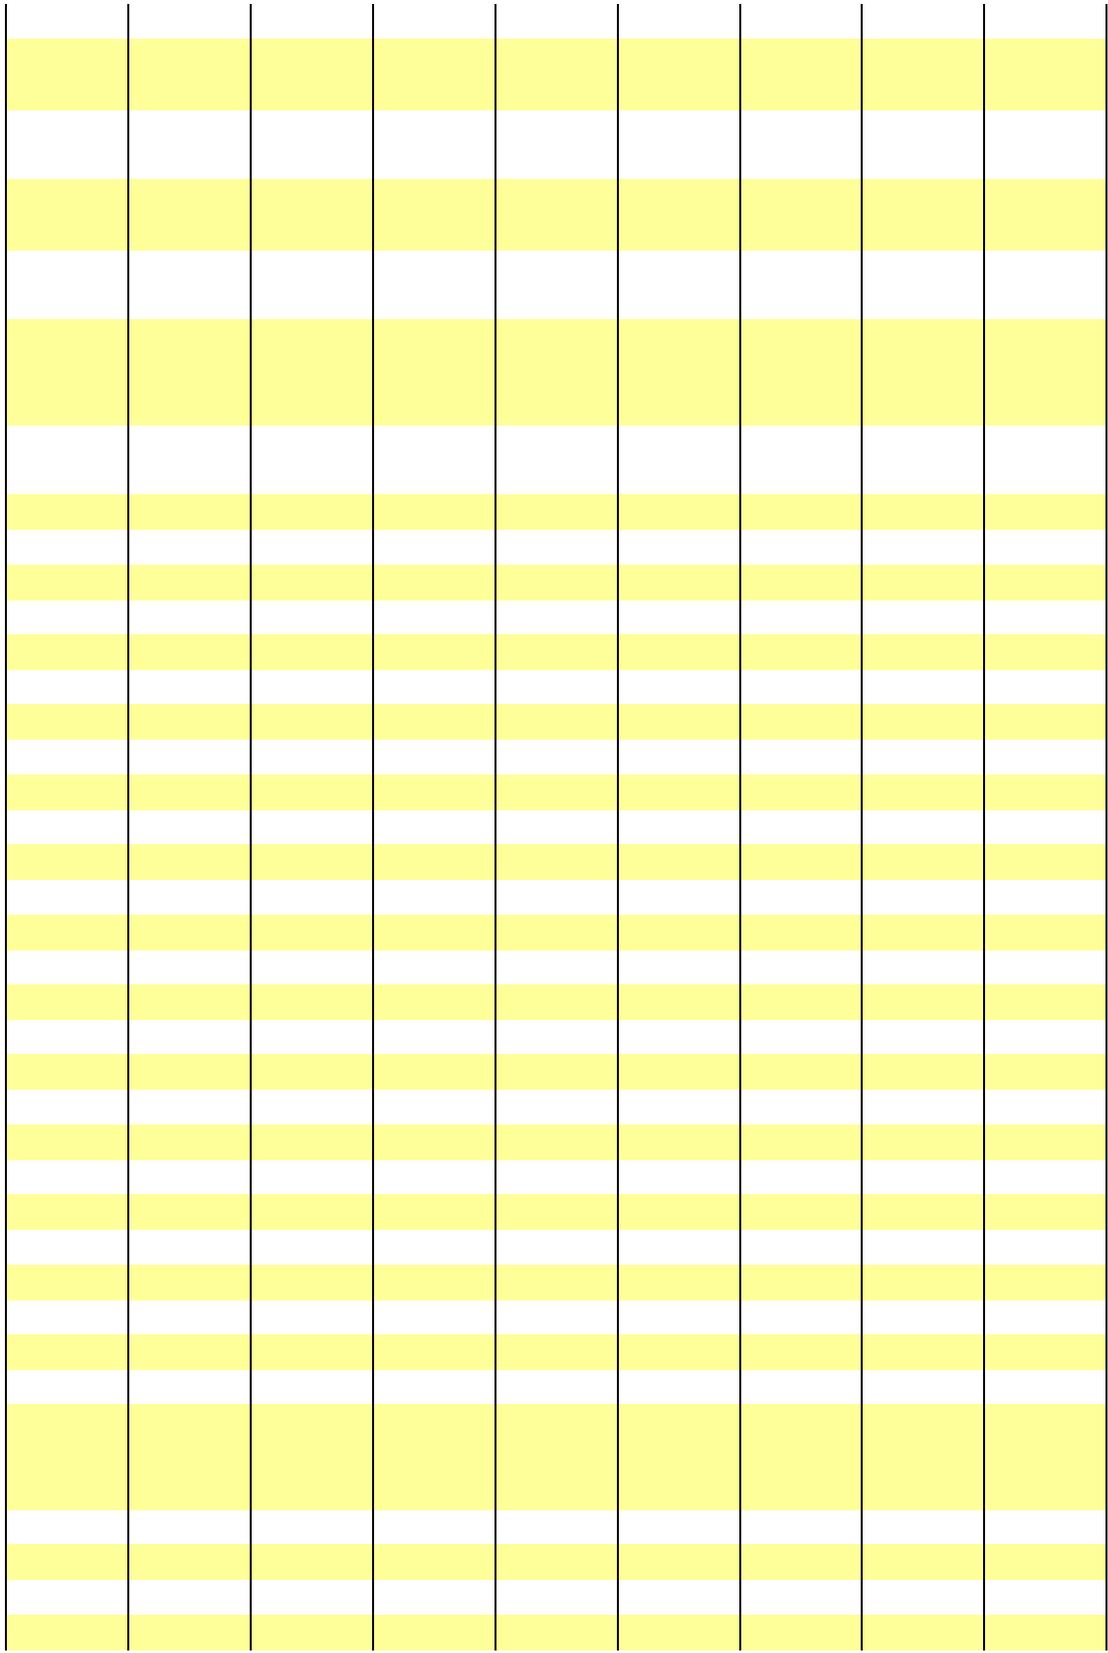

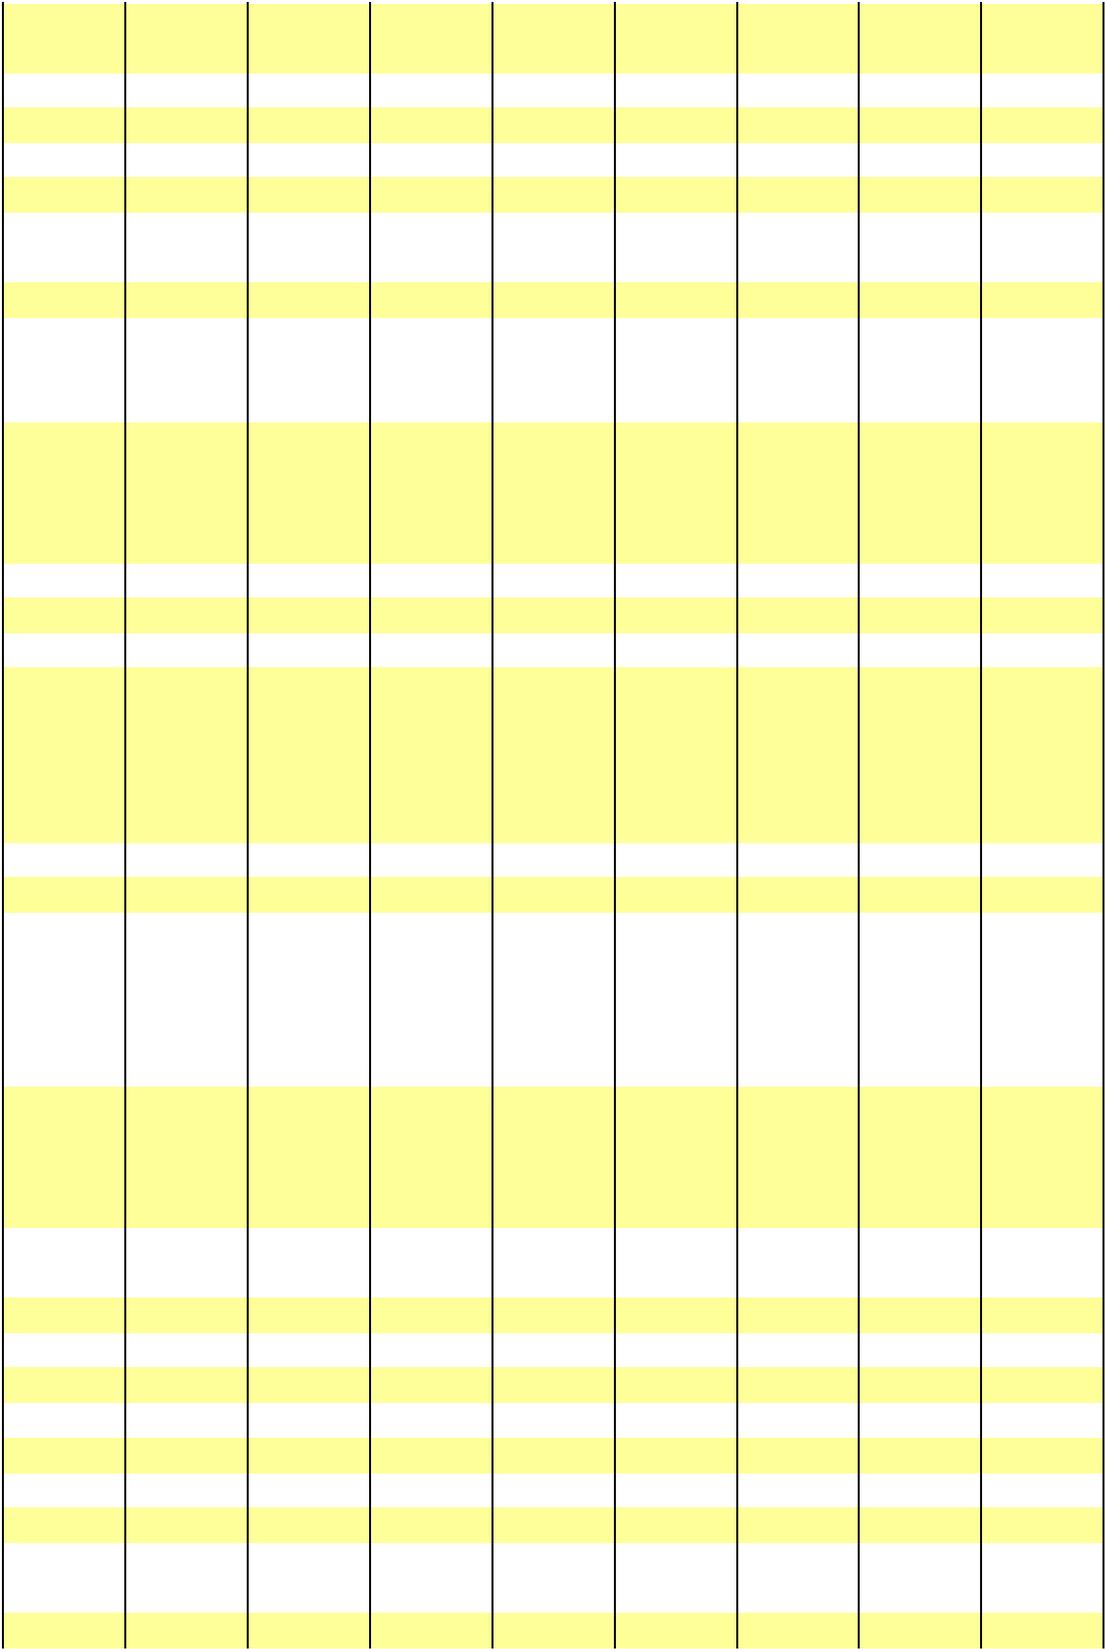

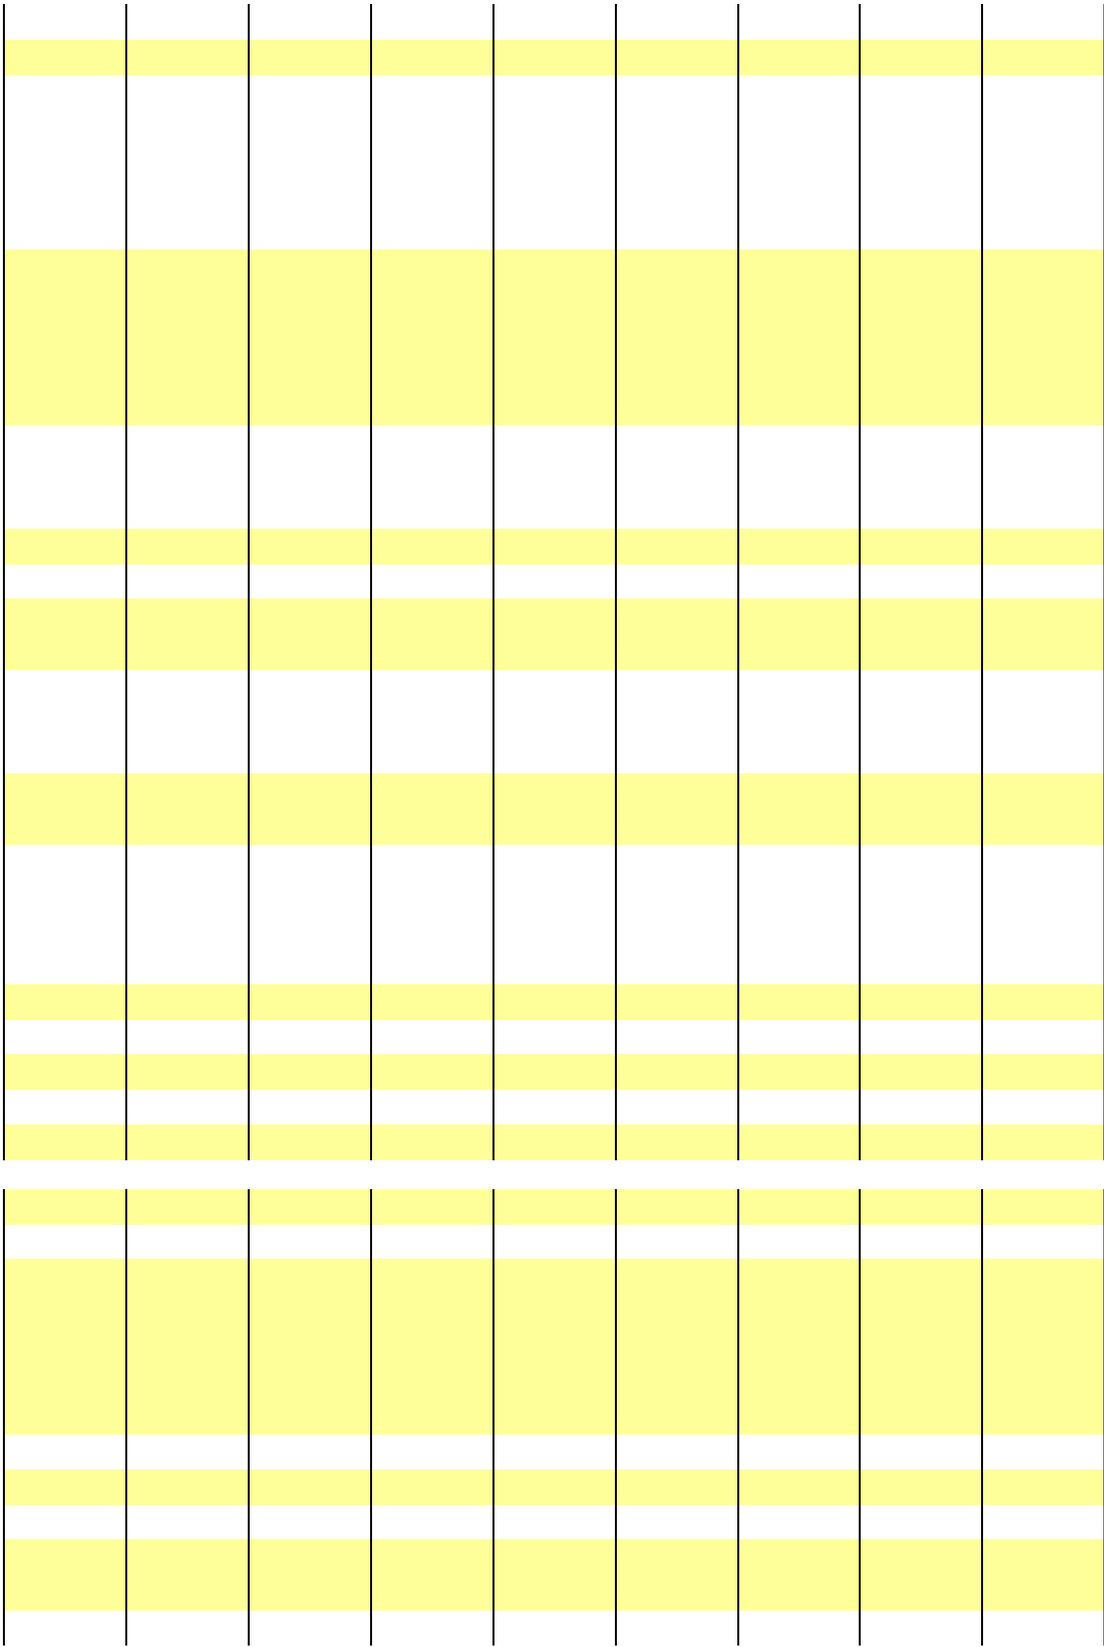

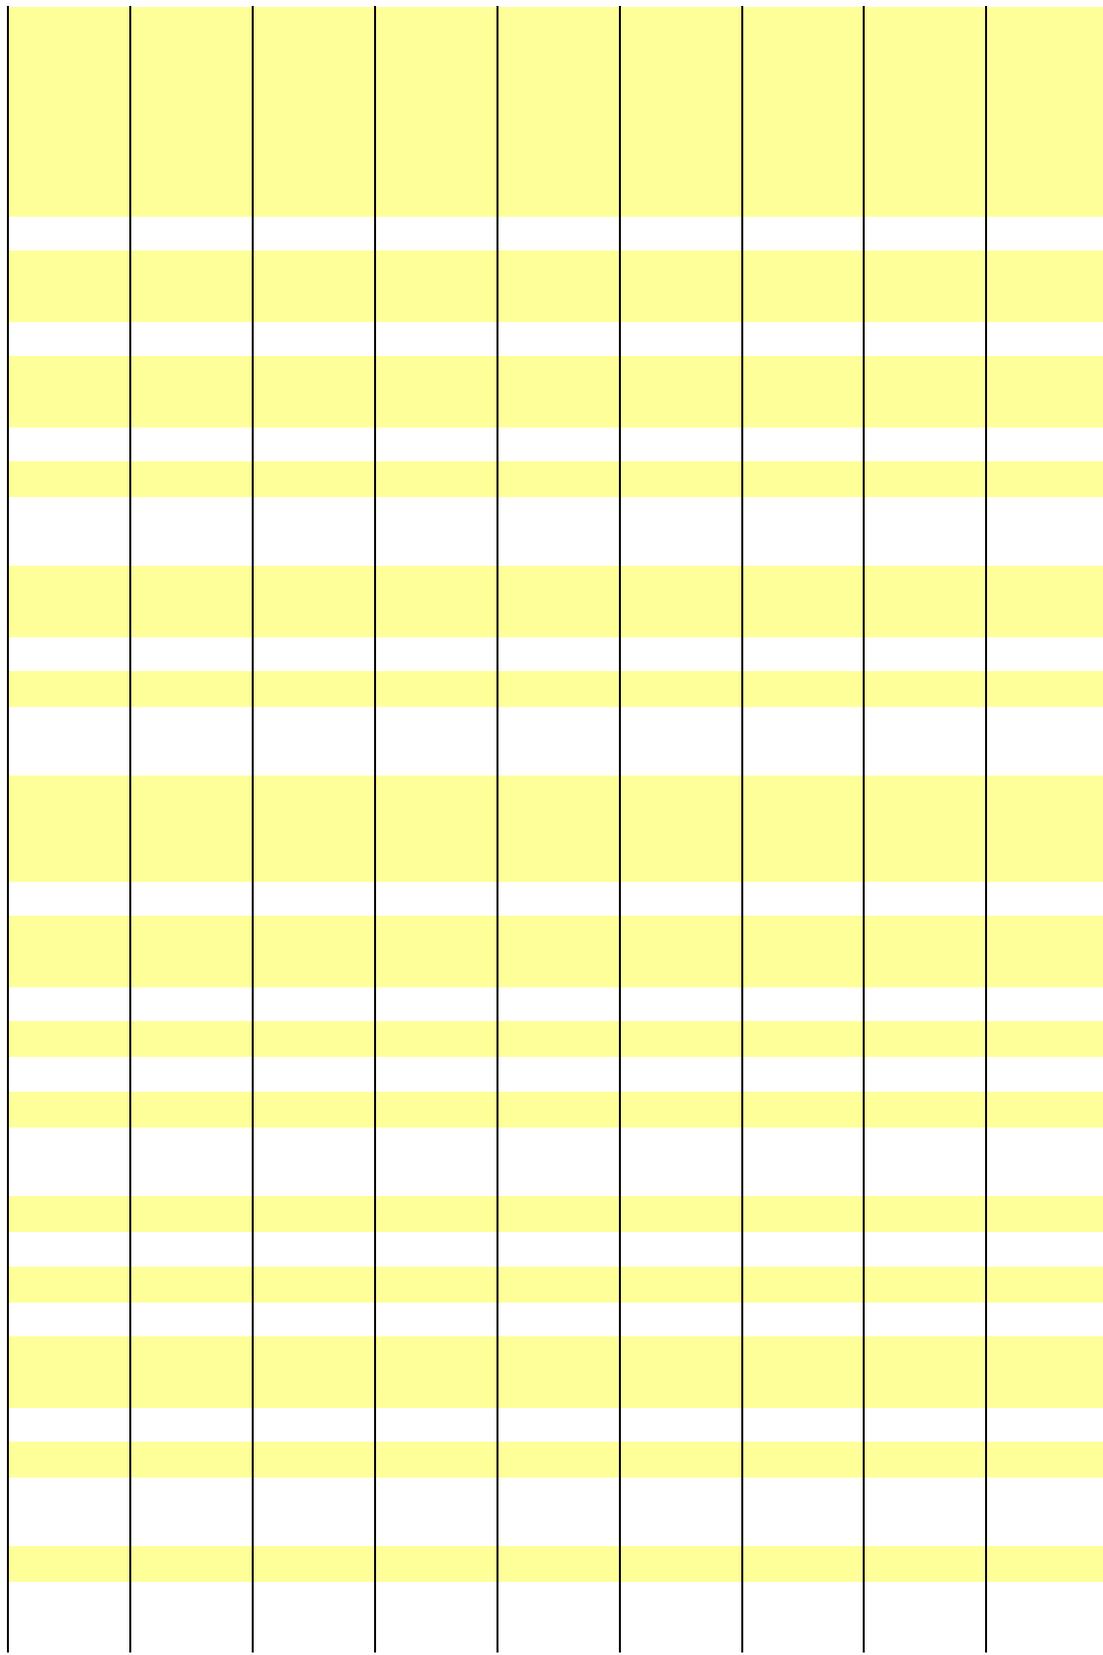

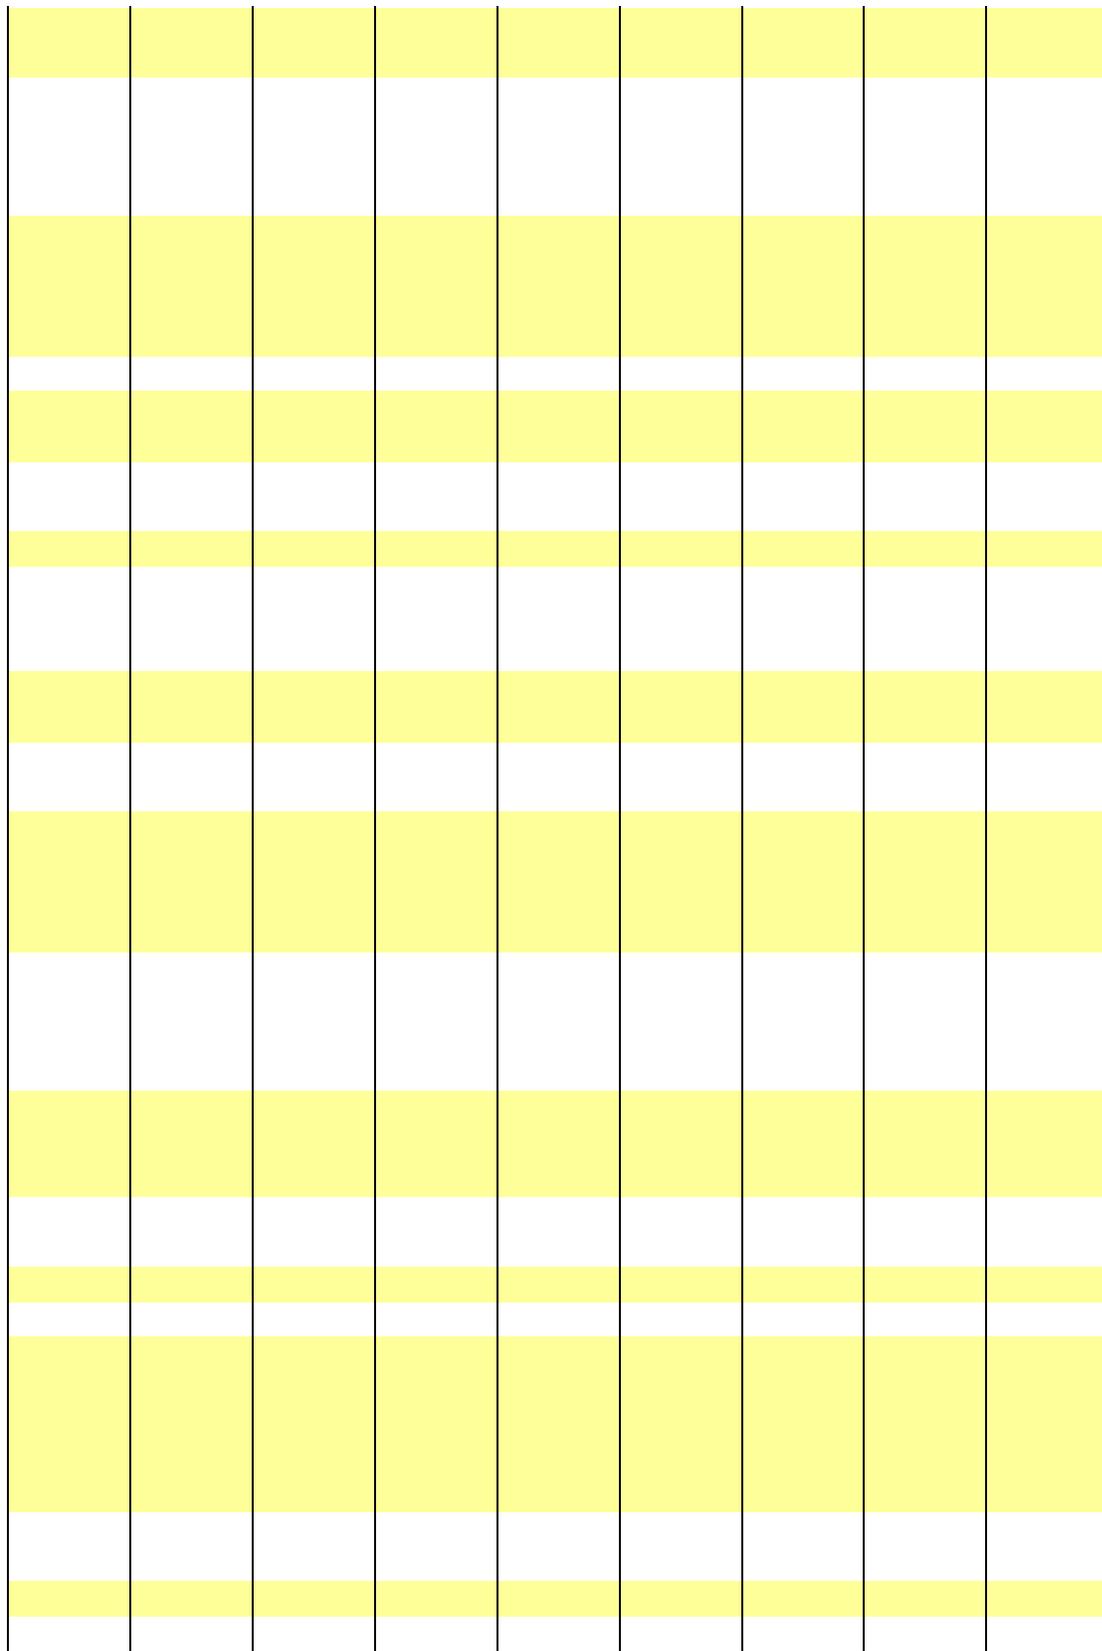

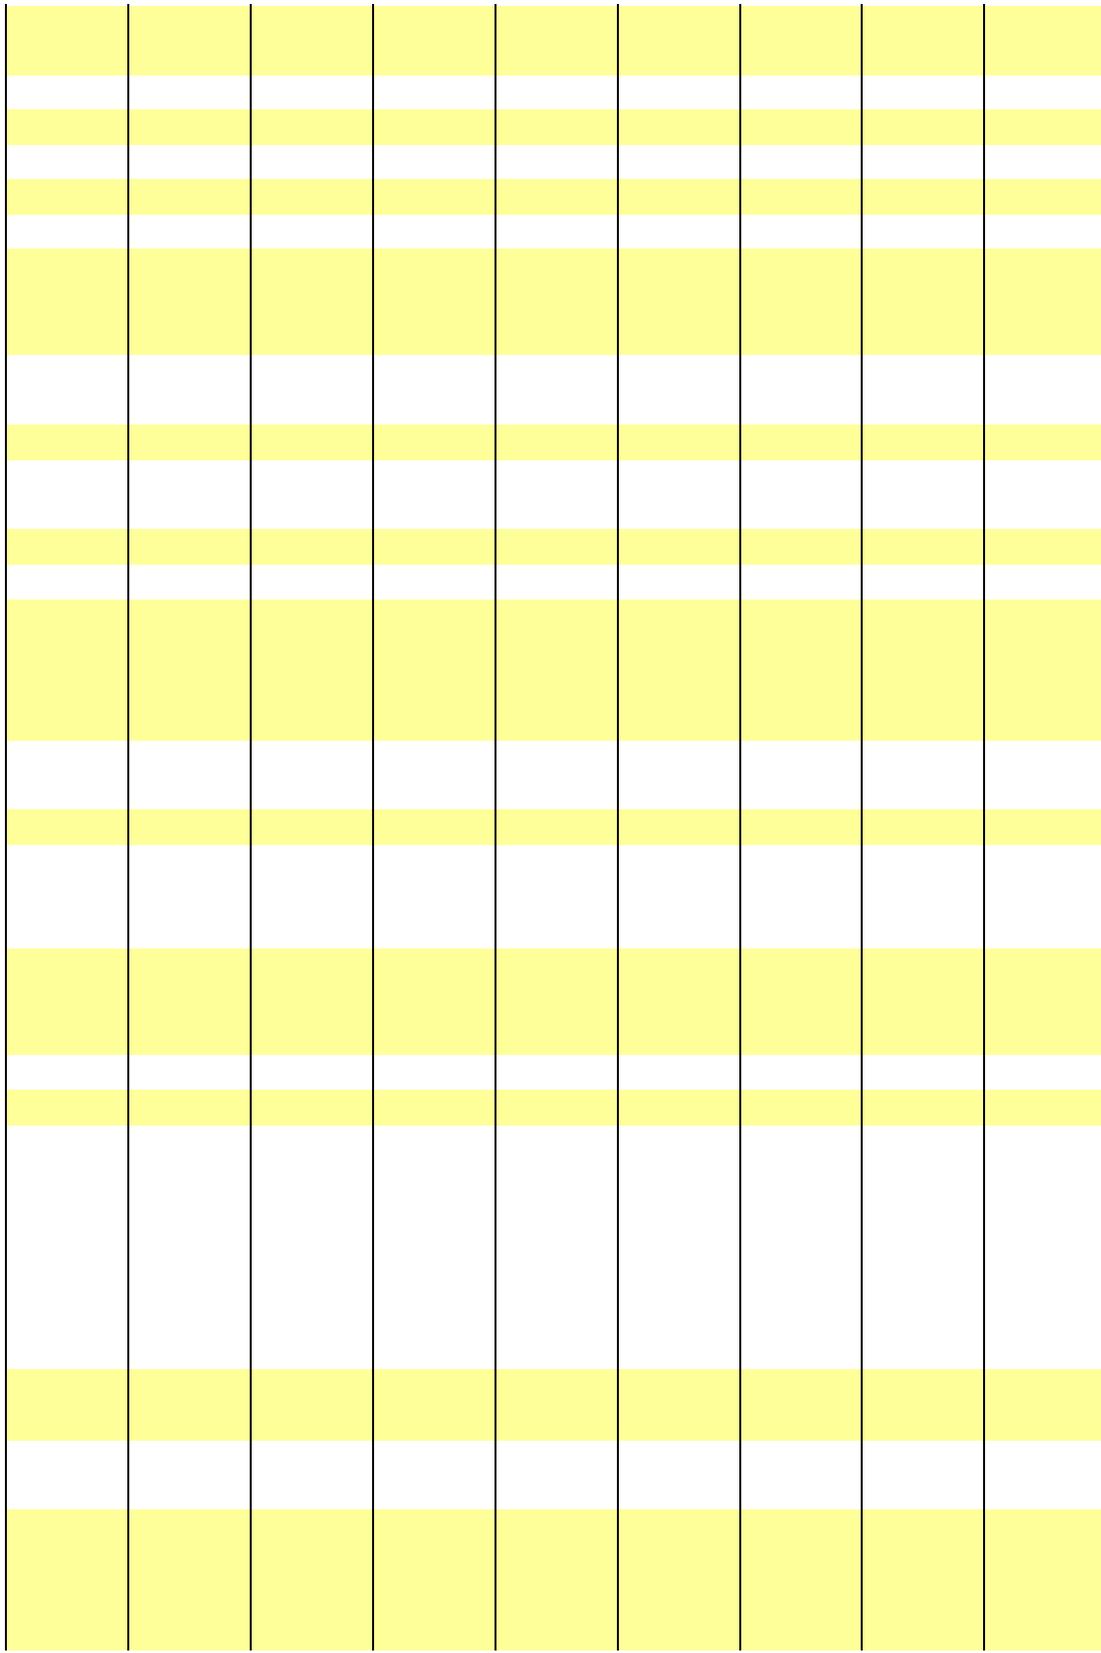

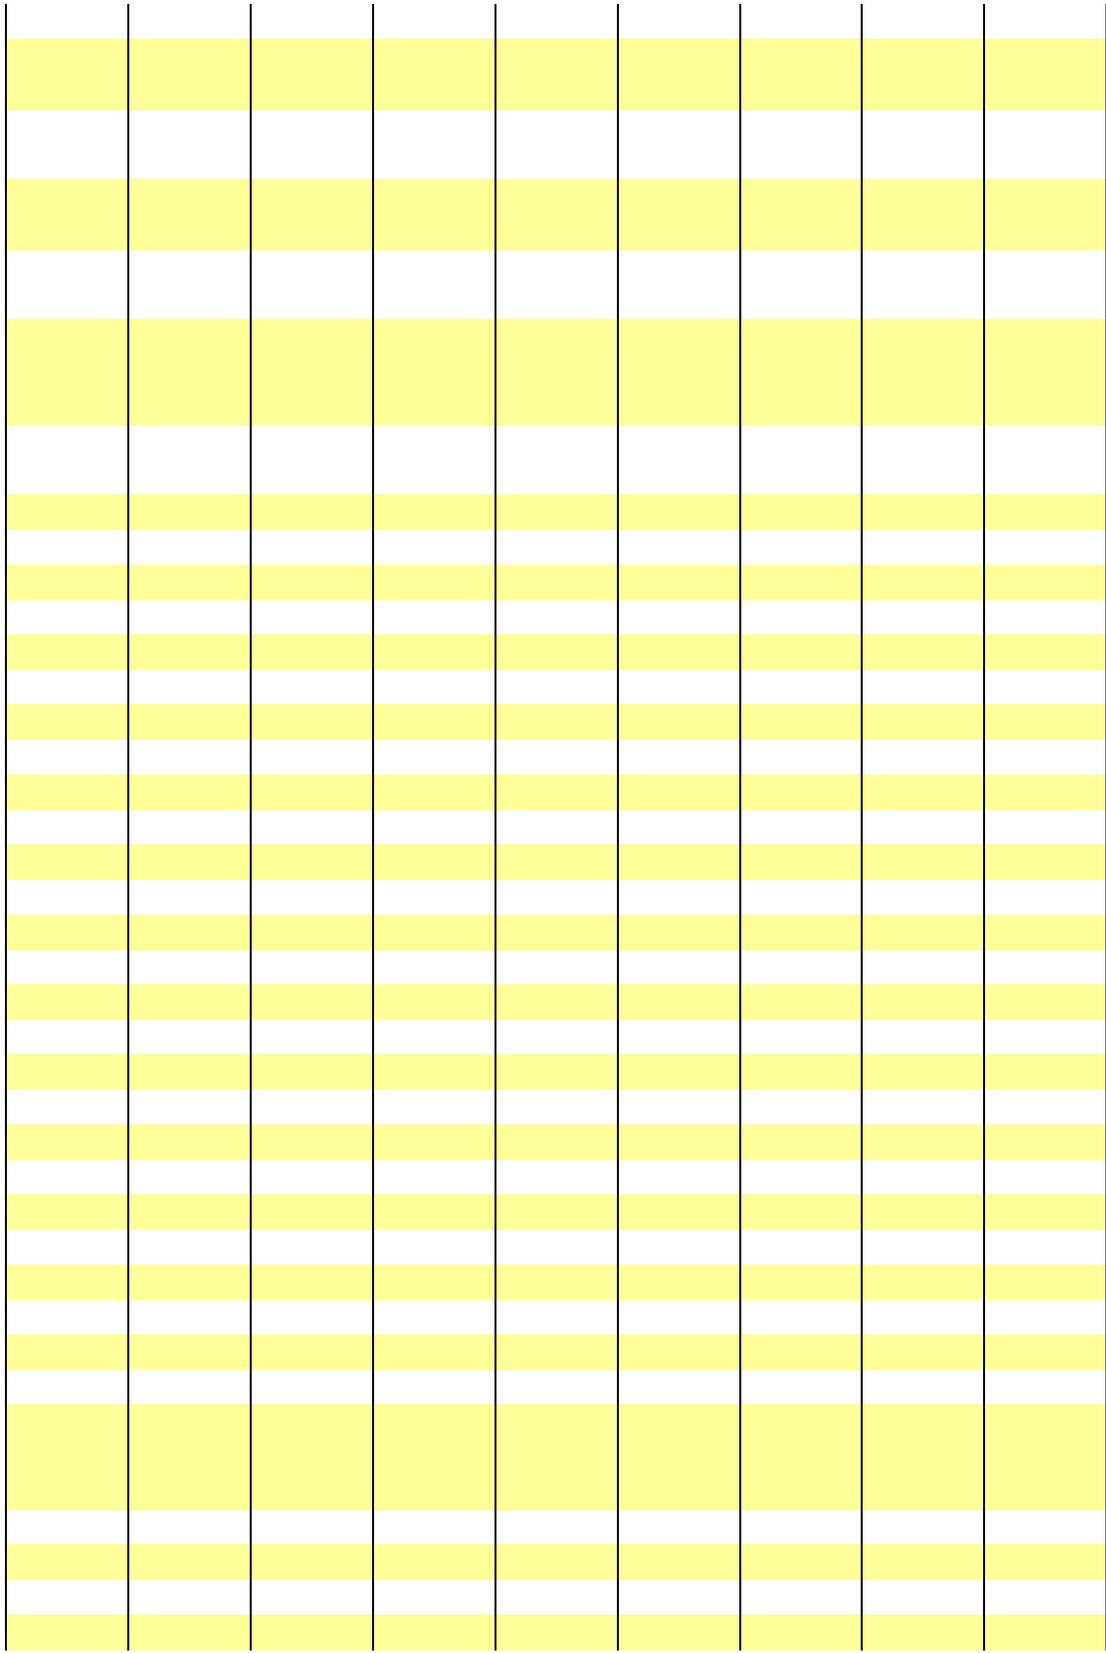

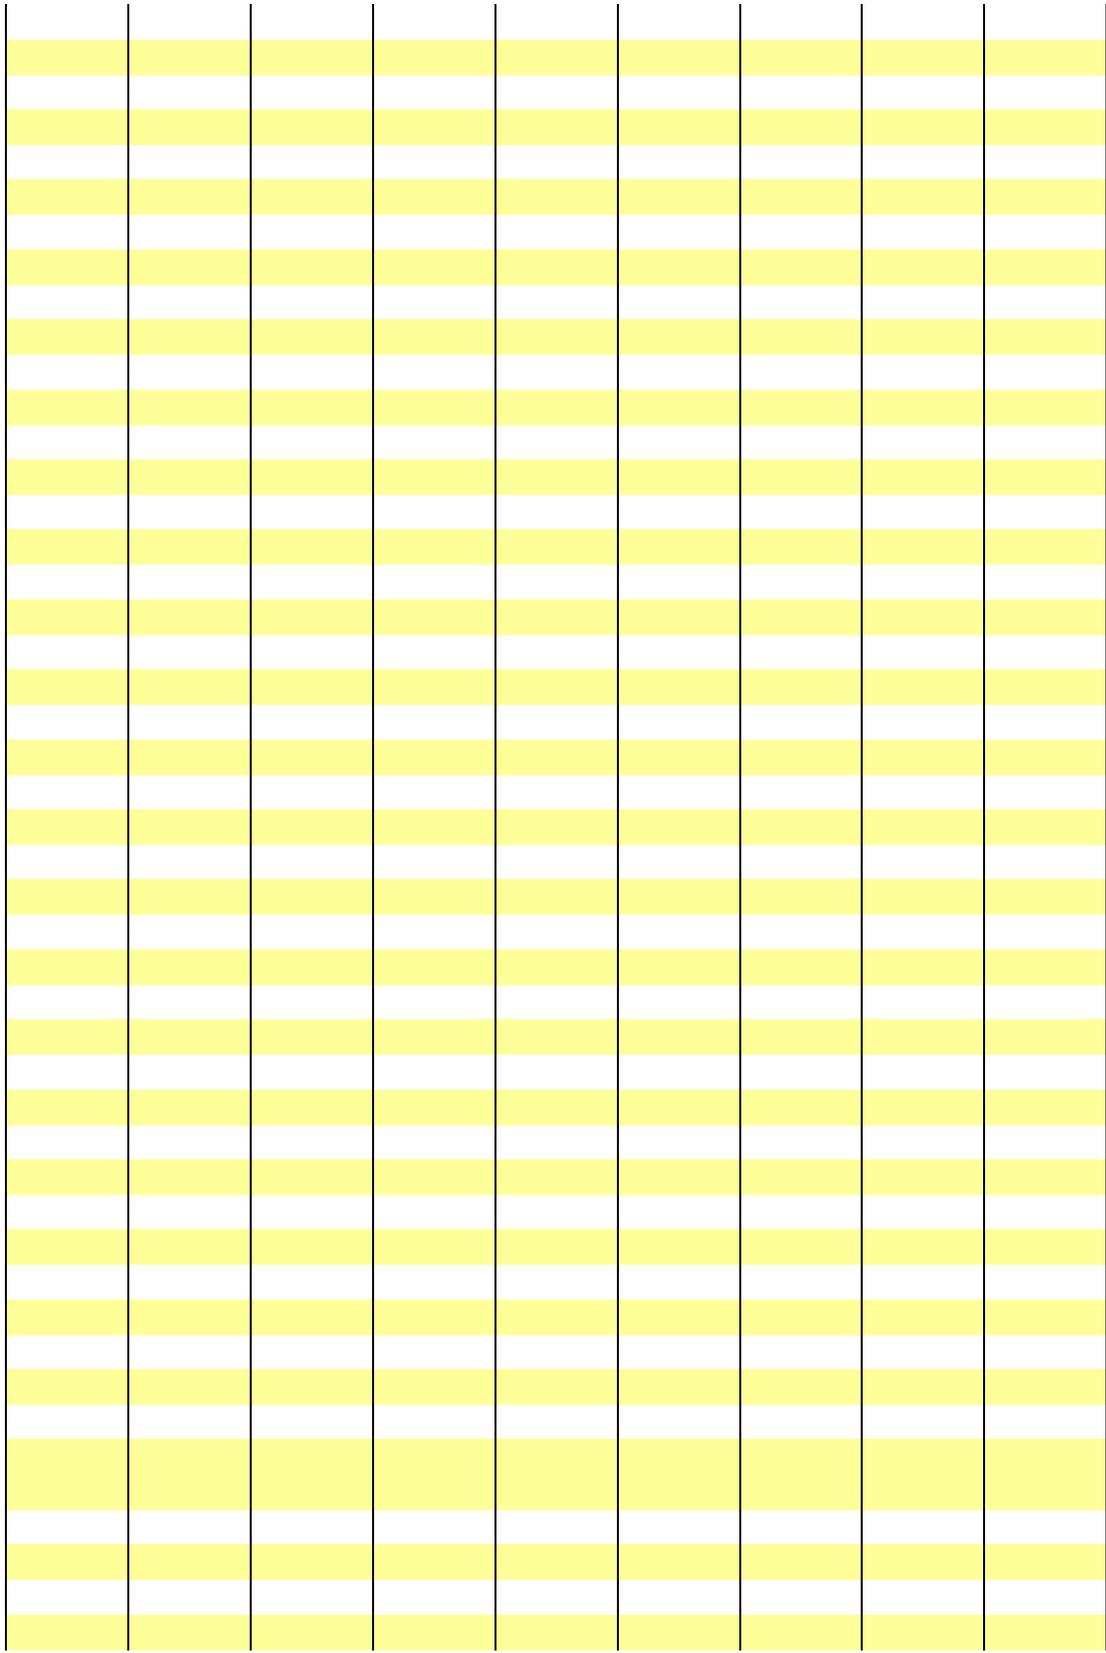

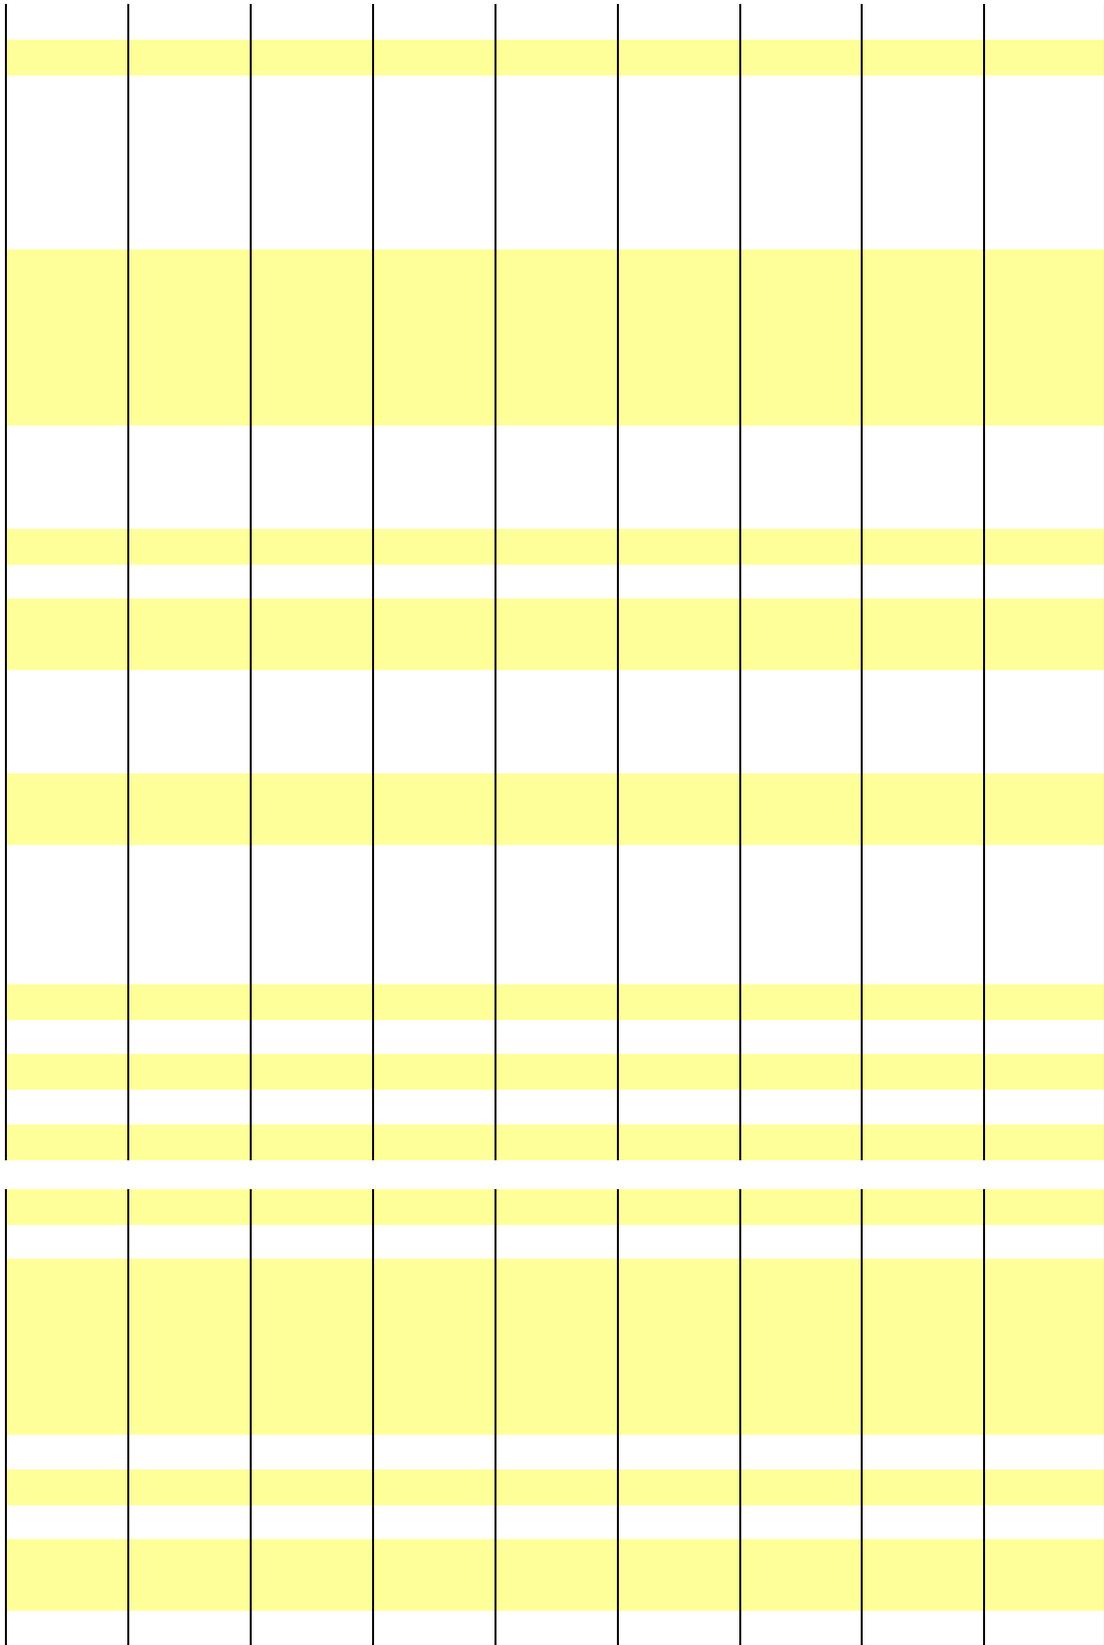

A 10x10 grid consisting of 10 columns and 10 rows. The grid is formed by thin black lines. The rows alternate in color: the first row is yellow, the second is white, the third is yellow, and so on, up to the tenth row which is yellow. The yellow rows are filled with a solid, bright yellow color.

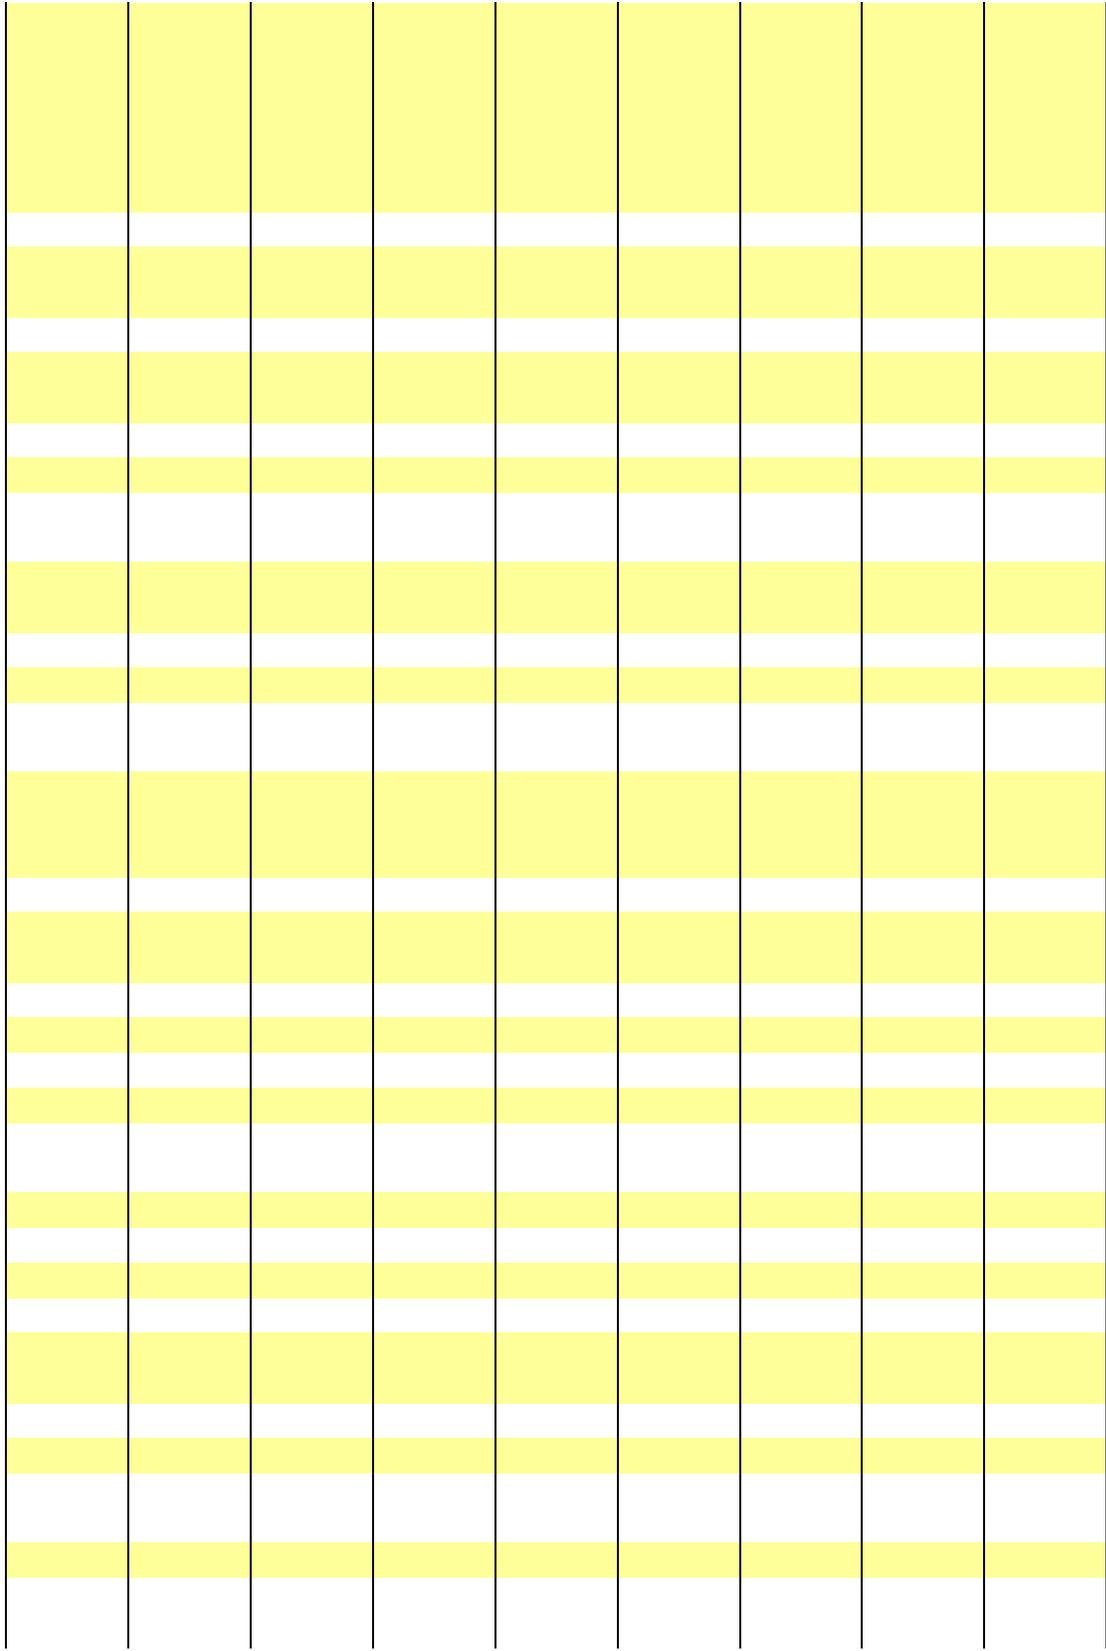

The image shows a 9x9 grid of squares. The top row is yellow, and the rest of the grid follows a checkerboard pattern. The cells are defined by black lines. The rows are as follows:

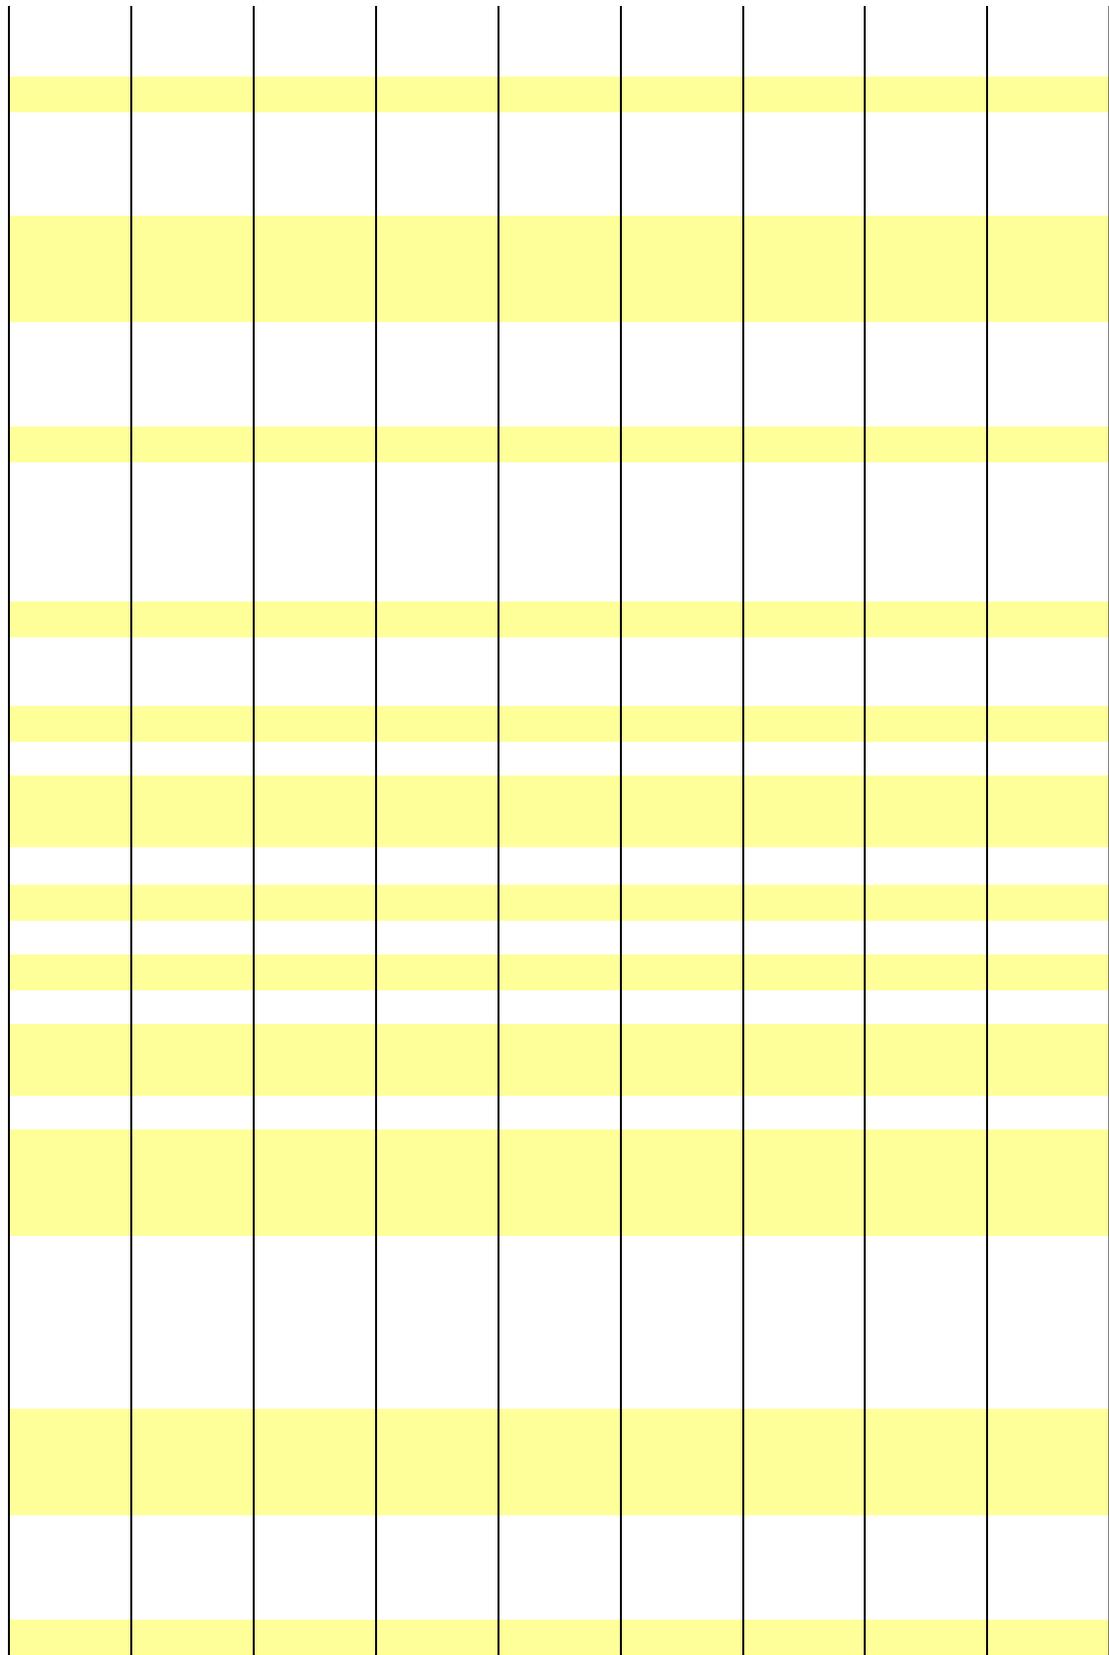

- Row 1: 9 yellow squares.
- Row 2: 9 white squares.
- Row 3: 9 yellow squares.
- Row 4: 9 white squares.
- Row 5: 9 yellow squares.
- Row 6: 9 white squares.
- Row 7: 9 yellow squares.
- Row 8: 9 white squares.
- Row 9: 9 yellow squares.

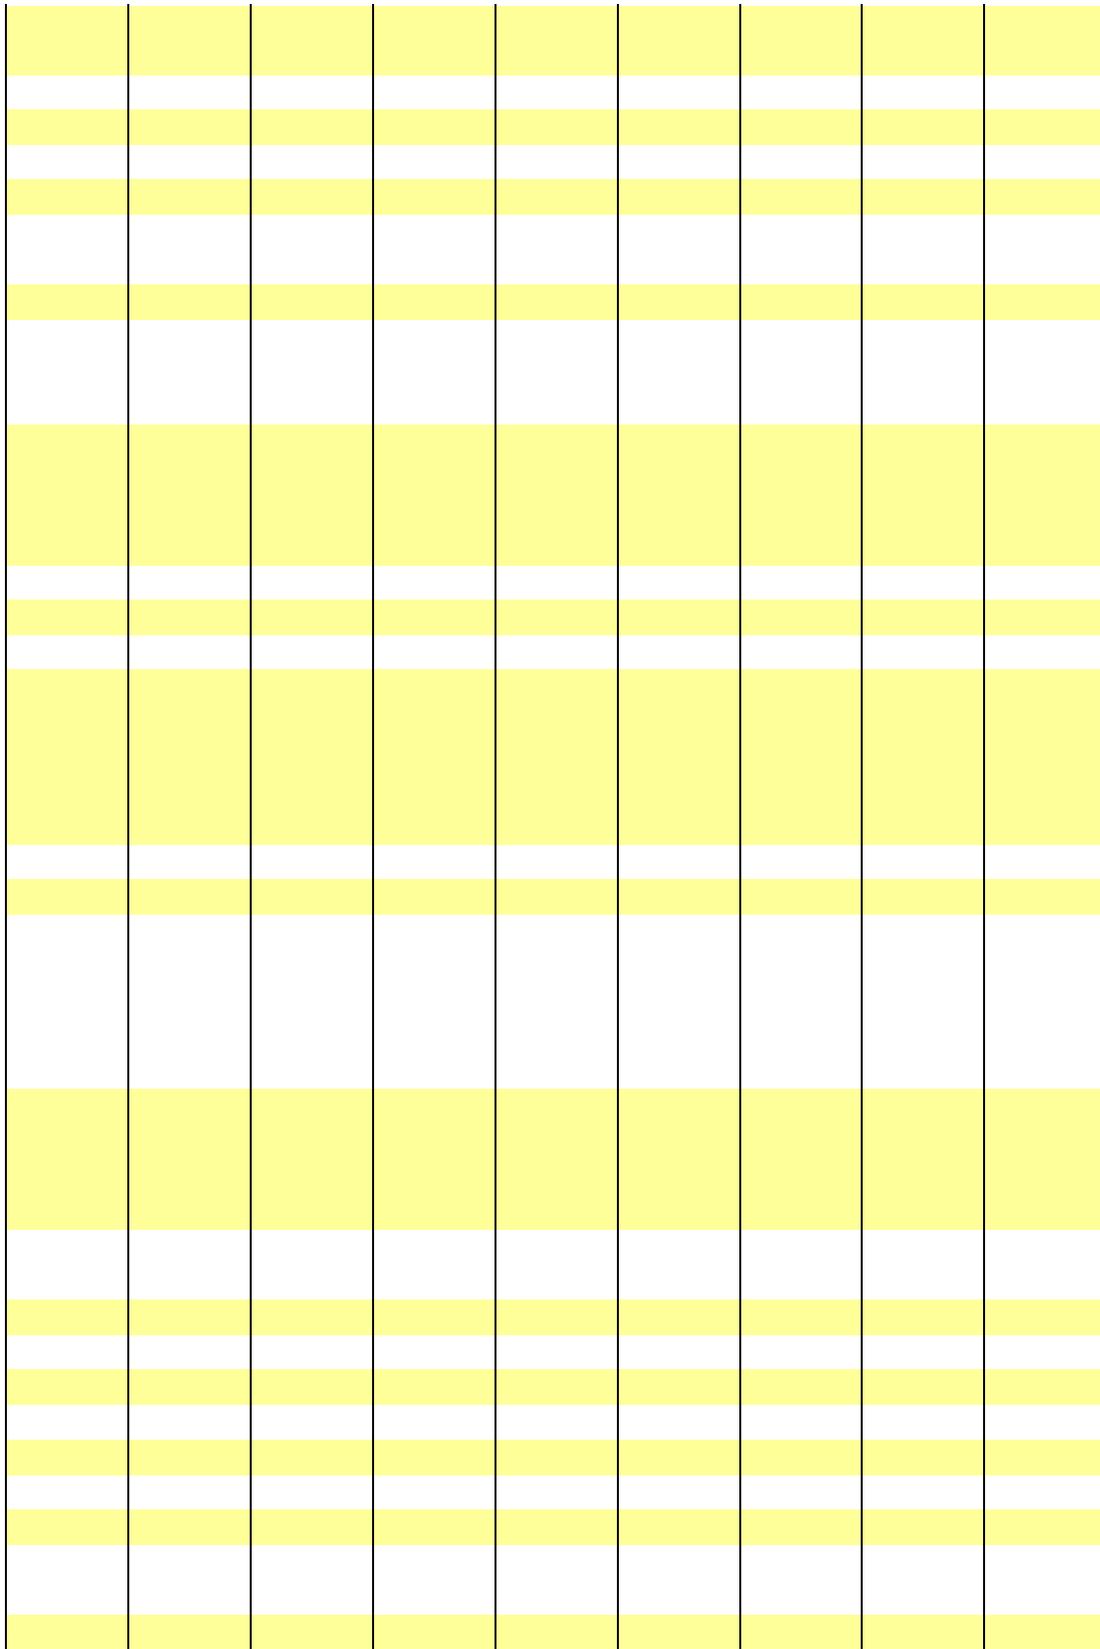

The image displays a grid with 10 columns and 20 rows. The cells are filled in a checkerboard pattern, alternating between yellow and white. The top-left cell (row 1, column 1) is yellow. The grid is bounded by a thin black line on the left and right sides, and the individual cells are separated by thin black lines.

A blank grid with 9 columns and 23 rows. Each cell in the grid is shaded light yellow. The grid is formed by 10 vertical black lines and 24 horizontal black lines.

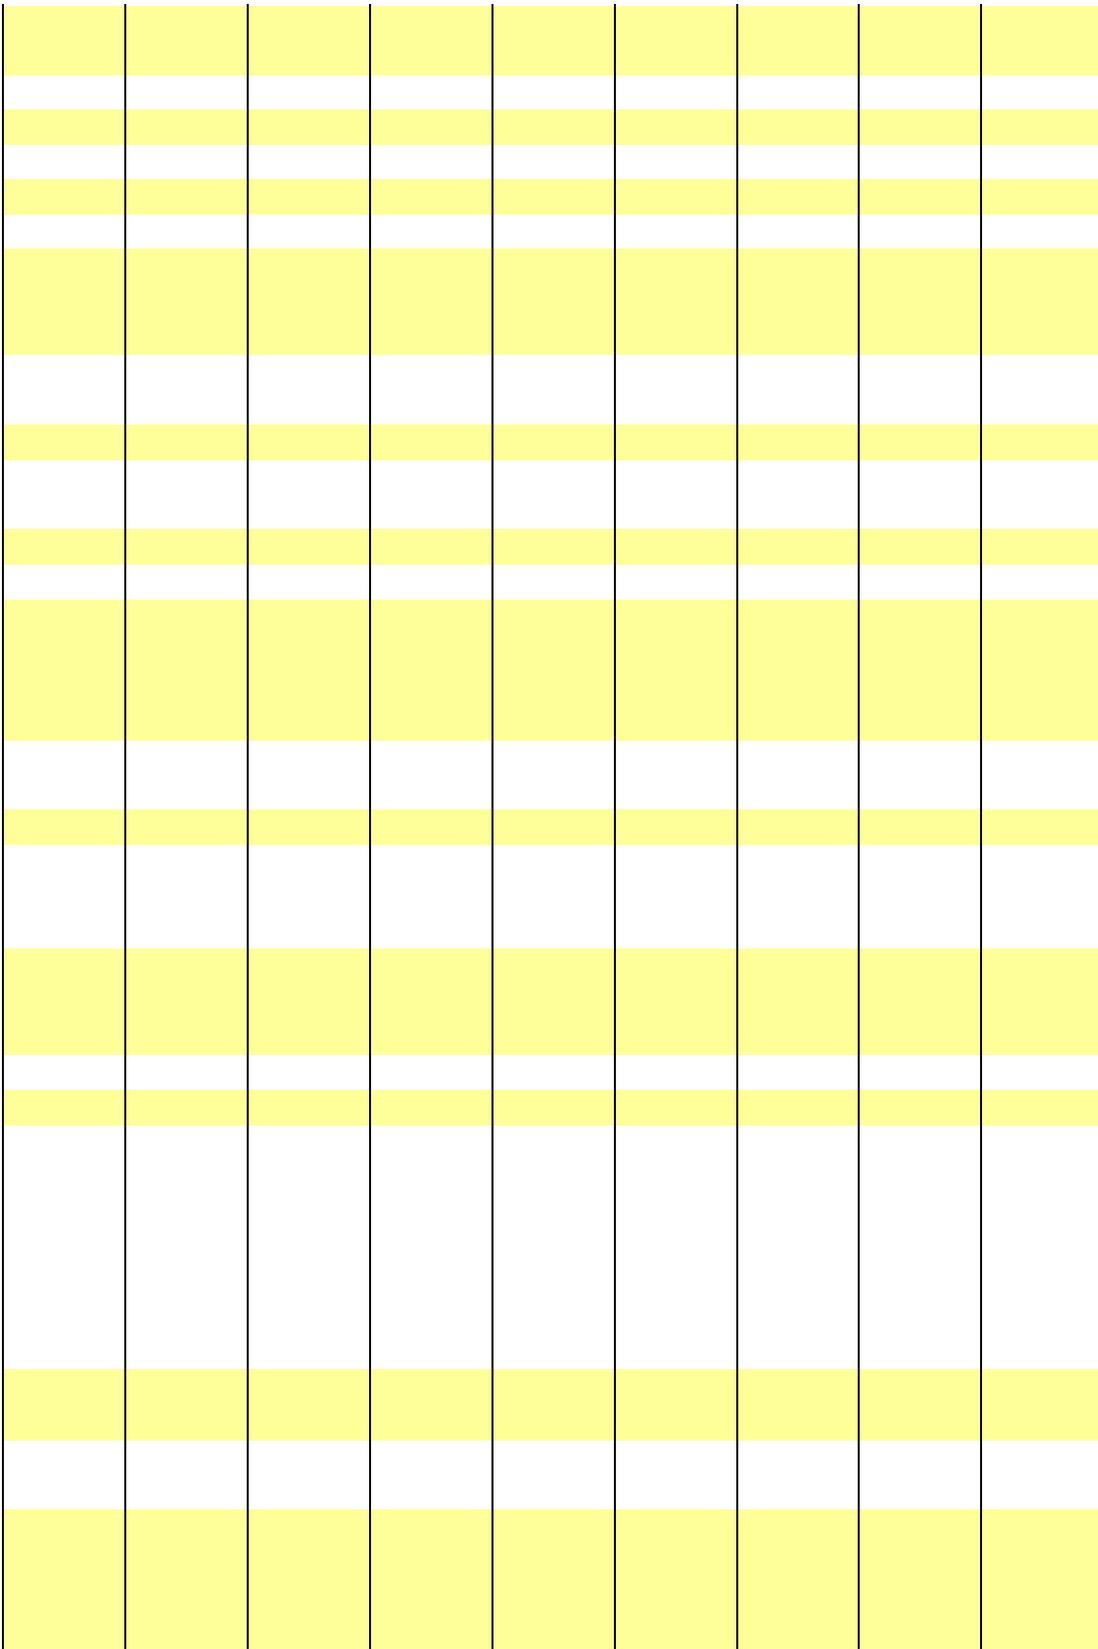

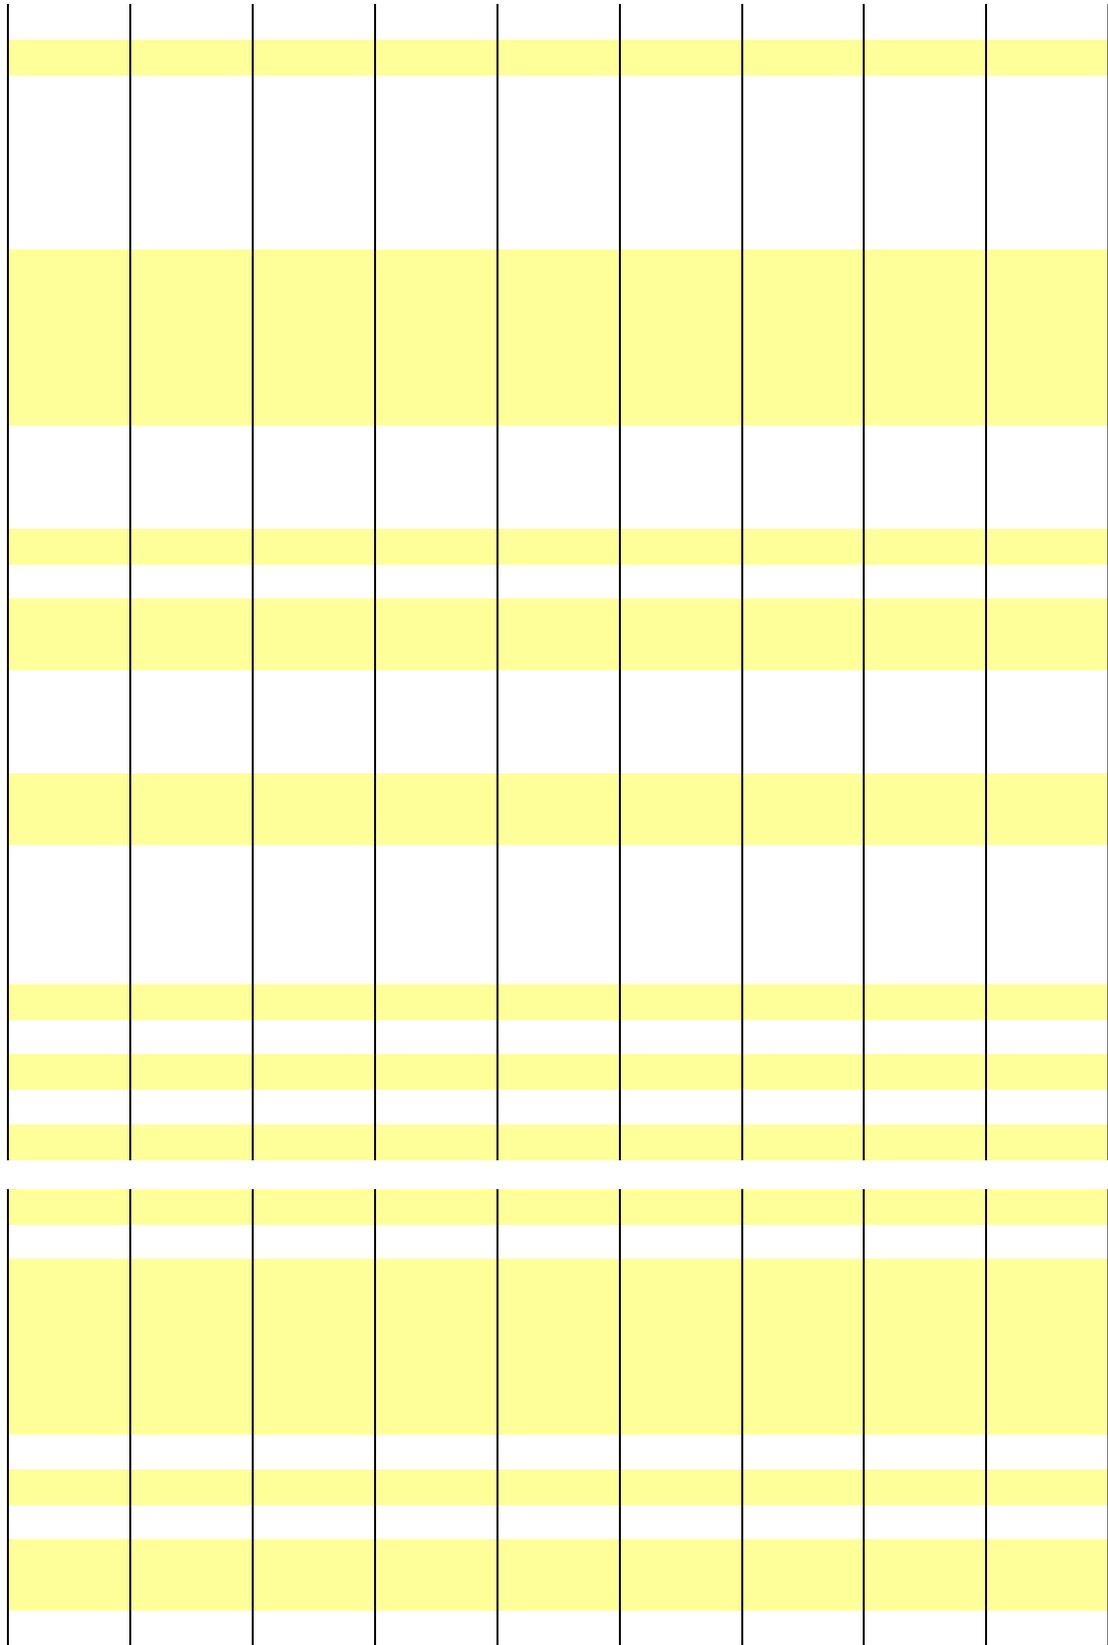

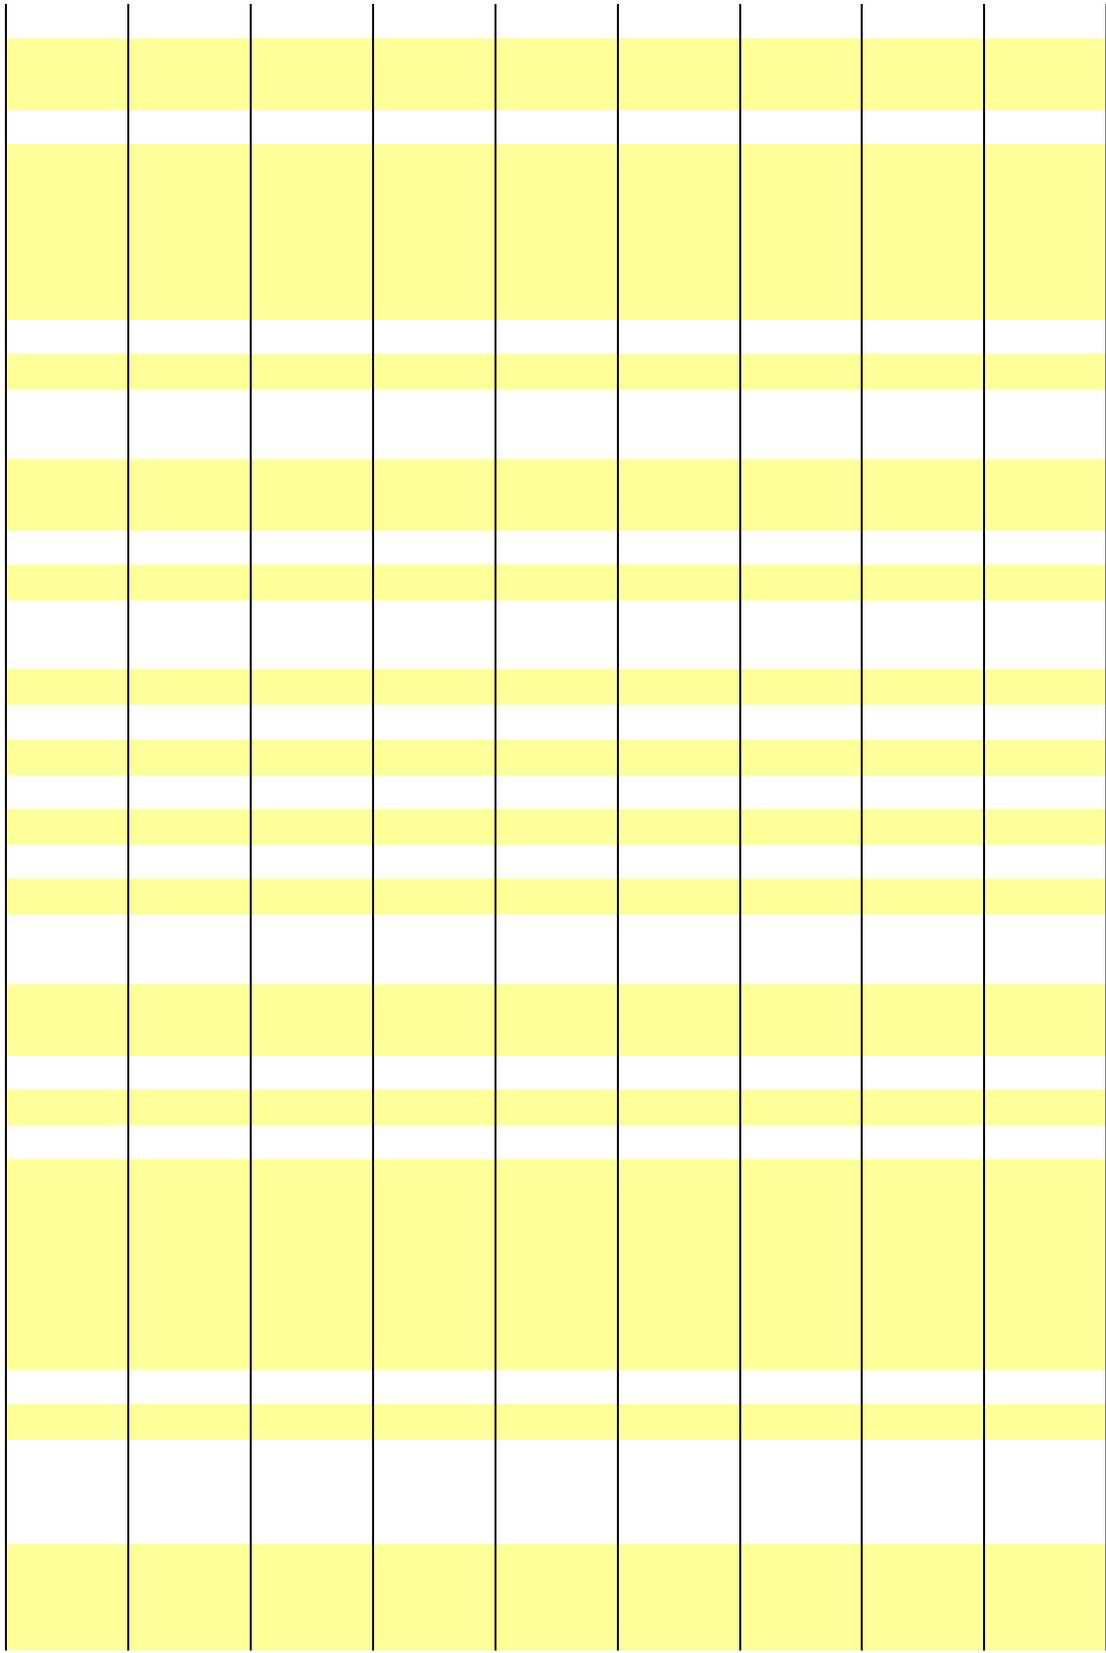

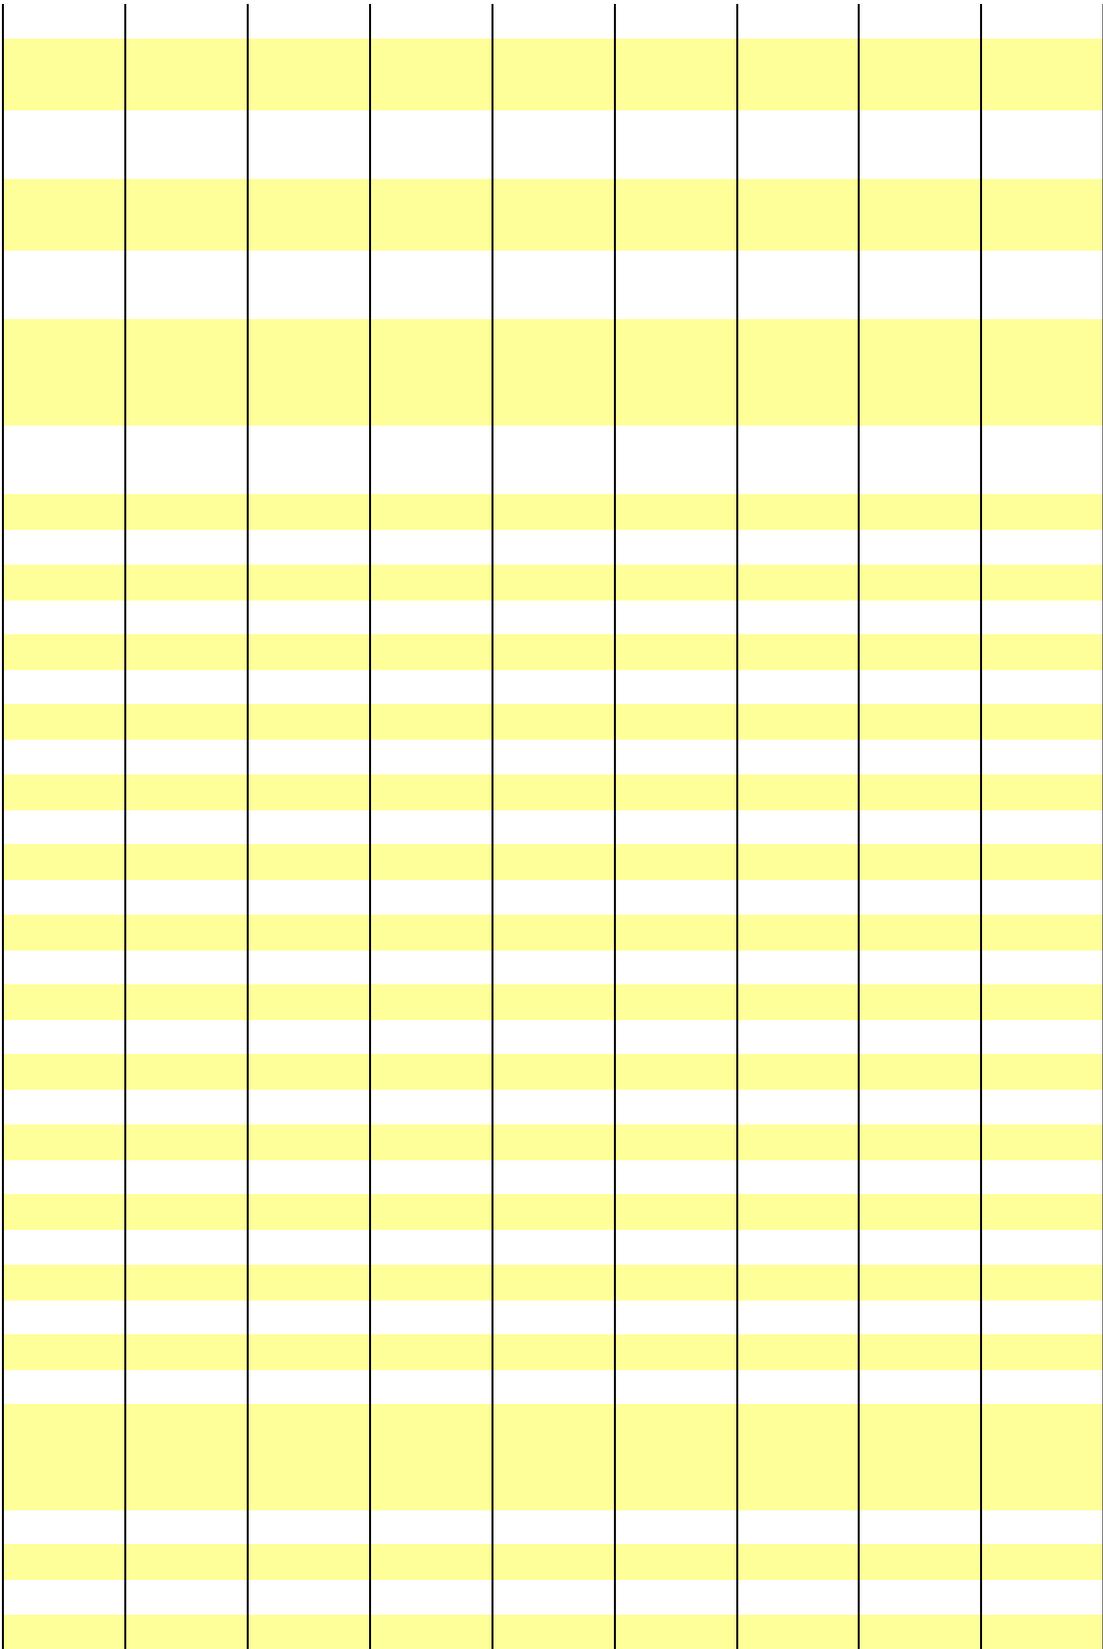

A grid with 9 columns and 24 rows. The cells are filled with a yellow and white striped pattern. The grid is formed by 10 vertical black lines and 25 horizontal black lines. The area between the lines is filled with alternating horizontal stripes of yellow and white. The pattern starts with a yellow stripe at the top, followed by a white stripe, then yellow, and so on, alternating every row.

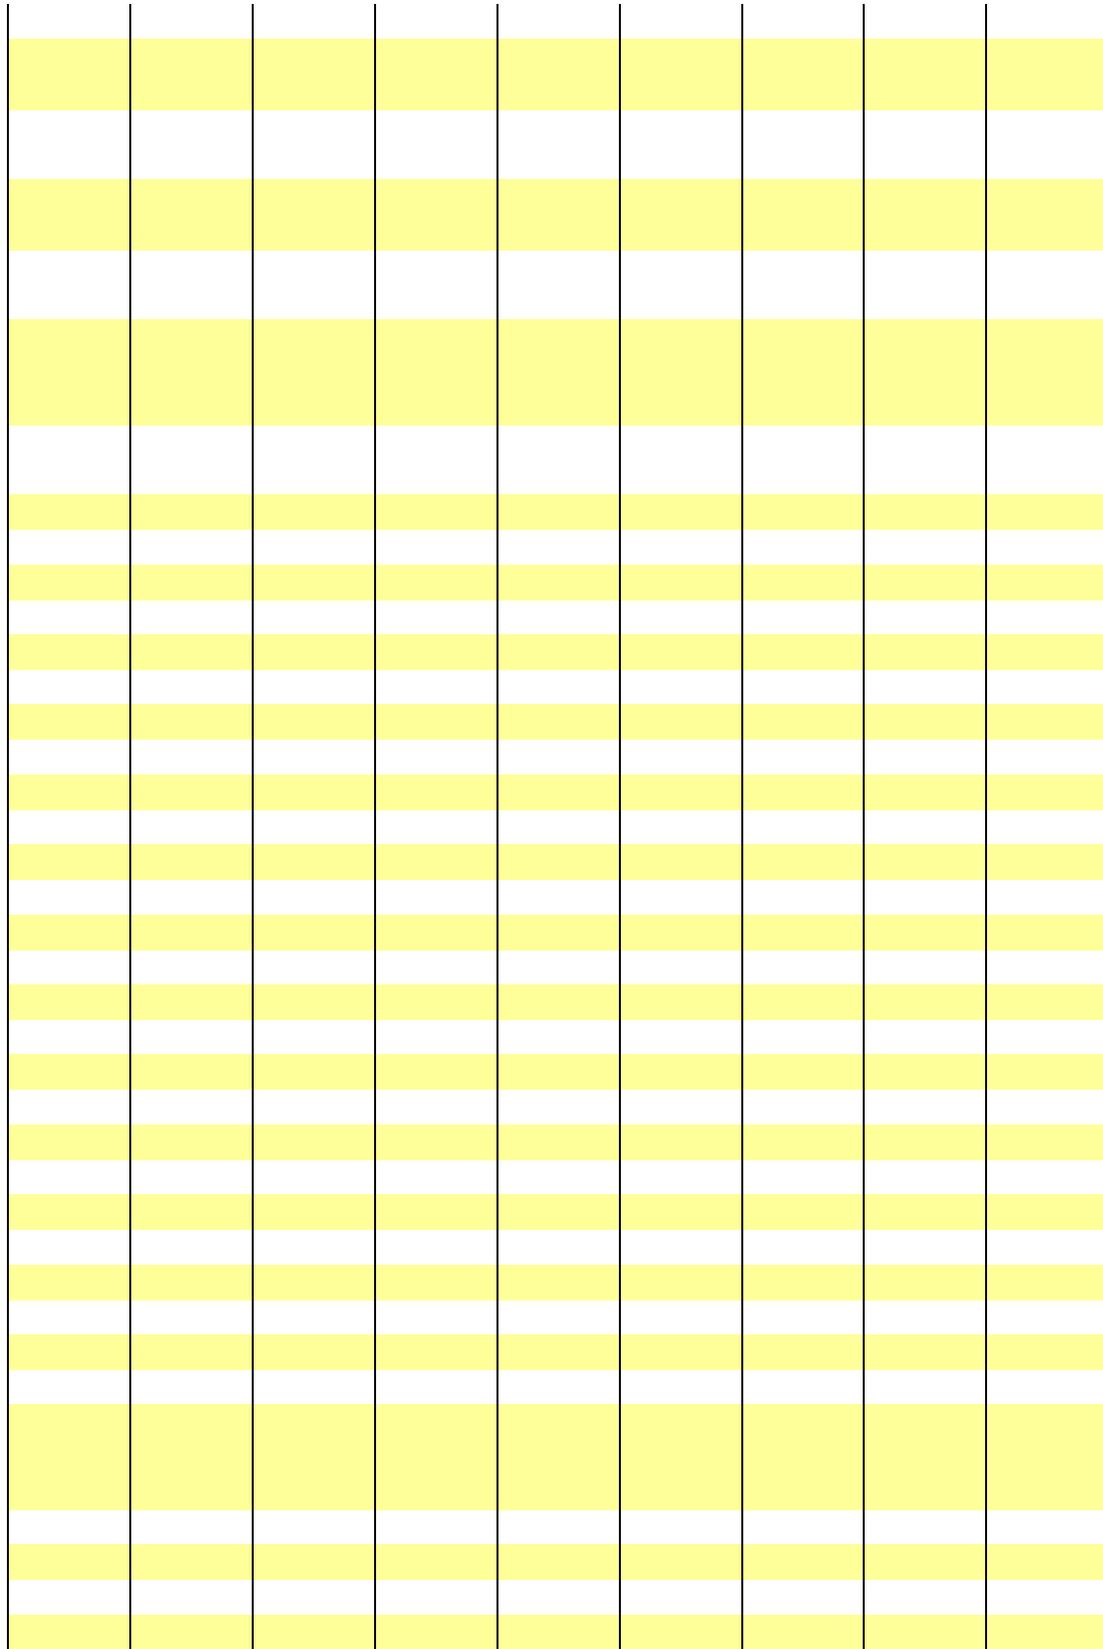

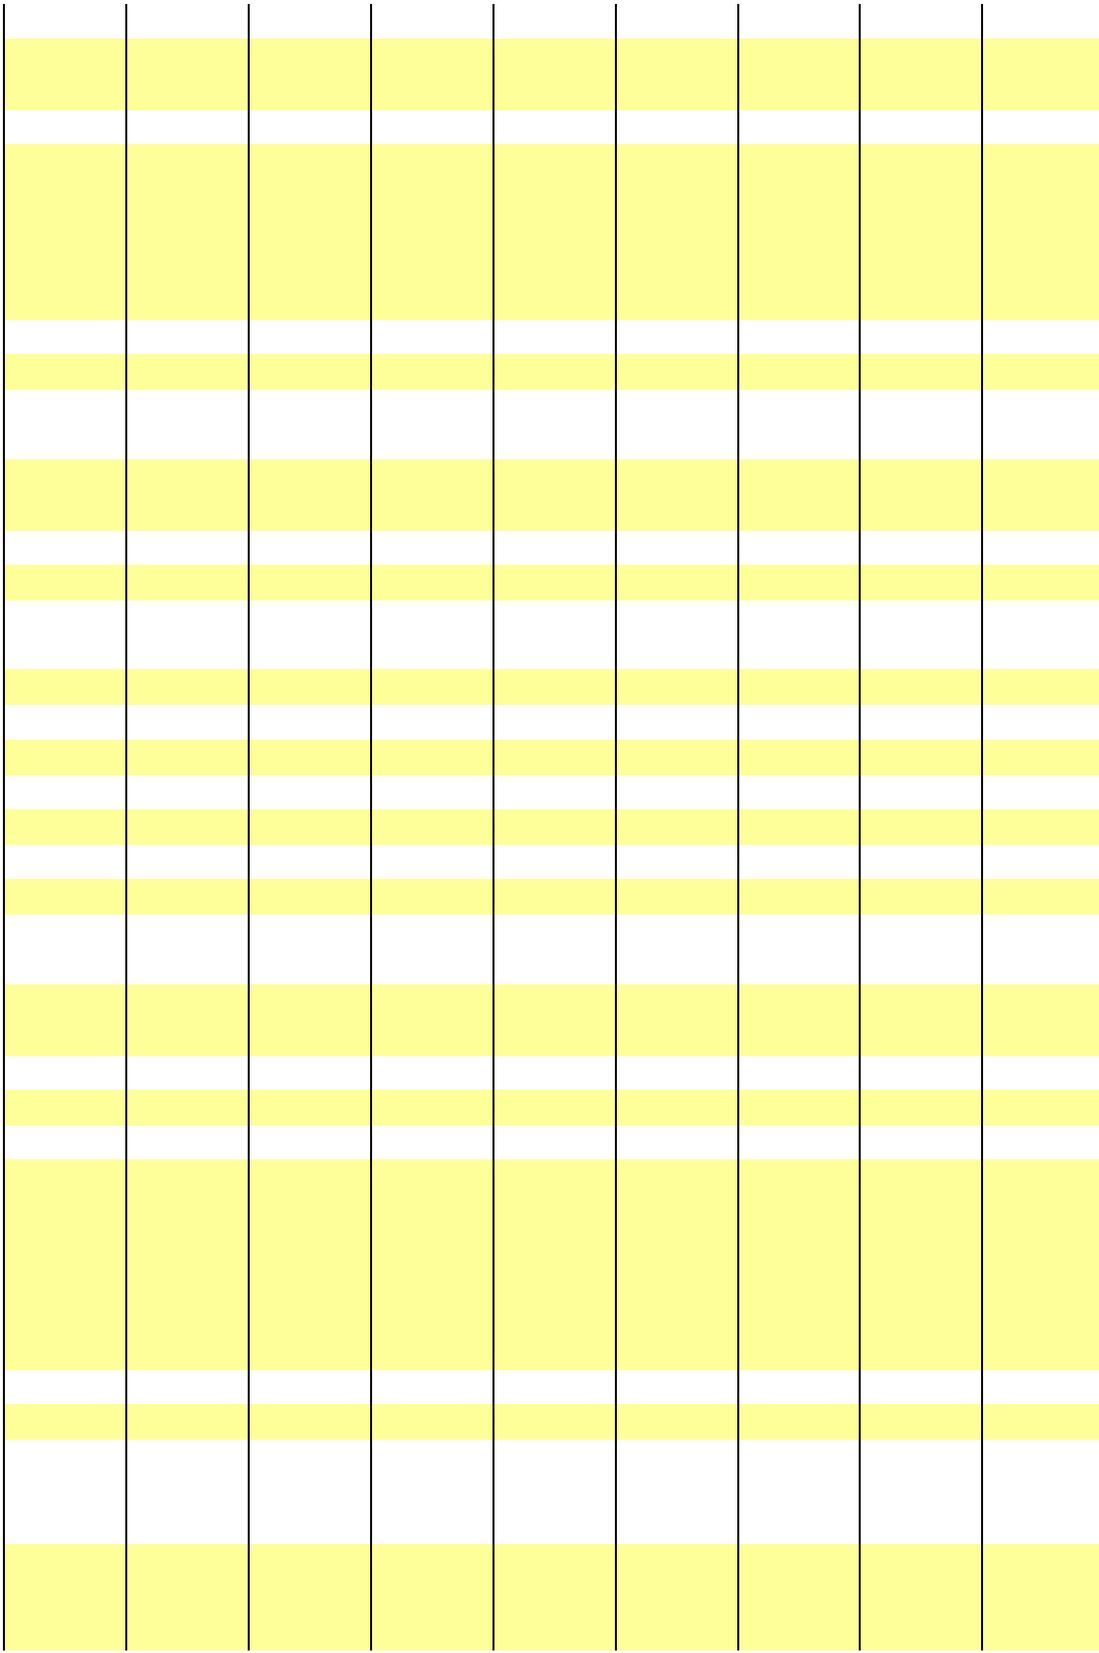

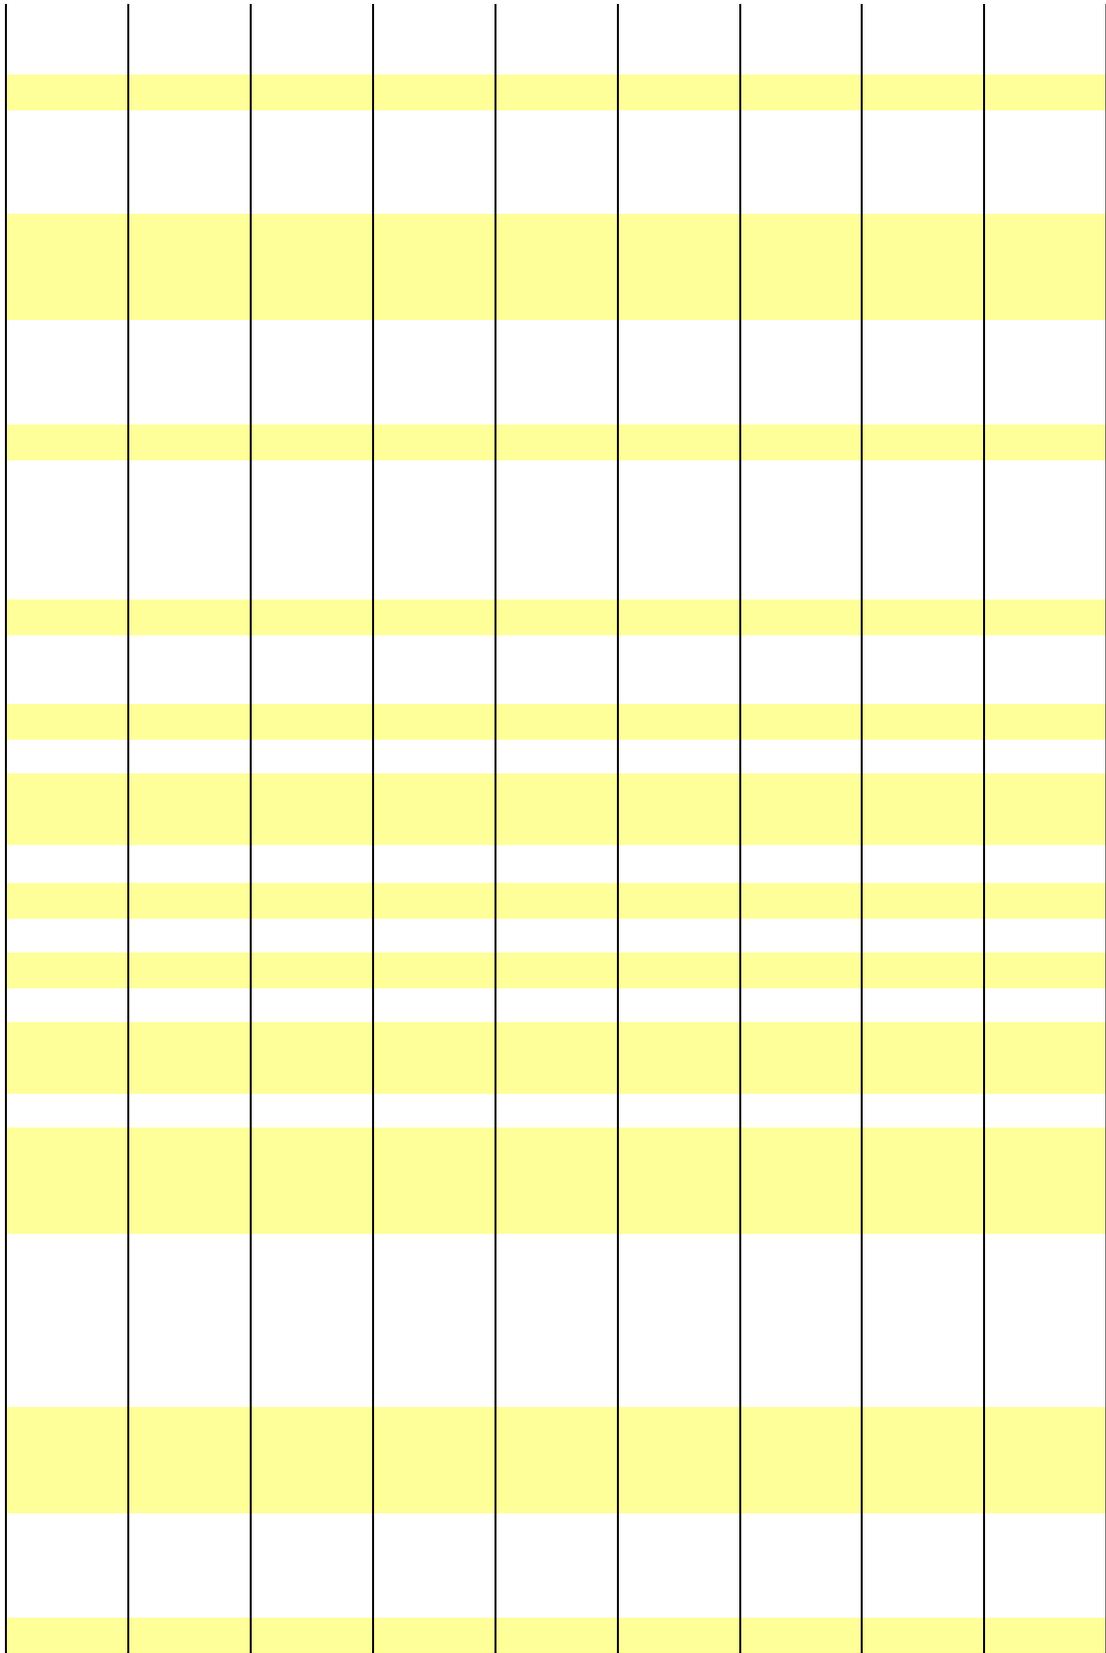

The image shows a grid of 9 columns and 20 rows, divided into two 10-row sections by a horizontal gap. The grid is composed of vertical black lines and horizontal black lines. The top section consists of 10 rows, with the 1st, 3rd, 5th, 7th, and 9th rows filled with a light yellow color, and the 2nd, 4th, 6th, 8th, and 10th rows white. The bottom section also consists of 10 rows, with the 1st, 3rd, 5th, 7th, and 9th rows filled with a light yellow color, and the 2nd, 4th, 6th, 8th, and 10th rows white. The overall pattern is a checkerboard of yellow and white rows.

This image shows a rectangular grid composed of 9 columns and 20 rows. The cells in the grid are colored in a repeating pattern of yellow and white. The top row is entirely yellow. The second row is white, and from the third row down to the bottom row, the cells are yellow in the odd-numbered columns (1, 3, 5, 7, 9) and white in the even-numbered columns (2, 4, 6, 8). The grid is defined by thin black vertical lines.

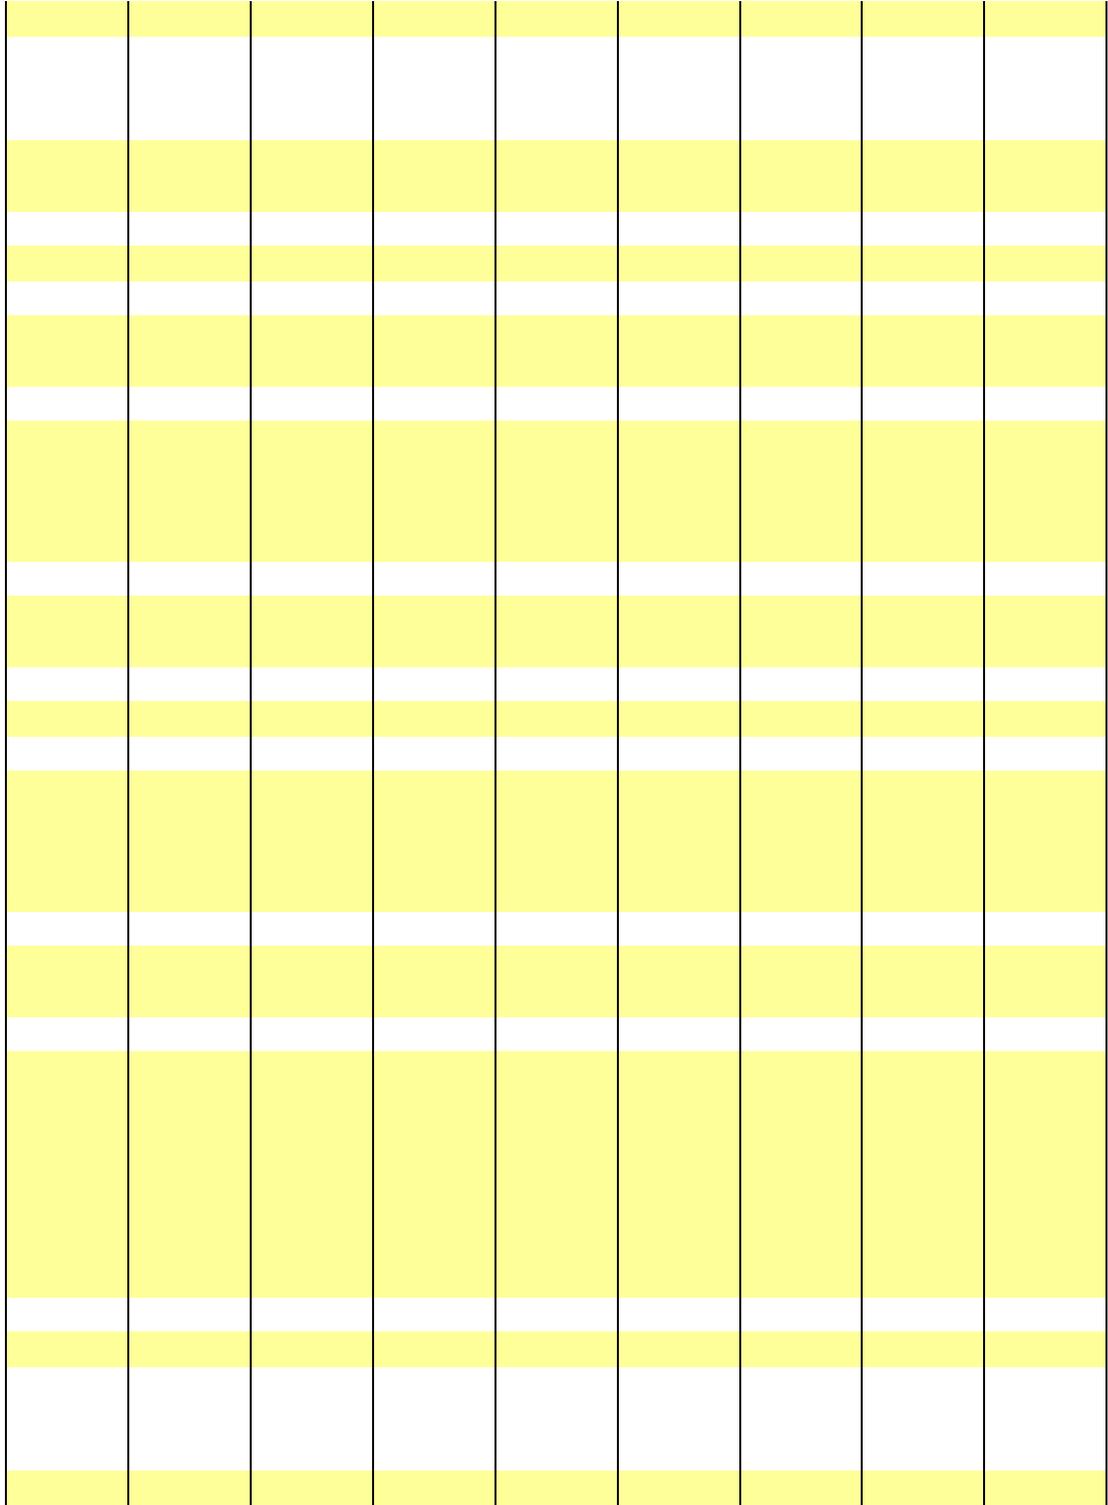

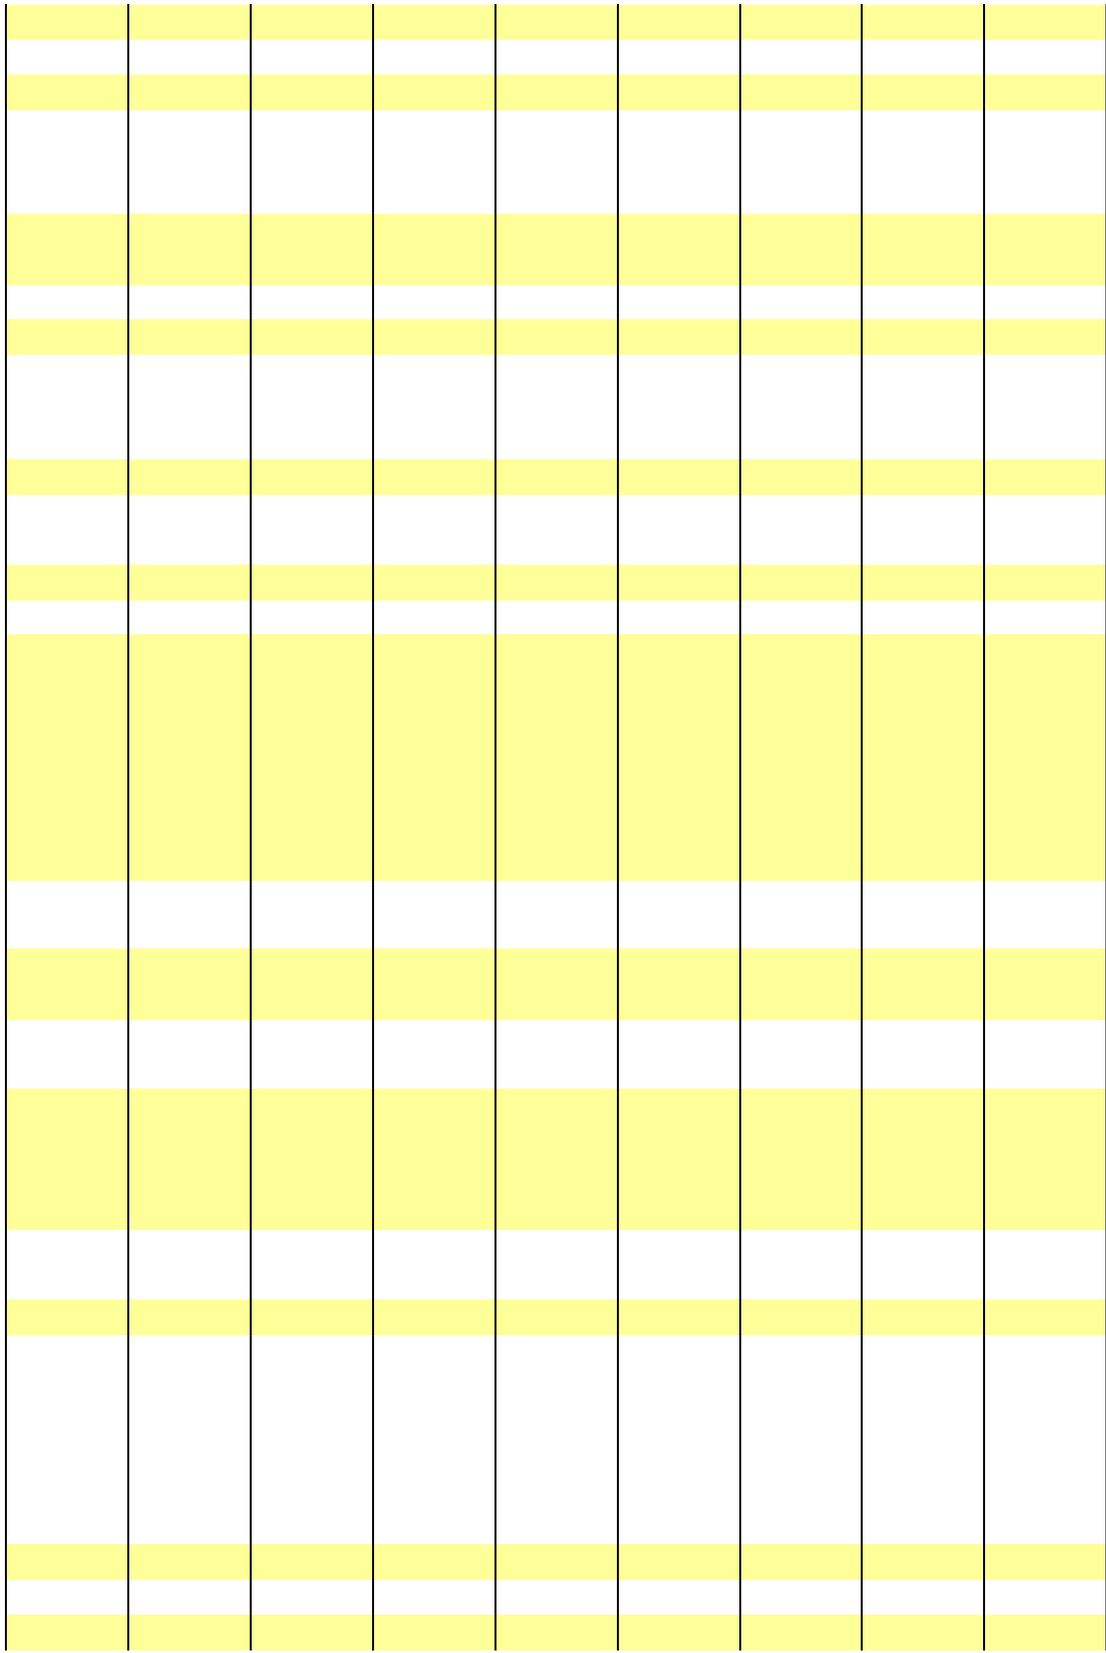

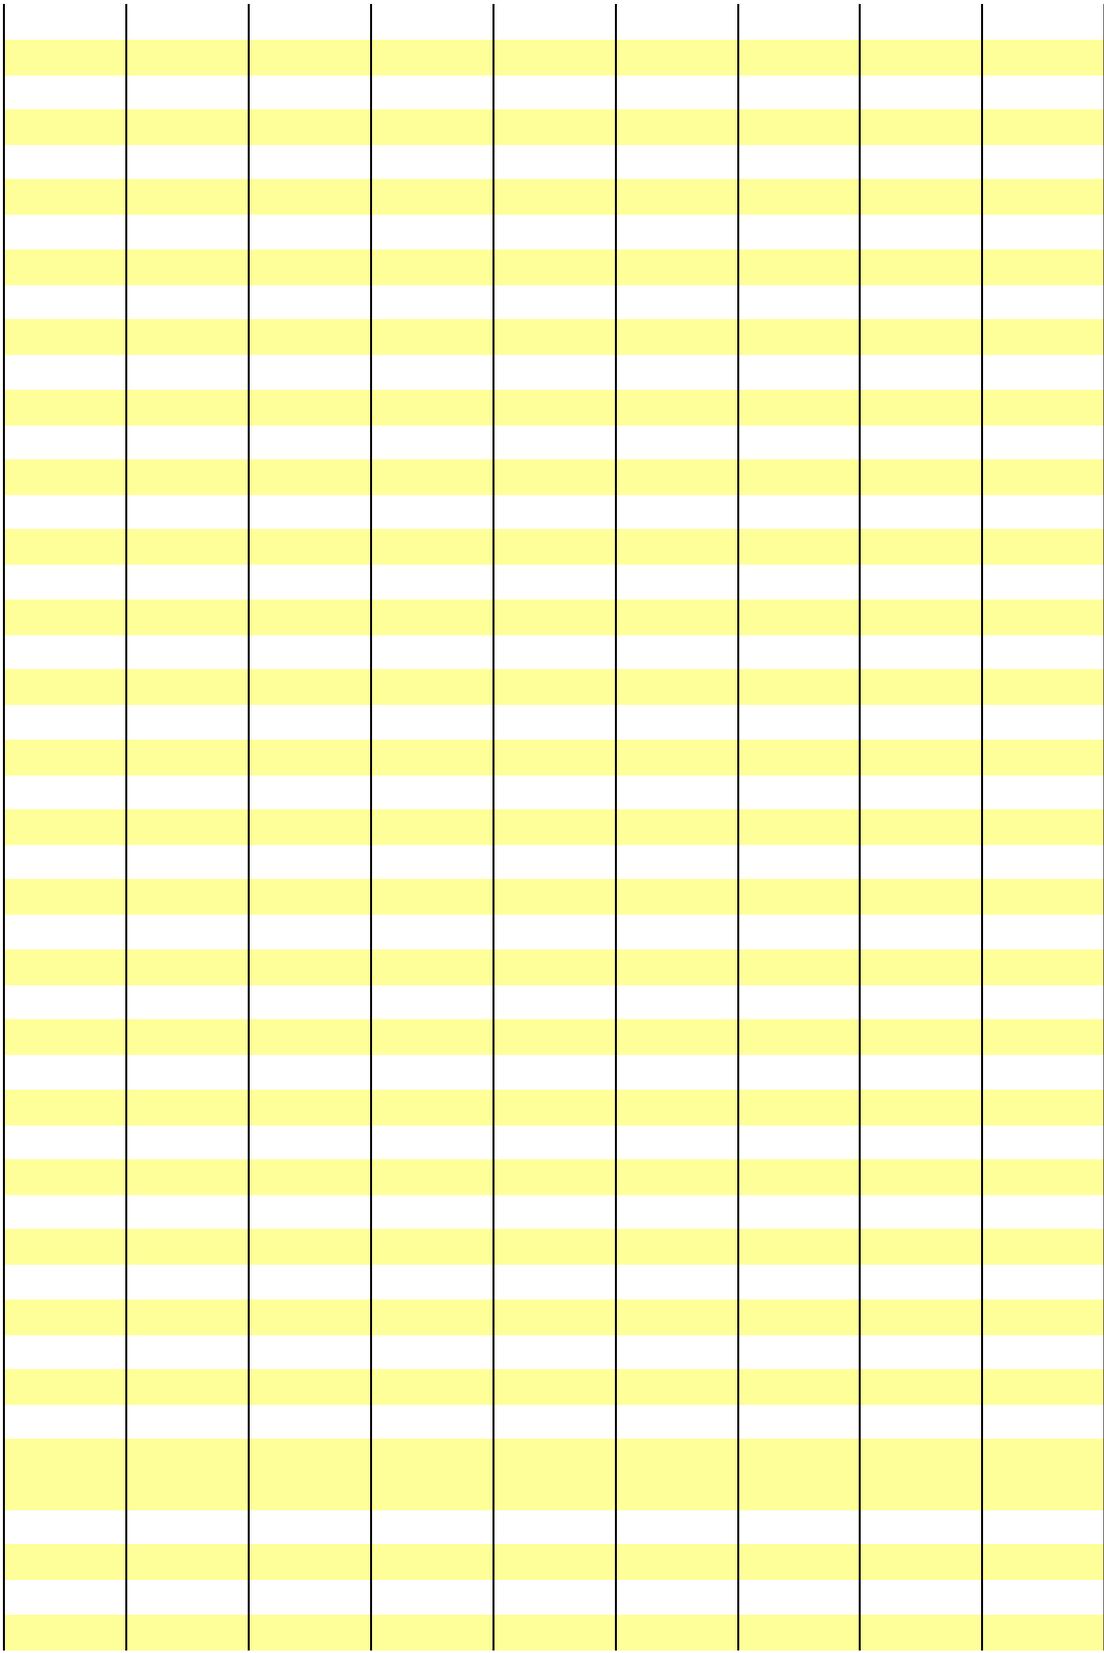

A grid of 30 rows and 9 columns. The cells are filled with a repeating pattern of yellow and white colors in a checkerboard fashion, starting with a yellow cell in the top-left corner. The grid is enclosed by a black border.

The image shows a grid of 9 columns and 20 rows. The cells in the grid alternate in color between yellow and white. The top row is entirely yellow. Each subsequent row starts with a white cell in the first column, followed by a yellow cell in the second column, and so on, alternating colors across all columns. This pattern repeats for all 20 rows.
